In each case of conversion from one variety and sieve size of peas to another variety and sieve size (including blends) of peas the processor must figure this conversion by taking the difference between the specific dollars-and-cents maximum prices named in Table 4 for the two items and either adding this difference to or subtracting it from the constructed base price, as the situation requires. Whether the differential is to be added or subtracted depends on whether the dollars-and-cents price named in Table 4 for the item being priced is higher or lower than that named for the item from which conversion is being made. (For example, the X Canning Company whose factory is located in Area 1 sold Fancy Alaska Peas, No. 3 sieve size, in No. 2 cans during the base period, but made no sales of sweet peas during that period. It is now pricing Fancy Sweet Peas, No. 2 sieve size, in No. 2 cans. To figure the conversion for variety the company takes the difference between the dollars-and-cents price named for the Alaska Pea item in Part 1 of Table 4, and the dollars-and-cents price named in Part 2 of Table 4, for the Sweet Pea item ($1.86—$1.61 equals $.25. Since the company is pricing an item with a higher dollars-and-cents price, the $.25 differential is added to its constructed base price in making the conversion for variety).

An example of how other conversions, such as the conversions for can size and for grade, are figured is illustrated in the example in Appendix B for asparagus.

The word "ungraded" when used in connection with peas, refers to the sieve size and means not separated by sieve size.

The order in which the steps are to be taken in figuring the maximum price for packed peas under subparagraph (2), (3) or 4 of section 5 (a) is as follows:

1. Convert for container size.
2. Add permitted increase specified in Table 3 for variety and grade of packed peas sold in the base period.
3. Convert for variety.
4. Convert for grade.
5. Convert for sieve size.
6. Apply the limitations of the price range.
7. Convert for container type and size.
8. Subtract subsidy payable per unit of the finished product (converted where necessary to the unit being sold, by the use of the conversion factors named in Table 5 when sales are made to purchasers other than government procurement agencies).

AUTHORITY: Secs. 1 to 19 inclusive (§ 1397.-51) issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

ARTICLE I—SCOPE OF REGULATION

SECTION 1. *To what transactions this regulation applies.* (a) This regulation covers installations of building materials into any building, structure, or construction project, and the removal therefrom of building materials, and construction services performed in connection with any building, structure, or construction project within the 48 States of the United States and the District of Columbia.

Such services and sales as excavation, demolition and site clearance, water well drilling, and landscaping are covered by this regulation.

(b) As used in this regulation, the term:

(1) "Construction service" means a transaction in which the seller furnishes only services in order to install building materials or equipment into a building, structure, or construction project or in order to remove building materials or equipment from a building, structure, or construction project. It also includes services for the repair or remodeling of any building, structure, or construction project.

(2) A sale of "installed building materials" means a transaction in which the seller furnishes building materials and equipment together with the services required to incorporate such equipment or materials into a building, structure, or construction project. For the purposes of this regulation, any person who sells a building material product and, in connection therewith, assumes responsibility for its installation, by charging the consumer a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered as the seller of "installed building materials."

(3) "Building materials" means any raw material, processed or fabricated article, equipment, or any other commodity incorporated into or made a part of any building, structure, or construction project.

(4) The words "sell" and "sale", as used in this regulation, also include bids and offers and contracts to sell.

SEC. 2. *Persons covered by this regulation.* Any person who makes the kind of sale or supplies the kind of service and any person who makes the kind of purchase covered by this regulation is subject to it. The term "person" means an individual, corporation, partnership, association, or any other organized group of persons; its legal successors or representatives; the United States or any other government, or any of its political subdivisions; or any agency of any of the foregoing; and includes subcontractors as well as prime contractors.

SEC. 3. *Exclusions from this regulation.* This regulation does not apply to:

(a) The supply of any construction service or the sale of any installed building materials or equipment for which a maximum price is established by any other price regulation. Section 4 (b) gives several examples.

(b) The supply of any construction service or the sale of installed building materials or equipment pursuant to a contract entered into prior to November 5, 1942. Such services or sales remain subject to the regulation applicable to the service or sale prior to November 5, 1942.

SEC. 4. *Relation of this regulation to other regulations—*(a) *General Maximum Price Regulation.*[2] This regulation supersedes the General Maximum Price Regulation for services and sales covered by this regulation, just as Maximum Price Regulation No. 251, prior to the present revision, superseded the General Maximum Price Regulation on and after November 5, 1942, for "Construction and Maintenance Services and Sales of Building and Industrial Equipment and Materials on an Installed or Erected Basis."

Construction services excluded from the General Maximum Price Regulation by paragraph (b) of Revised Supplementary Regulation No. 11[3] to the General Maximum Price Regulation, including future amendments thereto, are also excluded from this regulation.

(b) As stated in section 3, services and sales for which a maximum price is established by any other price regulation are not covered by this regulation. This means that services and sales covered by Revised Maximum Price Regulation No. 165[4] (Services), Maximum Price Regulation No. 134[5] (Construction and Road Maintenance Equipment Rental Prices and Charges for Operating and Maintenance or Repair and Rebuilding Charges), Maximum Price Regulation No. 136[6] (Machines and Parts, and Machinery Services), and other price regulations which establish maximum prices for certain types of services and sales will remain subject to these regulations. If any seller is in doubt as to the governing regulation, he should seek advice from the nearest OPA field office.

ARTICLE II—MAXIMUM PRICES

SEC. 5. *How to figure maximum prices.* (a) This regulation provides for two types of sales:

(1) Section 6 sets forth the maximum-pricing formula for sales on a unit-price basis, and

(2) Section 7 sets forth the maximum-pricing formula for contract jobs, both cost-plus and lump-sum.

(b) *Adjustable pricing.* Any person may supply a construction service or make a sale of installed building materials at the maximum price permitted by this regulation, subject to an agreement with the buyer to charge a higher price if it becomes permissible at the date the service is supplied or the material or equipment is installed. Moreover, when a request for a change in the applicable maximum price is pending, the Price Administrator may, upon application, grant the seller authorization to adjust maximum prices for services supplied on sales made during the pendency of the request in accordance with its disposition. Authorization will be given only if such action will aid in the war program or is essential to a standard of living consistent with the prosecution of the war and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization will be given by order, except that it may be given by letter or telegram when the pending request is for an individual application for adjustment.

SEC. 6. *Maximum prices for sales on a unit-price basis.* The maximum price for sales on a unit-price basis, such as per-hour, per-foot, per-square, or other time or measurement basis, shall be figured as follows:

(a) *If the same kind of work was done during March 1942.* If, during March 1942, the seller did the same kind of work, his maximum price is the highest price he charged during March 1942 to a purchaser of the same class, using the highest March 1942 unit rate for that kind of work, or, if he had no specific rate, the highest price to each class of purchaser resulting from the price-figuring method in use by the seller during March 1942. However, the rate or price determining method may be adjusted by the seller so as to include:

(1) Increases in the cost of materials since March 1942, but not including costs in excess of their maximum prices; and

(2) Increases in labor costs up to and including October 3, 1942. Additional payments for Federal old-age benefits, unemployment compensation taxes, and workmen's compensation and public liability insurance shall be regarded as being part of such increased labor costs.

(b) *If the same kind of work was not done during March 1942.* If, during March 1942, the seller did not do the same kind of work, or if he cannot figure his maximum price under paragraph (a) for any other reason, the seller shall file with the OPA District Director for the district in which his principal place of business is located an application for approval of a proposed maximum price, giving the following information:

(1) His name and address;

(2) Kinds of sales to be made;

(3) Area in which sales are to be made;

(4) Reasons why the pricing provisions of paragraph (a) are not applicable;

(5) Proposed maximum price;

(6) Basis for the requested maximum price, showing costs and margin (including profit). If labor rates for the particular class of mechanics or laborers have increased since October 3, 1942, show the October 3, 1942 rate, increases since that time, and whether such increases have been authorized or approved by the Wage Adjustment Board, National War Labor Board, or Economic Stabilization Director;

(7) The names and addresses of representative competitive sellers in the same area, and their maximum prices for the same or similar sales, if the maximum prices are readily available.

Any maximum price authorized under this paragraph (b) will be a price in line with the level of maximum prices established under the regulation. An authorized maximum price will not be in effect under this paragraph (b) until the seller has been notified of the approval, through the issuance of a letter-order, by the District Director of the Office of Price Administration.

For price adjustment provisions, see section 8.

SEC. 7. *Maximum prices for sales on a contract job basis.* The maximum price for sales on the basis of a particular job, not including sales on a unit-price basis, shall be figured as follows:

(a) *Cost-plus jobs.* For sales on the basis of cost-plus-a-percentage-of-cost, cost-plus-a-fixed-fee, or any other basis of addition to cost, the maximum price shall be the sum of the following factors:

(1) Actual cost of materials (including installed equipment), not exceeding their maximum prices: *Provided, however,* That as to any building materials or equipment regularly manufactured or processed by the seller for the purpose of sale both on an uninstalled and installed basis, instead of actual cost he may charge up to, but not more than, the maximum price applicable to a sale by him of such materials or equipment to a third party of the same class.

(2) Actual labor costs, not exceeding labor cost figured on the basis of labor rates prevailing in or applicable to the area of installation on October 3, 1942, for the same classes of mechanics or laborers employed on a comparable type of work.

(3) Other actual direct costs, including the cost of subcontracts, not otherwise provided for in paragraphs (a) (1) and (2) above, but not exceeding their maximum prices: *Provided, however,* That a seller using his own equipment necessary for installing building materials or for performing a construction service may, instead of actual cost, include up to, but not more than, the maximum rental rates applicable to a rental by him of such equipment to a third party of the same class.

Selling expenses shall be included under subparagraph (4), and not as "other actual direct costs."

(4) A margin to include administrative and overhead costs, selling expenses, and profit (excluding any reserve for contingencies) not in excess of (i) the seller's highest estimated percentage margin on a comparable sale involving the same type of work during the period January 1, 1939, to March 31, 1942, supported by his records or other satisfactory evidence of such a sale or sales by him; or (ii) if the margin cannot be figured on that basis, a margin which would have been his margin in March 1942 on a comparable sale involving the same type of work and based upon his own general experience or the industry's experience on such comparable sales, supported by records or satisfactory evidence of his own sales or comparable sales by other sellers. (Records or evidence supporting margins must be produced upon request of OPA.)

Any changes in plans or specifications which will increase or decrease the cost of a job shall be priced on the basis of the formula in paragraph (a) of this section 7.

For price adjustment provisions, see section 8.

(b) *Lump-sum jobs.* For sales on the basis of a total selling price (inclusive of all costs and profit), commonly called a lump-sum contract, the maximum price shall be the sum of the following factors:

(1) Estimated cost of materials (including installed equipment), not exceeding their maximum prices; *Provided, however,* That as to any building materials or equipment regularly manufactured or processed by the seller for the purpose of sale both on an uninstalled and installed basis, instead of estimated cost he may charge up to, but not more than, the maximum price applicable to a sale by him of such materials or equipment to a third party of the same class.

(2) Estimated labor costs, not exceeding labor cost figured on the basis of labor rates prevailing in or applicable to the area of installation on October 3, 1942, for the same classes of mechanics or laborers employed on a comparable type of work.

(3) Other estimated direct costs, including the cost of subcontracts, not otherwise provided for in paragraphs (b) (1) and (2) above, but not exceeding their maximum prices: *Provided, however,* That a seller using his own equipment necessary for installing building materials or for performing a construction service may, instead of estimated cost, include up to, but not more than, the maximum rental rates applicable to a rental by him of such equipment to a third party of the same class.

Selling expenses shall be included under subparagraph (5), and not as "other estimated direct cost."

(4) An estimated reserve for such contingencies as the seller in good faith can reasonably foresee: *Provided, however,* That no amounts shall be included within the estimated reserve for contingencies which represent costs in excess of those permitted under paragraph (b) (1), (2), and (3) of this section 7 (b).

(5) A margin to include administrative and overhead costs, selling expenses, and profit not in excess of (i) the seller's highest estimated percentage margin on a comparable sale involving the same type of work during the period January 1, 1939, to March 31, 1942, supported by his records or other satisfactory evidence of such a sale or sales by him; or (ii) if the margin cannot be figured on that basis, a margin which would have been his margin in March 1942 on a comparable sale involving the same type of work and based upon his own general experience or the industry's experience on such comparable sale, supported by records or satisfactory evidence of his own sales or comparable sales by other sellers (Records or evidence supporting margins must be produced upon request of OPA).

Any changes in plans or specifications which will increase or decrease the cost of a job shall be priced on the basis of the formula in paragraph (b) of this section 7.

For price adjustment provisions, see section 8.

October 3, 1942, by reason of a predetermination of wage rates by the Secretary of Labor under the Davis-Bacon Act or an order or authorization of the Wage Adjustment Board, National War Labor Board, or Economic Stabilization Director may add his increased labor cost to his maximum price determined under section 6 or 7. For the purpose of this section "increased labor cost" means the difference in amount between the employer's labor cost based upon labor rates in effect on October 3, 1942, and his labor cost based upon such legally approved rates, plus his additional payments for Federal old age benefits, unemployment compensation taxes, workmen's compensation and public liability insurance.

It should be noted that the increased labor cost is to be added to the maximum price determined under section 6 or 7; this means that the increased labor cost may not be used in the calculation under section 6 or 7 so as to be subject to the mark-up factor.

An application need not be made to the Office of Price Administration nor its prior approval obtained in order to put into effect the maximum price increases described in this paragraph (a).

(b) *Other wage increases.* In the case of any employer who employs a total of not more than 8 persons, and if wage increases paid by him have been exempted from the provisions of Executive Order No. 9250 by the National War Labor Board and do not violate any regulations of that Board, price adjustments may be made in either of the following situations:

(1) When there has been made a wage predetermination under the Davis-Bacon Act or a wage award by the Board or Office having jurisdiction, which affects a substantial number of employers in a particular area, each Regional Administrator of the Office of Price Administration, and any District Director to whom he has by order delegated authority, may issue a price adjustment order applicable to all sellers of the same or similar commodities or services in the area, for the kinds of work involved, authorizing the addition of the increased labor cost to established maximum prices, where this is found generally necessary to maintain essential construction services or essential sales of installed building materials; or

(2) In all other cases within this paragraph (b), each Regional Administrator, and any District Director to whom he has by order delegated authority, may make adjustments or act upon applications for adjustment filed by sellers in accordance with Revised Procedural Regulation No. 1, subject to a finding that the adjusted maximum price will be in line with maximum prices of competitive sellers for the same or most similar types of sales, considering the type of work to be performed, the classes of mechanics or laborers employed on such work, and the comparability of operations between applicant and his competitors.

(c) *Local shortage.* The Price Administrator, or any duly authorized representative thereof, may by order adjust any maximum price established under this regulation whenever it is determined:

(1) That there exists or threatens to exist in a particular locality a shortage in the supply of any building materials or equipment on an installed basis or the supply of any construction service subject to this regulation, which aids directly in the war program or is essential to a standard of living consistent with the prosecution of the war; and

(2) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of such seller and of like sellers for such commodity or service; and

(3) That such adjustment will not create or tend to create a shortage, or a need for increases in prices, in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

Each Regional Administrator is authorized to make adjustments or act upon applications for adjustment under this paragraph (c).

Applications for adjustment shall be filed in accordance with Revised Procedural Regulation No. 1.[7]

(d) *Government contracts.* Any person who has made or intends to make a government contract, or subcontract thereunder, who believes that a maximum price under this regulation impedes or threatens to impede the production, manufacture, or distribution of a commodity or the supply of a service which is essential to the war program and which is or will be the subject of the contract or subcontract may file an application for adjustment of that maximum price in accordance with Procedural Regulation No. 6,[8] issued by the Office of Price Administration.

SEC. 9. *Regional pricing orders under this regulation.* (a) Each Regional Administrator of the Office of Price Administration is hereby authorized to issue and put into effect pricing orders under this Revised Maximum Price Regulation No. 251, in accordance with the Emergency Price Control Act of 1942, as amended, and consistent with Executive Orders Nos. 9250 and 9328, establishing maximum prices for particular kinds, types, or classifications of construction services or sales of installed building materials, or both, applicable to a particular community or a defined area. Any such pricing order issued in accordance with this section 9, including the standards set forth below, shall have the same force and effect as if issued by the Price Administrator. Any such pricing order may be revised, amended, or revoked by the Price Administrator.

In issuing regional pricing orders under this section 9, each Regional Administrator shall observe the following standards:

(1) Maximum prices shall be stated in dollars-and-cents terms unless this shall clearly appear to be impracticable or inappropriate.

(2) Maximum prices fixed by any such pricing order shall not exceed the general level of prices fixed by Revised Maximum Price Regulation No. 251.

(b) Regional pricing orders and accompanying opinions issued under this section 9 shall be filed with the Division of the Federal Register.

SEC. 10. *Prohibitions against sales at higher than maximum prices.* On and after the effective date of this regulation:

(1) No person shall sell, offer to sell, or deliver building materials or equipment on an installed basis, or sell or supply any construction service at a price higher than the maximum price established by this regulation.

(2) No person in the course of trade or business shall buy or receive any building materials or equipment on an installed basis or any construction service at a price higher than that permitted by this regulation: *Provided, however,* That no buyer shall be liable under this section if, upon completing a sale subject to this regulation, the seller shall give the buyer a written affirmation that to the best of his knowledge, information, and belief the prices charged do not exceed the applicable maximum prices, and if the buyer shall have no cause to doubt the accuracy of the affirmation, and if the actual price paid is not in excess of what the seller affirmed to be the maximum price.

SEC. 11. *Evasions.* (a) Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, agreements, trade understandings, and the like. The following are among the specific practices prohibited:

(1) Requiring the purchaser to furnish material for processing not in accordance with previous practice;

(2) Eliminating or reducing any maintenance or repair service customarily offered as part of a job;

(3) Lowering quality of materials and equipment below that called for in the specifications without making a corresponding reduction in price;

(4) Making terms or conditions of sale more onerous to the purchaser than those in effect or available to the purchaser during the period January 1, 1939, to March 31, 1942, unless the change is necessitated by an order issued by or at the request of any agency of the United States. This includes decreasing the period for which credit is extended, reducing the cash discount period, making greater charges for extension of credit, or reducing the cash discount.

(b) No person shall agree, offer, solicit, or attempt to do any of the acts prohibited by subparagraphs (1), (2), (3), and (4) of this paragraph (a).

SEC. 12. *Less than maximum prices.* Prices lower than maximum prices may, of course, be charged and paid.

ARTICLE III—MISCELLANEOUS

SEC. 13. *Notification to purchasers of existence of regulation.* Every person making sales subject to this Revised Maximum Price Regulation No. 251 shall, before entering into a contract or making a sale subject thereto, notify the purchaser of the existence of the regulation and, upon request of the purchaser, make available a copy of it or a copy of the OPA trade bulletin at the seller's principal place of business and at each of his branch offices for examination by the purchaser: *Provided,* That the requirements of this section 13 do not apply to transactions, including bids, with any agency of the United States.

SEC. 14. *Petitions for amendment.* Any person seeking a modification of any provisions of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1. A petition for amendment must propose a change of general applicability in the regulation for the industry as a whole or a substantial portion thereof or a change affecting all sellers in a given area, as distinguished from an application which seeks an individual price adjustment.

SEC. 15. *Records and reports.*—(a) *Records.* All sellers of building materials or equipment on an installed basis, and all sellers of construction services, must keep records concerning each sale subject to this regulation, including the name of the purchaser, location of the job, the date of the transaction, a description of the commodities and services involved, and a full statement of the method by which the maximum price was calculated, including reference to the appropriate pricing section of the regulation. Records of a kind the seller has customarily kept must also be retained. All such records shall be available for inspection by representatives of the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(b) Persons affected by this regulation shall submit such reports to the Office of Price Administration as it may from time to time require, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

SEC. 16. *Enforcement.* (a) Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses provided for by the Emergency Price Control Act of 1942, as amended.

(b) Agencies of the United States and their contracting or paying finance officers are not subject to any liability, civil or criminal, imposed by this regulation.

SEC. 17. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more maximum price regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 18. *Notification of compliance.* In the case of any sale subject to this regulation the seller, at the time of final settlement, shall, where demand is made by the purchaser, file a statement with the purchaser that the sale price is not in excess of the maximum price determined in accordance with this regulation.

SEC. 19. *Other definitions.* Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to any other terms not specifically defined herein.

Effective date. This regulation shall become effective August 26, 1944.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 21st day of August 1944.

Administrator.

FEDERAL POWER COMMISSION.

[Docket No. G-108]

UNITED GAS CORPORATION

ORDER FIXING DATE OF HEARING

AUGUST 18, 1944.

Upon consideration of the application filed June 28, 1944, as amended, by the United Gas Corporation, seeking an order granting a renewal of authorization, pursuant to Section 3 of the Natural Gas Act, for the exportation of natural gas from the State of Texas, to the Republic of Mexico, for distribution in the City of Nuevo Laredo, State of Tamaulipas, Mexico, and adjoining environs; and

It appearing to the Commission that:

(a) Applicant has heretofore been operating and maintaining facilities for the exportation of natural gas to the Republic of Mexico, for distribution in the City of Nuevo Laredo, pursuant to a Presidential Permit issued on September 5, 1940, to Applicant under Executive Order No. 8202.

(b) On September 10, 1940, the Commission issued an order authorizing the exportation of natural gas by Applicant from the United States to the City of Nuevo Laredo, Mexico, in accordance with the terms of a contract dated September 30, 1931, for the purchase and sale of natural gas between Texas Border Gas Company (predecessor of Applicant), as seller, and Compania de Gas de Nuevo Laredo, S. A., as buyer, as amended by letter dated October 10, 1934, to Compania de Gas de Nuevo Laredo, S. A. from United Gas Public Service Company (predecessor of Applicant); such authorization to terminate automatically upon the expiration of said contract, subject, however, to renewal of such authorization by the Commission upon a finding that a renewal is not inconsistent with the public interest.

(c) The Applicant has negotiated and executed a new gas sales contract with Compania de Gas de Nuevo Laredo, S. A. to replace and supersede its present contract.

(d) The Applicant proposes to replace that portion of its four-inch pipe line with a six-inch pipe line extending from a point at Lincoln and Vidaurri Streets in the City of Laredo, Texas, to the Texas Mexican Railway Company's railroad bridge and thence paralleling the present four-inch pipe line on and along said bridge to the International Boundary. It is claimed that such new facilities are necessary in order to provide for the delivery of increased quantities of gas to existing customers and proposed new customers of Compania de Gas de Nuevo Laredo, S. A. in Mexico.

The Commission orders that:

(A) A public hearing be held, commencing on September 1, 1944, at 10 a. m. (e. w. t.), in the Hearing Room of the Federal Power Commission, Hurley-Wright Building, 1800 Pennsylvania Avenue NW., Washington, D. C., respecting the matters involved and the issues presented in this proceeding.

(B) Interested State commissions may participate in this hearing, as provided in § 67.4 of the provisional rules of practice and regulations under the Natural Gas Act.

AUGUST 18, 1944.

It appearing to the Commission that:

(a) On June 10, 1943, and April 7, 1944, respectively, Applicant filed an application and amendment thereto (Docket No. G-473) for a certificate of public convenience and necessity to authorize the construction and operation of certain facilities;

(b) On June 1, 1944, Applicant filed an application (Docket No. G-522) for a certificate of public convenience and necessity to authorize the construction and operation of certain facilities;

(c) By its order dated July 22, 1944, the Commission consolidated the above-docketed proceedings for the purpose of hearing and ordered that a public hearing be held commencing on August 22, 1944, at 10 a. m. (e.w.t.) in the Hearing Room of the Federal Power Commission, Hurley-Wright Building, 1800 Pennsylvania Avenue NW., Washington, D. C.;

(d) On August 12, 1944, Applicant filed an amendment to its application in Docket No. G-552 under section 7 of the Natural Gas Act, as amended, seeking authority to construct and operate the facilities hereinafter described in subparagraphs (i) and (ii), and to abandon a natural-gas pipe line, hereinafter described in subparagraph (iii):

(i) A dehydration plant in the Monroe gas field near Applicant's Perryville (La.) compressor station;

(ii) Installation of a new water cooling system at the compressor station above referred to;

(iii) Abandonment of a 4½-inch O. D. gas pipe line approximately 2.2 miles in length known as Applicant's Pelham lateral.

[Dir., Aug. 15, 1944]

INTERNATIONAL ASSN. OF MACHINISTS, A. F. OF L., LODGE NO. 68

ORDER DIRECTING OFFICE OF PRICE ADMINISTRATION TO RESTRICT GASOLINE RATIONS

On April 20, 1944, the Tenth Regional War Labor Board issued an Interim Directive Order in Case No. 111-7566-D requiring Lodge No. 68 of the International Association of Machinists, A. F. of L., and its members who are employed in the 104 uptown shops in San Francisco, California, to withdraw the ban on overtime work imposed by their action of April 13, 1944. On May 2, 1944, the National War Labor Board similarly directed a withdrawal of the ban. On June 3, 1944, the National Board issued a further order imposing certain restrictions on Lodge No. 68 until it had complied with the order of the Regional War Labor Board.

The Chairman of the National War Labor Board has advised me that Lodge No. 68 and its members have failed and refused to comply with these orders of the Board, and that Lodge No. 68 has directed and advised its members not to work under the terms and conditions prescribed by the Board. In one plant, at least, there has been a total stoppage of work.

I am advised that every effort has been made to secure compliance, without success. The responsible national and international officers of the International Association of Machinists have failed to secure compliance with their Local Lodge, as clearly shown in their letter of June 25, 1944, addressed to the Under Secretary of War, the Assistant Secretary of the Navy, the Chairman of the U. S. Maritime Commission, and the Chairman of the War Production Board.

Finally, by Executive Order No. 9463, of August 12, the President has seized the affected uptown shops of the Pacific Gear and Tool Works, the Enterprise Engine and Foundry Company, the Link Belt Company (Pacific Division), the Federal Mogul Corporation and the United States Pipe and Manufacturing Company, under the Constitution and laws of the United States including section 3 of the War Labor Disputes Act which amends section 9 of the Selective Training and Service Act of 1940.

Because of the nature of the non-compliance, in furtherance of the effective prosecution of the war which makes it imperative to prevent interference with production and to protect those workers who wish to work, and under the laws of the United States and the Executive orders of the President, I hereby direct the Office of Price Administration:

(a) To utilize all lawful processes to secure a return of outstanding supplemental gasoline rations issued on the basis of employment needs from all employees of the above-named companies who are certified to the appropriate regional OPA office by the Navy Department's Officer-in-Charge of the seized plants as having refused compliance with Executive Order No. 9463, the orders of the National War Labor Board, or the orders of such Officer-in-Charge;

(b) To refuse issuance of supplemental gasoline rations applied for on the basis of employment needs to these employees under the same conditions as stated in subparagraph (a) above.

Director.

ORDER DIRECTING OFFICE OF PRICE ADMINISTRATION TO RESTRICT GASOLINE RATIONS

AUGUST 18, 1944.

Pursuant to discussions between the Office of Price Administration and the Office of Economic Stabilization, I hereby clarify my letter of August 15, 1944, which directs the Office of Price Administration to take certain action in connection with the government's possession and operation of five plants under Executive Order No. 9463, by amending directive paragraphs (a) and (b) to read as follows:

(a) To utilize all lawful processes and take all necessary action to terminate and secure the surrender of all supplemental gasoline rations issued in whole or in part, for occupational mileage for travel to and from such plants in connection with employment at such plants to all employees of such companies who are certified to the appropriate Regional Office of the Office of Price Administration by the Navy Department's Officer-in-Charge of the seized plants as refusing compliance, at the time of such certification, with Executive Order No. 9463, the orders of the National War Labor Board, or the orders of such Officer-in-Charge;

(b) To refuse issuance of supplemental gasoline rations to any such employee for travel to and from any such plant in connection with employment at such plant except upon presentation to such Regional Office of a written statement signed by the Officer-in-Charge withdrawing such certification or stating that the applicant is then complying with such orders.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 878 (9 F.R. 9379) dated July 31, 1944, readjusts the maximum prices for a number of mines in District No. 7, the previous adjustments of which had been voided by Amendment No. 111 to Maximum Price Regulation No. 120. By inadvertence the maximum prices for the three mines with the Index Nos. 5, 337 and 338 in the column headed Mine Run for Locomotive Fuel Use under High Volatile Coals had been left blank. After due consideration of the foregoing and pursuant to § 1340.207 (a) of Maximum Price Regulation No. 120, *It is Ordered:*

(a) The figures $3.20 are hereby inserted in the column headed "Mine Run" under High Volatile Coals for Locomotive Fuel Use for the mines with the Index Nos. 5, 337 and 338.

(b) This correction to Order No. 878 shall be effective as of July 31, 1944.

tain all of their legal current pricing and other business practices.

(m) All of the power laundry establishments named herein shall keep this order and attached opinion in their establishments, together with the statement required by § 1499.108, and make them available for inspection by any person during business hours.

[Birmingham Order G-1 Under Gen. Order 50]

MALT AND CEREAL BEVERAGES IN JEFFERSON COUNTY, ALA.

Pursuant to the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, Executive Orders 9250 and 9328, Revised General Order No. 50 and Region IV Revised Delegation Order No. 17, and for the reasons set forth in the accompanying opinion, this order is issued.

SECTION 1. *Purpose of order.* It is the purpose of this order to establish specific maximum prices for malt and cereal beverages including those commonly known as ale, beer and near-beer, either in containers or on draught when sold or offered for sale at retail by any eating, or drinking establishment, either for consumption on the premises or when carried away.

SEC. 2. *Geographical applicability.* The provisions of this order extend to all eating and drinking places or establishments located within the limits of Jefferson County, Alabama.

SEC. 3. *Ceiling prices.* (a) On and after July 29, 1944, if you operate an eating or drinking establishment, you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed in Appendix A hereof. You may, of course, charge lower prices at any time.

(b) If you sell any beverage subject to this order which is not specifically listed in Appendix A hereof, and if you believe that the maximum price specified under the applicable heading "all other brands" is not appropriate to such beverage you may make application to the Birmingham, Alabama, District Office of the Office of Price Administration requesting that such beverage be specifically included in Appendix A hereof. With or without such application the Birmingham, Alabama, District Office of the Office of Price Administration may, at any time and from time to time, add new or unlisted beverages, brands, types or sizes, together with maximum prices for same to the lists set for in Appendix A hereof.

(c) You may not add any taxes to your ceiling prices set forth in Appendix A hereof except those specifically provided therein, as all other taxes were taken into consideration in establishing the ceiling prices for each group, as set forth in Appendix A.

SEC. 4. *How to figure your ceiling prices.* (a) This order divides eating and drinking establishments into three different groups and gives each group a different ceiling price. The group to which you belong depends on your legal ceiling prices on 12-ounce bottles in effect during the base period of April 4–10, 1943. You must figure the group to which you belong on the basis of your correct legal ceiling prices for 12-ounce bottles for that period.

(b) The group to which you belong depends on your legal ceiling prices for the beverages (in 12-ounce bottles) subject to this order in effect during the base period of April 4–10, 1943. If your legal ceiling prices for various brands and types of beverages subject to this order vary so that your ceiling prices on some brands or types seem to place you in one particular group and ceiling prices on others seem to classify you into a different group, you must classify yourself into the particular group representative of the prices at which the greater number of your sales were made during the three months' period immediately preceding the date of issuance of this order. This classification is subject to approval, denial and determination by the Birmingham District Office of Office of Price Administration. You must figure the group to which you belong as follows:

(1) *Group 1B.* Your establishment belongs to Group 1B, if during the base period of April 4–10, 1943, inclusive, your legally established ceiling prices for beverages subject to this order and sold in 12-ounce bottles were 24¢ or more for the named higher priced beverages and 19¢ or more for the popular priced beverages.

(2) *Group 2B.* Your establishment belongs to Group 2B, if during the base period of April 4–10, 1943, inclusive, your legally established ceiling prices for beverages subject to this order and sold in 12-ounce bottles were not less than 19¢ or more than 23¢ for the named higer priced beverages and not less than 14¢ nor more than 18¢ for the popular priced beverages.

(3) *Group 3B.* Your establishment belongs to Group 3B, if during the base period of April 4–10, 1943, inclusive, your legally established ceiling prices for beverages subject to this order and sold in 12-ounce bottles were less than 19¢ for the named higher priced beverages and less than 14¢ for the popular priced beverages. All establishments not engaged in the business of selling malt beverages during the base period of April 4–10, 1943, inclusive, also belong to Group 3B.

(c) If your eating or drinking establishment was not in operation during the base period of April 4–10, 1943, and, if the nearest similar eating or drinking establishment of the same type is one which is properly classified in Group 1B or Group 2B, you may file an application with the Birmingham, Alabama, District Office of the Office of Price Administration requesting that your establishment be reclassified into the same group to which your nearest similar eating or drinking establishment of the same type belongs. Until your application is acted upon and your establishment is reclassified, you must retain the classification of a Group 3B seller, and must observe the ceiling prices as provided for that group in Appendix A hereof. All such applications for reclassification must contain the following information:

1. Name and address of the establishment and of its owner or owners.
2. A description of the establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.
3. The selling prices by brand name of all beverages sold since the beginning of its operation.
4. The names of the three nearest eating and drinking establishments of the same type, and their group number as determined under this order.
5. Any other information pertinent to such application, or which may be requested by the Office of Price Administration.

SEC. 5. *Filing with War Price and Rationing Board.* When you have figured your proper group under section 4 above, you must, on or before July 29, 1944, file with your War Price and Rationing Board a signed statement with the name and address of your establishment, its type (such as night club, hotel, restaurant, tavern) and the group to which it belongs. Thereupon the War Price and Rationing Board will send you a card bearing your group number.

SEC. 6. *Modification of prices.* After you have determined your group and have put into effect the ceiling prices provided in this order for that group, the Office of Price Administration District Director for the District in which your establishment is located may direct you to charge lower ceiling prices:

(a) If, on the basis of your April 4–10, 1943, legal ceiling prices, this order, properly applied, requires you to be placed into a group with lower ceiling prices.

(b) If, as a result of speculative, unwarranted, or abnormal increases, contrary to the purpose of the Emergency Price Control Act, as amended, your legal ceiling prices on April 4–10, 1943, were excessive in relation to the legal ceiling prices of other comparable establishments in the District.

SEC. 7. *Exempt sales.* The following sales are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation or order:

(a) Sales by persons on board common carriers (when operated as such), including railroad dining cars, club cars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Price Regulation 1 (Dining Car Regulation).

(b) Sales by public and private hospitals insofar as they serve to patients.

(c) Sales by eating cooperatives formed by members of the Armed Forces (as, for example, officers' mess) operated as a non-profit cooperative where no part of the net earnings inures to the benefit of any individual which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to members of the Armed Forces who are members of the cooperative.

(d) Sales where the beverages subject to this order are included in, and sold as a part of, a meal and where the price of such beverage is included in the prices of the meal. (Such sales remain under Restaurant Maximum Price Regulation 4–1).

(e) Sales by the War Department or the Department of the Navy of the United States through such Departments' sales stores, including commissaries, ships' stores ashore, and by stores operated as army canteens, post exchanges, or ships' activities.

(f) Bona fide private clubs insofar as such clubs sell only to members or bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking establishment and subject to this order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the District Office of the Office of Price Administration of the area in which it is located, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club.

SEC. 8. *Evasion.* If you are an operator of an eating or drinking establishment you must not evade the ceiling prices established by this rder by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4, 1943 to April 10, 1943, or

(b) Increase any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did have in effect on any corresponding day during the seven-day period from April 4 to April 10, 1943, or

SEC. 9. *Records and menus.* If you are an operator of an eating or drinking establishment subject to this order you must observe the requirements of General Order 50, as well as Restaurant Maximum Price Regulation 4–1, either as revised and amended or as may be revised and amended; with reference to the filing and keeping of menus and the preservation and keeping of customary and future records. Among other provisions of General Order No. 50, are the following:

(a) Preserve all existing records relating to prices, cost and sales of food items, meals and beverages.

(b) Continue to prepare and maintain such records as have been ordinarily kept.

(c) Keep for examination by the Office of Price Administration two copies of each menu used by the establishment each day, or a daily record in duplicate of the prices charged for food items, beverages and meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 10. *Posting of prices.* If you are an operator of an eating and drinking establishment you must post and keep posted, the ceiling prices of the beverages subject to this order sold by your establishment, either by:

(a) Supplying the customers menus or bills of fare showing the beverages subject to this order which are sold by the establishment; and showing the brand name, quantity and ceiling price of each kind and type of bottled beverage, and the quantity and ceiling price of all beverages sold on draught.

(b) Posting a sign giving the same information as required on menus or bills of fare by subparagraph (a) above. Such a sign must be posted in the establishment at a place where it can easily be read by the customers. If you prefer you may use a similar sign furnished by the Office of Price Administration.

SEC. 11. *Posting of group number.* If you operate an eating or drinking establishment selling at retail beverages subject to this order you must post, and keep posted, in the premises a card clearly visible to purchasers showing the group number of your establishment as classified under this order. Such receipts must show the date of issue and bear the signature of the person issuing same.

If you have customarily issued receipts or sales slips, you may not now discontinue the practice.

SEC. 13. *Operation of several places.* If you own or operate more than one place selling beverages subject to this order you must do everything required by this regulation for each place separately, or, if you operate under more than one license from the Alabama Beverage Control Board, you must establish a separate classification in accordance with this order for each licensed selling outlet, separately.

SEC. 14. *Enforcement.* If you violate any provision of this regulation you are subject to the criminal penalties, civil enforcement action, suits for treble damages and proceedings for suspensions of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this order. If you are a seller subject to this order your license may be suspended for violation of the license or of the order. If your license is suspended you may not, during the period of suspension, make any sale for which your license has been suspended.

SEC. 16. *Relation to other maximum price regulations.* This order supersedes the provisions of Maximum Price Regulation No. 259 and the General Maximum Price Regulation insofar as such provisions were applicable to sales at retail by eating and drinking establishments of beverages subject to this order. (4) The maximum utilization of manpower resources.

SEC. 2. *Definitions.* As used in this employment stabilization program:

(1) "The Bennington Area" is comprised of the territory designated in Appendix A.

(2) "Agriculture" means those farm activities carried on by farm owners or tenants on farms in connection with the cultivation of the soil, the harvesting of crops, or the raising, feeding, or management of livestock, bees and poultry, and shall not include any packing, canning, processing, transportation or marketing of articles produced on farms unless performed or carried on as an incident to ordinary farming operations as distinguished from manufacturing or commercial operations.

(3) "State" includes Alaska, Hawaii, and the District of Columbia.

(4) "New employee" means any individual who has not been in the employment of the hiring employer at any time during the preceding 30-day period. For the purpose of this definition, employment of less than seven days' duration and employment which is supplemental to the employee's principal work shall be disregarded.

(5) "Critical occupation" means any occupation designated as a critical occupation by the Chairman of the War Manpower Commission.

(6) "Additional controlled occupation" means any occupation found by the Area Manpower Director for the Bennington Area to be either:

(a) One of a category of occupations in an activity in which manpower shortages threaten critically needed production in such Area, or

(b) An occupation in which the demand for workers in such area exceeds the available supply.

(7) "Essential activity" means any activity included in the War Manpower Commission List of Essential Activities.

(8) "Locally needed activity" means any activity approved by the Regional Manpower Director as a locally needed activity.

(9) The terms "employment" and "work" as applied to an individual engaged in principal and supplementary employment mean his principal employment.

SEC. 3. *Control of hiring and solicitation of workers.* All hiring and solicitation of workers in, or for work in, the Bennington Area shall be conducted in accordance with this employment stabilization program.

This shall include any hiring or solicitation, whether conducted within or outside the area, if the work is to be performed within the area.

SEC. 4. *Authority and responsibilities of Management-Labor Committee.* The Area Management-Labor War Manpower Committee for the Bennington Area is authorized to consider questions of policy, standards, and safeguards in connection with the administration of this employment stabilization program, and to make recommendations concerning the same to the Area Manpower Director. It shall be the responsibility of this committee to hear and decide appeals or to delegate such responsibility to an Area Appeals Committee in accordance with regulations of the War Manpower Commission governing appeals.

SEC. 5. *Encouragement of local initiative and use of existing hiring channels.* The War Manpower Commission, all employers of labor, including the United States Civil Service Commission, and all labor organizations within the Bennington Area, shall encourage local initiative and cooperative efforts to the end that the maximum use shall be made of existing hiring channels, such as private employers, labor organizations, professional organizations, schools, colleges, technical institutions and government agencies. This section shall not be interpreted or deemed to be a waiver of any of the provisions of this program.

SEC. 6. *General.* A new employee, who during the preceding 60-day period was engaged in an essential or locally needed activity, may be hired only if such hiring would aid in the effective prosecution of the war. Such hiring shall be deemed to aid in the effective prosecution of the war only if:

(1) Such individual is hired for work in an essential or locally needed activity or for work to which he has been referred by the United States Employment Service, and

(2) Such individual presents a statement of availability from his last employment in an essential or locally needed activity, or is referred by the United States Employment Service of the War Manpower Commission, or is hired with its consent, as provided herein.

SEC. 7. *Issuance of statements of availability by employers.* An individual whose last employment is or was in an essential or locally needed activity shall receive a statement of availability from his employer if:

(1) He has been discharged, or his employment has been otherwise terminated by his employer, or

(2) He has been laid off for an indefinite period, or for a period of seven or more days, or

(3) Continuance in his employment would involve undue personal hardship, or

(4) Such employment is or was at a wage or salary or under working conditions below standards established by State or Federal law or regulation, or

(5) Such employment is or was at a wage or salary below a level established or approved by the National War Labor Board (or other agency authorized to adjust wages or approve adjustments thereof) as warranting adjustment, and the employer has failed to adjust the wage in accordance with such level or to apply to the appropriate agency for such adjustment or approval thereof.

SEC. 8. *Issuance of statements of availability by United States Employment Service.* (1) A statement of availability shall be issued promptly to an individual when any of the circumstances set forth in section 7 is found to exist in his case. If the employer fails or refuses to issue

a statement of availability to an individual entitled to such statement, the United States Employment Service of the War Manpower Commission, upon finding that the individual is entitled thereto, shall issue a statement of availability to the individual. Pending such finding the United States Employment Service shall either request the worker to remain on his present job, or to return to it in instances where the worker has voluntarily terminated his employment.

When none of the circumstances set forth in section 7 is found to exist in an individual's case, the United States Employment Service shall attempt to persuade such individual to return to his former employment in an essential or locally needed activity providing the employer will reemploy the worker without prejudice.

(2) A statement of availability shall be issued by the United States Employment Service to any individual in the employ of an employer who the War Manpower Commission finds, after notice, hearing and final decision, has not complied with any War Manpower Commission Employment Stabilization Program, regulation, or policy, or has not made a reasonable effort to comply with a recommendation of a duly authorized representative of the War Manpower Commission with respect to the more effective utilization of labor and for so long as such employer continues his noncompliance after such finding.

An employer who continues to be in non-compliance after notice, hearing and final decision, may not hire any new employee, whether or not such person has a statement of availability.

(3) A statement of availability shall be issued by the United States Employment Service to an individual upon his request, when it is found that he has received from a former employer with whom he has reemployment rights under an existing collective bargaining agreement a notice that he must return to his former employment in order to preserve his seniority status.

(4) A temporary statement of availability, valid for a period not in excess of 60 days, may be issued by the United States Employment Service to an individual at his request, who because of seasonal or temporary lay-off is not employed at his customary work. In such cases, an employer may hire such a worker for the period designated in the temporary statement of availability and shall release such worker at the end of such period. Upon release of such a worker, the employer shall not issue a statement of availability to him but shall instruct him to return to his former employment.

A temporary statement of availability shall contain in addition to the provisions of the regular form, the words:

> The employer hiring the above-named worker shall not retain such worker in his employ after —— and shall not issue a statement of availability to such worker upon his release.

SEC. 9. *Referral in case of under-utilization.* If an individual is employed at less than full time or at a job which does not utilize his highest recognized skill for which there is a need in the war effort, the United States Employment Service may, upon his request, refer him to other available employment in which it finds that the individual will be more fully utilized in the war effort.

SEC. 10. *Workers who may be hired only upon referral by the United States Employment Service.* Under the circumstances set forth below, a new employee may not be hired solely upon presentation of a statement of availability, but may be hired only upon referral by, or in accordance with arrangements with, the United States Employment Service:

(1) The new employee is to be hired for work in a critical occupation, or his statement of availability indicates that his last employment was in a critical occupation, or

(2) The new employee is to be hired for work in an additional controlled occupation (see Appendix B) or his statement of availability indicates that his last employment was in such an occupation, or

(3) That the new employee has not lived or worked in the locality of the new employment throughout the preceding 30-day period (in such cases the local office of the United States Employment Service shall require that the worker obtain a statement of availability from the local office of the United States Employment Service, serving the locality where such worker was most recently employed, except that the latter local office may delegate authority to issue a statement of availability to such a worker in a specific case to the office where the referral is to be made), or

(4) The new employee's last regular employment was in agriculture and he is to be hired for non-agricultural work, *Provided*, That no such individual shall be referred to non-agricultural work except after consultation with a designated representative of the War Food Administration, and *Provided further*, That such an individual may be hired for non-agricultural work for a period of not to exceed six weeks without referral or presentation of a statement of availability.

SEC. 11. *Hiring contrary to the program.* An employer shall, upon written request of the United States Employment Service, promptly release from employment any worker hired,

(1) In violation of this program, or

(2) Upon referral by the United States Employment Service, if such referral resulted from any misrepresentation on the part of such worker when otherwise a referral would not have been made.

SEC. 12. *Exclusions.* No provision of this employment stabilization program shall be applicable to:

(1) The hiring of a new employee for agricultural employment, or

(2) The hiring of a new employee for work of less than seven days' duration, or for work which is supplementary to the employee's principal work; but such work shall not constitute the individual's "last employment" for the purposes of this program, unless the employee is customarily engaged in work of less than seven days' duration, or

(3) The hiring of an employee in any Territory or possession of the United States, except Alaska and Hawaii, or

(4) The hiring by a foreign, State, County, or municipal government, or their political subdivisions or their agencies and instrumentalities, or to the hiring of any of their employees, unless such foreign, State, county, or municipal government or political subdivision or agency or instrumentality has indicated its willingness to conform, to the maximum extent practicable under the Constitution and laws applicable to it, with the program, or

(5) The hiring of a new employee for domestic service or to the hiring of a new employee whose last regular employment was in domestic service, or

(6) The hiring of a school teacher for vacation employment or the rehiring of a school teacher for teaching at the termination of the vacation period, or

(7) The transfer of workers between agencies and departments of the Federal Government.

SEC. 13. *Appeals.* Any worker or employer may appeal from any act or failure to act by the War Manpower Commission under this employment stabilization program, in accordance with regulations and procedures of the War Manpower Commission.

SEC. 14. *Statements of availability.* A statement of availability issued to an individual pursuant to this program shall contain only the individual's name, address, social security account number, if any, the name and address of the issuing employer, or War Manpower Commission officer and office, the date of issuance, a statement as to whether or not the individual's last employment was in a critical occupation, or in an additional controlled occupation, and such other information not prejudical to the employee in seeking new employment as may be authorized or required by the War Manpower Commission.

Statements of availability received by any employer pursuant to this program shall be retained during the continuance of this program and for a reasonable time thereafter. They shall be made accessible to the Area Manpower Director or his representative upon request.

SEC. 15. *Solicitation of workers.* No employer shall advertise or otherwise solicit for the purpose of hiring any individual if the hiring of such an individual would be subject to restrictions under this employment stabilization program, except in a manner consistent with such restrictions.

All advertising or other solicitation for workers inside or outside the Bennington Area for work to be performed within or without the Area shall not be conducted except with the approval of the United States Employment Service of the War Manpower Commission.

SEC. 16. *Hiring.* The decision to hire or refer a worker shall be based on qualifications essential for performance of or suitability for the job, and shall be made without discrimination as to race, color, creed, sex, national origin, or except as required by law, citizenship.

The Federal Government shall be considered as a single essential employer for the purposes of this program, and all hiring for departments and agencies of the Federal Government subject to the Civil Service Act, rules and regulations, shall be conducted by the U. S. Civil Service Commission which shall recruit in accordance with the policies of the War Manpower Commission.

SEC. 17. *Representation.* Nothing contained in this program shall be construed to restrict any individual from seeking the advice and aid of, or from being represented by, the labor organization of which he is a member or any other representative freely chosen by him, at any step in the operation of the program.

SEC. 18. *General referral policies.* No provision in this program shall limit the authority of the United States Employment Service or any other governmental agency designated by the War Manpower Commission to make referrals in accordance with approved policies and instructions of the War Manpower Commission.

SEC. 19. *Effective date.* This program shall become effective October 15, 1943, and is in substitution for and supersedes the employment stabilization plan in effect prior to such a date. It shall, subject to such amendments as the War Manpower Commission may promulgate, continue in effect for six months following the termination of the war, unless sooner terminated by the War Manpower Commission.

EMPLOYMENT STABILIZATION PROGRAM

The Employment Stabilization Program for the Bennington Area effective October 15, 1943, is hereby amended in the following respects:

1. Section 2 (6) is hereby amended by inserting after the words "Bennington Area" in the second line, the words "with the approval of the Regional Director" and by inserting the same phrase after the word "Director" so that the same shall read as follows:

A list of the "additional controlled occupations" designated by the Area Manpower Director is attached to this program as Appendix B and may be amended from time to time by the Area Manpower Director with the approval of the Regional Director.

2. Section 5 is hereby amended by deleting the words, starting in the first line, "all employers of labor, including the United States Civil Service Commission, and all labor organizations within the Bennington Area,".

3. Section 8 is hereby amended by deleting subparagraph (3) in its entirety and inserting the following as the second paragraph of section 9:

The United States Employment Service shall, upon request of an individual, refer him to a former employer when it is found that he has received from such employer with whom he has reemployment rights under an existing collective bargaining agreement, a notice that he must return to his former employment in order to preserve his seniority status.

Such ceilings and allowances will be determined on the basis of the establishment's actual labor needs, the available labor supply, and/or the relative urgency of the establishment's products or services to the war effort. Except as authorized by the State Manpower Director, no employer shall hire any new employee for work in such establishment if the hiring of such employee would result in such establishment's exceeding the employment ceiling or allowance currently applicable to it.

6. Section 11 is hereby amended by deleting subparagraph (2) and incorporating subparagraph (1) in the opening paragraph so that it shall read: "An employer shall, upon written request of the United States Employment Service, promptly release from employment any worker hired in violation of this program."

The addition of the new section on employment ceilings necessitates renumbering section 11 to section 12.

WAR PRODUCTION BOARD.

Essex Homes, Inc.

CONSENT ORDER

Essex Homes, Inc., 2 Stevenson Street, Lynbrook, Long Island, New York, engages in the construction of Defense Housing Projects in the State of New York. On October 29, 1941, the company applied for the issuance to it of Preference Rating Order P-55, covering construction of a Defense Housing Project to be located in Lynbrook, Long Island, New York, representing to the Director of Priorities of the War Production Board, that the proposed sales price of each dwelling would in no instance exceed the price of $5835. Pursuant to this application, Preference Rating Order P-55, serial number 77-018-000062, was issued to the company on November 6, 1941. Subsequent thereto, the company entered into contracts of sale with respect to eight dwelling units included in the project for various prices all in excess of $5835. Thereafter, investigation by the War Production Board brought about the disclosure of such outstanding contracts of sale and the company stated in writing to the War Production Board that it had neither sold nor agreed to sell any of such eight dwelling units, including all extras such as garage, landscaping and extra rooms, at prices in excess of $6000. At a later date further investigation by the War Production Board revealed that Essex Homes, Inc. had sold or agreed to sell each of said eight dwelling units at prices in excess of $6000. On May 10, 1944, the company was charged by the New York Regional Compliance Manager of the War Production Board with having misrepresented the sale prices of the said dwelling units and was advised that Priorities Regulation No. 1 provides that any person who furnishes misleading information to the War Production Board may be deprived of priorities assistance and the allocation of materials, the supply, production or distribution of which is subject to any order or regulation of the War Production Board. Essex Homes, Inc. had admitted that the charges set forth in the said letter of May 10, 1944, and described herein, except as to the charge of wilfulness, and subsequent thereto, the corporation has refunded to each purchaser of the said dwelling units, or where title has not yet passed, has reduced the contract by a sum equal to the difference between the price set forth in the company's application for the issuance of Preference Rating Order P-55 and the price contracted for or charged. This refund totals $5935.

Wherefore, upon the agreement and consent of Essex Homes, Inc., and upon the approval of the Regional Attorney, the Regional Compliance Manager, and the Compliance Commissioner, *It is hereby ordered*, That:

(a) During the period in which this order shall be in effect, deliveries of material to Essex Homes, Inc., its successors and assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other orders or regulations of the War Production Board, except as may hereafter be specifically authorized in writing by the War Production Board.

(b) During the period in which this order shall be in effect, no authorization to begin the construction of any Defense Housing Project or any other construction to be erected in whole or in part by Essex Homes, Inc., its successors or assigns, shall be granted, except as may be hereafter specifically authorized in writing by an official order of the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Essex Homes, Inc., its successors or assigns, from any restrictions, prohibition or provision contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

This order shall take effect on August 19, 1944, and shall expire on December 19, 1944.

Issued this 12th day of August 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 1401—DAIRY PRODUCTS

GENERAL AMENDMENT TO CERTAIN WAR FOOD ORDERS ISSUED BY THE DIRECTOR ALLOCATING MILK PRODUCTS PURSUANT TO WAR FOOD ORDER NO. 79, AS AMENDED

In the determination of quotas for milk byproducts, including cottage, pot, or baker's cheese, for each of the quota periods of September and October 1944, wherever a percentage specification appears affecting quotas for milk byproducts, including cottage, pot, or baker's cheese, delete said percentage and substitute the specification "100 percent," and in the determination of quotas for cream for each of the quota periods of September and October 1944 delete the quota for pounds of cream with the result that the quota for cream shall be computed only for pounds of butterfat in cream. PART 1401—DAIRY PRODUCTS

DELEGATION OF AUTHORITY TO MARKET AGENTS IN THE ADMINISTRATION OF WAR FOOD ORDERS FOR THE CONSERVATION AND DISTRIBUTION OF FLUID MILK AND CREAM

Pursuant to War Food Order No. 79 (8 F.R. 12426, 9 F.R. 4321, 4319), dated September 7, 1943, as amended, and to effectuate the purposes thereof, War Food Order No. 79–102 (8 F.R. 16313, 9 F.R. 337, 4321, 4319, 4500), as amended, is hereby further amended so as to read as follows:

§ 1401.135 *Fluid milk and cream*—(a) *Definitions.* When used in this order, unless otherwise distinctly expressed or manifestly incompatible with the intent hereof, each term defined in War Food Order No. 79, as amended, shall, when used herein, have the same meaning as is set forth for such term in War Food Order No. 79 as amended.

(b) *Delegation of authority.* The market agent under any of the War Food Orders issued pursuant to War Food Order No. 79, as amended, and notwithstanding the provisions of any such orders, is hereby authorized:

(1) To exempt deliveries of milk, cream, and milk byproducts to industrial users, in their capacity as such users, from charges to quotas and exclude such deliveries from the computation of deliveries in the base period, and the term "industrial user" shall be construed to mean a person, as determined by the market agent, manufacturing products using as an ingredient milk, cream, or milk byproducts, and which are disposed of primarily for resale to consumers off the premises where made.

(2) To transfer quota from one handler to another, upon application and after written notice to the Director and each handler involved, whenever (i) a handler has denied service to one or more of his accounts, (ii) an account customarily rotates among handlers, inclusive of any account with a public agency or institution which is let on a bid basis, (iii) a sub-handler regularly making 50 percent or more of his deliveries under his own brand or trade name submits an application, (iv) a handler or a sub-handler applies in order to consummate a bona fide sale of business, or (v) handlers apply in order to exchange or transfer accounts.

(3) To permit a handler to substitute a quota of milk solids in milk for his quota of milk and of butterfat in milk, if specified in the order, and a quota of milk solids in milk byproducts for his quota of milk byproducts, including cottage, pot, or baker's cheese. (For the purpose of this substitution, the milk solids content of milk or milk byproducts shall be computed as follows: Each hundredweight of milk or milk byproducts other than cottage, pot, or baker's cheese, shall be considered the equivalent of 9.375 pounds of milk solids plus the number of pounds of milk solids calculated by multiplying the pounds of butterfat content of such milk or milk byproducts by .906, and each hundred weight of cottage, pot, or baker's cheese shall be considered the equivalent of 65.63 pounds of milk solids minus .953 pounds of milk solids for each one-half percent of butterfat content of such cheese.) Each handler so substituting may, within any quota period, increase his quota of milk solids in milk by one pound for each one pound of milk solids by which he decreases his quota for milk byproducts: *Provided*, That his quota of milk solids in milk shall not be so increased by more than 3 percent.

(4) In areas wherein no quota of butterfat in milk is specified, to permit a handler to increase the total pounds of milk in milk quota by not more than 3 percent, by transferring milk byproducts quota to milk quota at the rate of one pound of milk byproducts quota for each 0.75 pounds of milk quota.

(c) *Review by the Director.* A ruling by a market agent under the authority delegated herein may be reviewed by the Director upon petition or upon the initiative of the Director, and may be affirmed, modified or reversed by the Director.

(d) *Effective date.* This order shall become effective at 12:01 a. m., e. w. t., September 1, 1944.

(E.O. 9280, 7 F.R. 10179; E.O. 9322, 8 F.R. 3807; E.O. 9334, 8 F.R. 5423; E.O. 9392, 8 F.R. 14783; WFO 79, 8 F.R. 12426, 13283, 9 F.R. 4321, 4319)

The traveler shall be considered as remaining in travel status during the entire period covered by his order unless otherwise specified.

(e) *Books and equipment.* The cost of books, teaching materials, laboratory equipment, et cetera, in an amount to be authorized in each case. Such materials and equipment, unless otherwise ordered, shall be selected by the traveler and purchased and shipped by the Department, and at the conclusion of the mission shall be transferred to and become the property of an appropriate local institution, or be otherwise disposed of, as directed by the Department.

(f) *Stenographic and other services.* The cost of stenographic and other services when authorized as provided for in the Standardized Government Travel Regulations or by contract entered into by the Department at the request of the traveler. § 28.11 *Additional provisions.* The following additional provisions shall apply to the foregoing regulations:

(a) *Maxima not controlling.* Payments and allowances shall be made at the rate or in the amount provided in these regulations unless otherwise ordered, but any individual grant or travel order may specify that less than the maximum will be allowed under any part of these regulations.

(b) *Individual authorization.* Where these regulations provide for compensation, allowance, or other payment when authorized, no payment shall be made therefor unless a definite amount or basis of payment is authorized in the individual case, or is approved as provided in paragraph (d) of this section.

(c) *Computation of per diem and allowances.* In computing per diem, and allowances payable while on a duty assignment, except for travel performed under the Standardized Government Travel Regulations, fractional days shall be counted as full days, the status at the end of the calendar day determining the status for that entire day.

(d) *Subsequent approval.* Whenever without prior-authority expense has been incurred by a participant, or an individual has commenced his participation in the program as contemplated by these regulations, the voucher for payments in connection therewith may be approved by an official designated for this purpose, such approval constituting the authority for such participation or the incurring of such expense.

(e) *Additional authorization.* Any emergency, unusual, or additional payment deemed necessary under the program, if allowable under existing authority, may be authorized whether or not specifically provided for by these regulations.

§ 28.12 *Previous regulations superseded.* These regulations supersede those prescribed in Departmental Order 1157 of April 1, 1943, as amended and extended, and all other regulations and instructions inconsistent herewith: *Provided*, That grants, travel orders, and other authorizations which are outstanding and in effect on the date the present regulations become effective and which do not conform hereto shall nevertheless remain in effect and be governed by the regulations under which they were originally issued, unless such grants, orders, or authorizations are specifically amended and made subject to the present regulations, in which case the individual concerned will be notified.

§ 28.13 *Effective date.* These regulations shall be effective August 21, 1944.

Miscellaneous Provisions

(r) Records.
(s) Applicability of regulations.
(t) Appeals.
(u) Communications.
(v) Violations.

Scope

§ 3133.50 *Limitation Order L-340*—(a) *The purpose of this order.* This order does three things. First, it limits the tonnage of paper which a government may cause to be used for commercial printing. Second, it limits the tonnage of paper which may be accepted by or on behalf of a government. This is based upon its inventory of paper. Third, it limits the basis weight of paper which a government may cause to be used in printing certain items.

Definitions and Explanations

(b) *Government*—(1) "Government" means the United States Government and the government of any State, county, municipality or local political unit. A State, county, municipality or local political unit may, as a separate government under this order, apportion its consumption quota among its constituent departments, agencies, bureaus and other subdivisions, but such departments, agencies, bureaus and subdivisions may not, collectively, cause more paper to be used in commercial printing than the consumption quota of the government which they comprise.

(2) The Army, Navy, War Shipping Administration and Maritime Commission are exempt from all of the provisions of this order except paragraph (l).

(3) Paragraphs (n), (o) and (p) do not apply to the United States Government as a whole, but only to the Government Printing Office and the Procurement Division of the Treasury Department, and the provisions of those paragraphs apply to each of the above-named agencies separately.

(4) This order does not apply to any government if its base tonnage is less than one ton, or if the total cost of commercial printing purchased by it in the base year did not exceed $1,000.

(c) *Commercial printing.* "Commercial printing" means all printing and duplicating produced by any type of printing machine covered by Order L-226 or any type of duplicating machine covered by Order L-54-c, List I, Item 5. However, this order does not affect printing which is covered by other orders of the War Production Board, as described in paragraph (i), and printing which is unrestricted, as described in paragraph (j). "Printed matter" includes duplicated matter as well as printed matter.

(d) *Printer.* The term "printer" is used throughout this order, for the sake of convenience and brevity, to include printers who operate printing machines and duplicators who operate duplicating machines. This order applies to a government which operates its own printing plant as well as a government which purchases printing.

(e) *Paper.* "Paper" means any grade, quality, type, basis weight or size of paper, gummed paper, paperboard or bristol used in commercial printing. The term includes paper reclaimed wholly or partly from printed or unprinted waste, as well as paper made entirely from virgin fiber.

(f) *Use.* Paper is "used" when ink is first applied to it by a printer. However, paper is not "used" under this order when ink is applied to it by pen-ruling equipment. Sometimes paper is put through a press more than once, either by the same printer or by different printers; for instance, when a sheet is printed on its second side, or when several colors are used. For the purposes of this order the paper is deemed to be "used" when the first application of ink is made by a printer. It makes no difference how many other applications of ink are put on the paper by the same or different printers.

(g) *Production waste.* All production waste shall be included in determining the tonnage of paper which a government causes to be used in commercial printing.

(h) *Inventory.* "Inventory" means all the paper which is available for the use of a government in commercial printing. It is immaterial whether such paper is in the printer's hands or in the hands of the paper dealer, government, or other person. Paper in transit is not included.

Consumption Quota

(i) *Printing which is covered by other orders.* Certain types of printing are not covered by this order. When a government adds up the weight of paper which it caused to be used in the base year, it may not count the paper which went into these items. Also, a government may not use the consumption quota which it gets under this order for the printing of any of these items. They are:

(1) Newspapers (defined in Limitation Order L-240).
(2) Magazines (defined in Limitation Order L-244).
(3) Books and booklets (defined in Limitation Order L-245).
(4) Converted products named in Lists A, B, C or D of General Conservation Order M-241-a, except gummed paper.

(j) *Printing which is not restricted.* A government is not limited in the amount of paper which it may cause to be used in commercial printing required for any official election.

(k) *Consumption restrictions for governments other than the United States government.* In the 12-month period beginning July 1, 1944 and ending June 30, 1945, or in the last fiscal year ending prior to January 1, 1946, and in each corresponding 12-month period after that, no government (other than the United States government) may cause to be used for commercial printing any paper in excess of its annual consumption quota which shall be computed as follows:

(1) (i) Select a base period which shall be either the 12-month period ending June 30, 1942, or the last fiscal year ending prior to June 30, 1942.

(ii) Add up the total pounds of paper used in the base period for all types of printing.

(iii) Subtract the pounds of paper used in the base period for all the items covered by other orders as listed in paragraph (i).

(iv) Subtract the pounds of paper used in the base period for the unrestricted items described in paragraph (j).

(v) This is the government's base tonnage from which the required reductions shall be made.

(2) If the government's base tonnage is more than 1 ton but less than 1⅓ tons, its annual consumption quota is 1 ton.

(3) If the government's base tonnage is more than 1⅓ tons, its annual consumption quota is 75 percent of its base tonnage.

(4) A government may cause its annual consumption quota to be used for any type of printing which is not covered by other orders as listed in paragraph (i). Also, it may cause any amount of paper to be used in addition to its annual consumption quota for the unrestricted items described in paragraph (j).

(5) If a government is unable to determine its base period consumption in tons of paper, it may, as an alternative, compute the dollar value of its purchases of commercial printing during the base year using the method described in paragraph (k) (1).

(i) If the government's purchases of commercial printing in the base year were more than $1,000, but less than $1,110, its annual consumption quota is $1,000.

(ii) If the government's purchases of commercial printing in the base year were more than $1,110, its annual consumption quota is 90% of the cost of commercial printing purchased in the base year.

(l) *Consumption restrictions for the United States Government.* After July 1, 1944, no department, agency or other subdivision of the United States Government may cause any paper to be used for commercial printing except in accordance with the conservation orders issued by the Director of the Bureau of the Budget.

(m) *Certification to printer.* No person may order commercial printing on behalf of a government (except the United States Government) and no person may accept such an order, unless the person placing the order furnishes or has previously furnished to that printer a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose.

The undersigned certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the printer and to the War Production Board that he is familiar with Order L-340, and that all orders placed by the undersigned with that printer for items regulated by Order L-340, as amended from time to time, will be in compliance therewith.

This is a one-time certification and need not accompany each individual order for printing.

Delivery Restrictions

(n) *Limit on tonnage which may be accepted.* No government may accept, and no person may accept for a government's use, delivery of any quantity of paper if the government's total inventory of all kinds of paper for use in commercial printing exceeds 60 consecutive days' supply, or if acceptance of the delivery will bring its inventory above this level. The number of days' supply shall be computed at the average proposed rate of consumption during the succeeding 60 days, *Provided*, That the proposed rate of consumption is not in violation of the consumption quota restrictions contained in this order.

(o) *Increase of deliveries.* A government may accept delivery of paper which would increase its inventory to more than 60 consecutive days' supply of paper only in the following two circumstances:

(1) If the amount of a particular item in the government's inventory is less than 30 days' supply, it may accept delivery of not more than an additional 30 days' supply of that item, *Provided*, The amount purchased is required for its production within 30 days of acceptance.

(2) Regardless of the quantity of a particular item, or of all items, in a government's inventory, it may accept delivery of any item which it is entitled to accept under paragraphs (n) and (o) (1) in the unit quantity (e. g., full carload, full truckload, 10,000, 5,000 pounds, 4 cases) in which it accepted delivery of that item in the base period.

(p) *Certification to paper dealer or mill.* No government may order or accept delivery of paper, and no person may deliver paper to a government, unless the government furnishes, or has previously furnished, to the person making the delivery a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

> The undersigned certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board that he is familiar with Order L-340 and that all purchases by the undersigned of items regulated by that order, as amended from time to time, will be in compliance therewith.

This is a one-time certification and need not accompany each individual order for paper.

Miscellaneous Provisions

(q) *Limits on basis weights.* Schedule I of Order L-241 provides, "No person may manufacture and no person may cause to be manufactured any of the items listed in this schedule in a basis weight or thickness, area or weight per unit greater than the maximum specified for such use." All commercial printing which a government causes to be produced under this order must be in compliance with Schedule I of Order L-241.

(r) *Records.* In order to secure compliance with this order, every government (except the United States Government) must calculate, as accurately as it can, the tonnage of paper which it used during the base period for the items covered by this order. It must also keep accurate records of this type of information for each 12-month period beginning July 1, 1944, or for each fiscal year commencing after June 30, 1944. It must preserve these figures and its work sheets, subject to inspection by War Production Board officials, as long as this order remains in force and for two years after that.

(s) *Applicability of regulations.* This order and all transactions affected by it are subject to all present and future regulations of the War Production Board.

(t) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in duplicate referring to the particular provision appealed from and stating fully the grounds of the appeal.

(u) *Communications.* All communications concerning this order shall be addressed to the War Production Board, Printing and Publishing Division, Washington 25, D. C., Ref: L-340.

(v) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control, and may be deprived of priorities assistance.

Issued this 21st day of August 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 44-12638; Filed, August 21, 1944; 4:16 p. m.]

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 3 as Amended Aug. 22, 1944]

§ 944.23 *Priorities Regulation 3*—(a) *Purpose of this regulation.* This regulation states the rules for the use of preference ratings, what kind of purchase orders or services may be rated and how a rating may be put on an order. It also places restrictions on the use of ratings and includes lists of products for which ratings may not be used at all or for which certain kinds of ratings may not be used. In general this regulation should be consulted before using a rating whether it was gotten directly from the War Production Board or from a customer.

(b) *Definitions.* For the purposes of this regulation:

(1) "Person" and "material" mean the same thing they do in Priorities Regulation 1.

(2) "Assignment" of a preference rating. A preference rating is assigned to a person when the War Production Board or someone that it has authorized issues an order or preference rating certificate giving him the right to use the rating.

(3) "Application" of a preference rating. A preference rating is applied when the person to whom it is assigned uses the rating. A rating is applied also when any governmental agency which is authorized by the War Production Board rates an order for delivery of material directly to it.

(4) "Extension" of a preference rating. A preference rating is extended when it is used by the person to whom it is applied or extended by another person.

(c) *Use of ratings in general.* (1) When a regulation, preference rating order or preference rating certificate assigns a rating to any person, either by naming him or by describing the class of persons to which he belongs (as is done in the schedules to CMP Regulation 5), that person may apply the rating to get delivery of material or the performance of certain services. Also, a person may under certain conditions extend a rating which has been applied or extended to his deliveries of material, but not one applied to services. More detailed rules as to how and when ratings may be applied or extended are set out below in this regulation.

(2) When a War Production Board order or certificate states the quantities and kinds of material or the particular services which are rated, the person to whom it is assigned may use the rating to get only that quantity and kind of material or that particular service named in the order or certificate. If the quantities of material are not stated in the order or certificate assigning the rating it may be applied only to get the minimum amount needed.

(3) No person may place rated orders for more material than he is authorized to rate even though he intends to cancel some of the orders or reduce the quantity of material ordered to the authorized amount before it is all delivered.

(d) *When ratings may be extended for material.* The following provisions of this paragraph (d) apply to all extensions of preference ratings to get deliveries of material, unless they are modified by or are inconsistent with the provisions of any particular order.

(1) A manufacturer of Class B products under the Controlled Materials plan and a holder of Form WPB-2613 (formerly PD-870) may not extend his customers' ratings (except AAA) as explained in more detail in CMP Regulation 3 and in Priorities Regulation 11B.

(2) When a person has received a rated order for the delivery of material, he may extend the rating to get the material which he will deliver on that order, or which will be physically incorporated in material which he will deliver. If the material is to be processed, this includes the portion of it which would normally be consumed or converted into scrap or by-products in the course of processing.

(3) If a person has made delivery of material, or has incorporated it into other material which he has delivered on a rated order, he may extend the rating to replace it in his inventory. However, if after delivering the material he still has a practicable working minimum inventory he may not extend the rating to replace the material delivered; and if by making the delivery his inventory is reduced below this minimum, the rating may be extended to get only the amount necessary to restore the inventory to a practicable working minimum. Any material ordered to replace in inventory must be substantially the same as the material which the person delivered or incorporated in the material which he delivered, except for minor variations in size, shape or design. Substitution of less scarce materials which do not substantially alter the purpose for which the material is to be used is, however, permitted. The Conservation Division of the War Production Board from time to time publishes a list showing the relative scarcity of materials, entitled "Materials Substitution and Supply List." The latest copy may be obtained from any War Production Board office.

(4) A person to whom a rating has been applied or extended to get material may not extend that rating to get containers or closures to pack the material except as permitted by any order in the Containers, Part 3270, Series (Orders P-140 and P-146 are the only ones that now permit the extension of such ratings). Nor may he extend such rating to get any material for his own plant improvement, expansion or construction, or to get machine tools or other items which he will carry as capital equipment, or to get business machines for his own use whether purchased or leased, or to get maintenance, repair or operating supplies for his own use. Other orders or regulations, such as CMP Regulation 5 and some orders in the "P" series, assign ratings which may be used by the proper persons to get maintenance, repair or operating supplies and minor capital additions.

(e) *Additional restrictions upon use of ratings for certain materials.* Because of special circumstances which exist with respect to certain materials and products, the use of preference ratings to get items on Lists A or B attached to this regulation is restricted as follows:

(1) *Items as to which preference ratings have no effect; List A.* Any item on List A may be produced or delivered without regard to preference ratings. No person shall apply or extend any rating to get any of these items and no person selling any such item shall require a rating as a condition of sale. Any rating purporting to be applied or extended to any such item shall be void and no person shall give any effect to it in filling an order.

(2) *Items to which blanket MRO ratings do not apply; List B.* Blanket MRO ratings may not be applied to get any item on List B, except as permitted by the list. A blanket MRO rating means a rating assigned by CMP Regulation 5 or 5A, or by any other War Production Board regulation, order (including an order in the "P" series), form or certificate which assigns a rating for maintenance, repair or operating supplies without specifying the kind and quantity of the material to which the rating may be applied. Where the quantity of material is specified in terms of dollar value only, the rating is a blanket MRO rating. No person shall give any effect to any rating applied to his deliveries of any item on List B if he knows or has reason to believe that it is a blanket MRO rating. Any blanket MRO rating applied to an order for any item on List B which was not delivered before the date the item was added to the list shall be deemed void. The restrictions of this paragraph are not applicable when the blanket MRO rating is applied to get an item on the list for use on board ship, but in such a case the rating may not be extended by the person to whom it is applied.

(3) *Illustration.* A manufacturer of a product listed in Schedule II of CMP Regulation 5 is assigned a rating of AA-2 for operating supplies. He may not use the rating to buy wooden shelving for his own use since it is on List B. A contractor has received an order bearing a rating of AA-3 to install wooden shelving in an Army camp. He may extend that rating to get the wooden shelving from the manufacturer since in this case the shelving is production material as to him and not operating supplies. If, however, wooden shelving were on List A instead of List B, neither rating could be used.

(f) *Use of ratings for services*—(1) *Ratings may not be used for personal services.* Preference ratings may never be used to get labor or personal services as distinct from services performed in the course of a regular business involving the use of plant, machinery or equipment owned by the person furnishing the services. For example, ratings may be used to get a repair job done in a repair shop as explained below but may not be used to compel an individual employee to work on a repair job or to obtain the services of a consulting engineer.

(2) *Three cases where ratings may be used for services.* There are only three situations in which a preference rating may be used to get services, as distinct from the production or delivery of material:

(i) *A rating assigned for the purpose.* If the War Production Board assigns a rating to a named person to get specified services, he may use the rating for that purpose.

(ii) *For processing.* When a person has a rating which he may use to get processed material, he may (unless prohibited by another regulation or order) furnish the unprocessed material to a processor and use the same rating to get it processed.

(iii) *For repairs.* A blanket MRO rating may be applied by the person to whom it is assigned to get his plant, machinery or equipment repaired even if the repair job does not involve the delivery of repair parts or materials. See paragraph (e) (2) for definition of a blanket MRO rating. A rating assigned on Form WPB-541 (formerly PD-1A) or WPB-542 (formerly PD-3A), or any other rating which may be applied to the delivery of specific repair parts or materials, may also be applied to the installation of the repair parts or materials or to the repair job alone if it is found that installing the parts or materials is not necessary. However, in the case of ordinary plumbing, heating, electrical, automotive or refrigeration repairs, a rating may not be applied to repair work even if the rating is expressly applicable to repair parts or materials. As used in this subparagraph, "repair" means to fix a plant, machinery or equipment after it has broken down or when it is about to break down. "Repair" does not mean upkeep or maintenance service such as periodic inspection, cleaning, painting, lubricating, etc.

(3) *Ratings for services only may not be extended.* A person to whom a rating for services, as distinct from the production or delivery of material, has been applied or extended may not extend the rating for any purpose.

(g) *How to apply or extend a rating.* (1) When a person applies or extends a preference rating he must put the rating (and symbol, if appropriate) on the order together with a certification signed as prescribed in Priorities Regulation 7. He may use the standard certification set out in that regulation, or if he prefers the following:

CERTIFICATION

> The undersigned purchaser hereby represents to the seller and to the War Production Board that he is entitled to apply or extend the preference ratings indicated opposite the items shown on this order, and that such application or extension is in accordance with Priorities Regulation 3 as amended, with the terms of which the undersigned is familiar.
>
> ---
> (Name of Purchaser)
>
> ---
> (Address)
>
> By ---
> (Signature and Title of Duly Authorized Officer)
>
> ---
> (Date)

The person who receives the certification shall be entitled to rely on it as a representation of the buyer unless he knows or has reason to know that it is false.

NOTE: (Subparagraphs (2) and (3) deleted April 25, 1944. They are superseded by paragraphs (o) and (p) of Priorities Regulation 7, which state the rules for placing rated orders orally or by telephone or telegraph.)

(4) When a person applies or extends a rating he shall also include on his purchase order or contract any information which may be required by any applicable War Production Board order. However, he is not required to include the serial number of the preference rating certificate assigning the rating.

(5) Each person who applies or extends a rating must keep at his regular place of business all documents including purchase orders and preference rating orders and certificates which authorize him to apply or extend the rating. These documents, orders and certificates must be kept in such a way that they can be readily segregated and furnished to representatives of the War Production Board for inspection.

(6) When either certification authorized in this paragraph (g) is used it will not be necessary to use any other certification in order to apply or extend a preference rating, nor will it be necessary to furnish a copy of any preference rating order no matter what any regulation, preference rating order or preference rating certificate says unless it expressly states that this regulation does not apply. This does not affect the requirements of Priorities Regulation No. 9 (§ 944.30) when ratings are applied to certain types of exports, in which case its terms control.

(7) No person shall knowingly purport to apply or extend a preference rat-

ing to any order unless he is entitled to do so. No person shall apply or extend a rating for material or services after he has received the material or after the services have been performed, and any person who receives such a rating shall not extend it.

(h) *Provisions applicable to extensions; deferment and grouping.* No matter what any applicable preference rating order or certificate may say,

(1) No person may extend any rating to replace inventory after three months have passed from the time he could have first extended it;

(2) When a person has two or more ratings of the same grade which were assigned by different preference rating certificates or orders he may combine them and extend them to one delivery; and

(3) When a person has two or more ratings of different grades, or where they were assigned by the same or different certificates or orders, he may extend them to deliveries under one purchase order. However, the purchase order must show the amount of each material to which a particular grade of rating is extended. If the type and quantity of the material is such that the supplier can readily determine the exact effect of the extension of the rating on his production and delivery schedule from percentage figures alone, then the purchase order may show the amount of the material to which the particular grade of rating is extended on a percentage basis; otherwise, it must be shown as a separate item. In order to avoid production or delivery of material in quantities smaller than the minimum commercially practicable a person may combine ratings of different grades and extend the rating of the lowest grade to the total production or delivery.

(i) *Restrictions in other orders.* When any person applies or extends a rating he shall be subject to any applicable rule or restriction which may be set forth in the order of the War Production Board which assigns the rating or any other order which regulates transactions in the material or the facilities for which he is using the rating. This includes restrictions as to the kind and amount of material to which ratings may be applied or extended, requirements for written approval of any particular transaction, restrictions on certain uses of material or facilities and any other rules which may be applicable to the particular transaction. However, the rules of paragraphs (g) (4) and (g) (6) apply unless some other order or certificate expressly says that they do not.

Issued this 22d day of August 1944.

INTERPRETATION 1, REVOCATION

Interpretation 1 of Priorities Regulation 8 is hereby revoked. (Issued Nov. 17, 1943.)

INTERPRETATION 2

EFFECT OF LISTS A AND B ON UNFILLED ORDERS

The restrictions on the use of ratings for the items on Lists A and B apply to orders for such items which had been placed before the date the item was put on the list but were not yet filled. (Issued Nov. 17, 1943.)

INTERPRETATION 3

FIRE PROTECTIVE EQUIPMENT

Blanket MRO ratings may be used to obtain repair parts and material for existing fire protective equipment, but may not be used to obtain end items of fire protective equipment. The term "Fire protective equipment", on List B attached to Priorities Regulation 3, includes only end items and does not include materials or parts required for the repair or maintenance of existing fire protective equipment.

For example, a fire extinguisher or a fire hose coupling is an end item of fire protective equipment and therefore may not be obtained on blanket MRO ratings, whereas a part required to repair an extinguisher or coupling is not an end item and therefore may be obtained on blanket MRO ratings. Similiarly, blanket MRO ratings may not be used to obtain a fire sprinkler system nor to extend an existing sprinkler system, but such ratings may be used to repair or replace sprinkler heads which have been opened up by fire or damaged in any other way. However, blanket MRO ratings may not be used to repair or replace new equipment which is still usable. (Issued Feb. 26, 1944.)

INTERPRETATION 4

CMPL-224 AND CMPL-127 AUTHORIZATIONS

A great many orders of the War Production Board permit the delivery of materials pursuant to preference ratings assigned by a P-19-h Order, or by an order in the P-19 series. Forms CMPL-224 and CMPL-127 are generally used in place of orders in the P-19 series. It is expressly stated on Form CMPL-224:

"This authorization is issued in lieu of preference rating order of the P-19 series. Any reference in any order of the War Production Board to said preference rating orders shall constitute a reference to this authorization."

It is set forth in CMPL-127:

"This authorization is issued in lieu of Preference Rating Order P-19-h or P-55. Any reference in any order of the War Production Board to said Preference Rating Order P-19-h or P-55 shall constitute a reference to this authorization."

Consequently, it is proper for any person to deliver material or equipment pursuant to a rating assigned by Forms CMPL-224 or CMPL-127, if he is permitted under existing orders of the War Production Board to deliver said material pursuant to a rating assigned by a P-19-h order or an order in the P-19 series. (Issued Aug. 13, 1943.)

INTERPRETATION 5

RESTRICTIONS OF OTHER ORDERS; "MASKING" TAPE

(a) *Restrictions of other orders on use of ratings or delivery.* The provisions of paragraph (e) relate only to the items which appear on the lists. When any other order of the War Production Board restricts the use of preference ratings to obtain any product, or restricts delivery of a product in any way, those restrictions are applicable even though that product is not listed in Priorities Regulation 3 (§ 944.23). This rule specifically applies to the items which were on List C before the amendment of August 10, 1943.

(b) *"Masking" tape.* Blanket MRO ratings may be used to get industrial pressure sensitive adhesive tape (paper and cloth), also called "masking" tape. This type of

tape is not included in "Gummed stay and sealing tape, paper and cloth."

This interpretation is not applicable to adhesive tape backed with cellophane or similar transparent materials derived from cellulose which may not be obtained with blanket MRO ratings. (Issued Dec. 18, 1943.)

INTERPRETATION 6

EFFECT OF PREFERENCE RATING CERTIFICATE REFERRING TO PRODUCT OF A PARTICULAR MANUFACTURER

(a) When a preference rating certificate in assigning a rating to a product describes the product by its trade name or by the manufacturer's name and catalogue number, the rating may ordinarily be used to get the product from any manufacturer if the model actually obtained is substantially identical in size, operation and function with that named in the certificate.

(b) The rule stated in the preceding paragraph is consistent with the statement in paragraph (c) (2) of Priorities Regulation 3 (§ 944.23), that a preference rating may be applied only to the specific quantities and kinds of material authorized. Ordinarily a reference in a preference rating certificate to a particular product of a particular manufacturer is no more than a shorthand way of describing the product. It is safe to assume, unless the certificate clearly states otherwise, that what is being rated is a certain kind and size of product which may be obtained from any manufacturer who makes that kind and size. If it is intended to confine the rating to a particular product of a particular manufacturer, the certificate should say so explicitly. (Issued Sept. 8, 1943.)

INTERPRETATION 7

LIMITATIONS ON THE RIGHT TO USE RATINGS TO GET MATERIALS PROCESSED

(a) *What this interpretation covers.* This interpretation explains the limitations on the use of a preference rating assigned to the delivery of a material to get material processed under paragraph (f) (2) (ii) of the regulation.

(b) *Controlled materials.* Preference ratings cannot be used to buy controlled materials (steel, copper, and aluminum in controlled material form) from a producer or warehouse and consequently no rating may be used to get material processed into a controlled material by a producer or warehouse. There is one exception to this general rule which is covered by paragraph (d-1) of CMP Regulation No. 8, which assigns a preference rating to steel producers for use in getting steel processed into a controlled material form.

(c) *Class B products.* Paragraph (g) (3) of CMP Regulation No 1 prohibits allotments of controlled materials to B product manufacturers except by the War Production Board and, as explained in Interpretation No. 16 to CMP Regulation No 1, also prohibits a customer from furnishing controlled materials to a B product manufacturer. A special exception to this general rule is provided in Direction 38 to CMP Regulation No. 1. In all cases not covered by the exception, it is improper for a person to furnish controlled materials to a B product manufacturer for processing and consequently no preference rating can be used to get such processing done. In this connection, attention is called to the fact that all products, whether Class A products or Class B products, which are bought for use as maintenance, repair, or operating supplies are treated as though they were Class B products. This is covered by paragraph (k-1) (2) of CMP Regulation No. 1. As pointed out in Interpretation No. 13 to CMP Regulation No. 1, a Class A repair part is handled on a Class B basis and therefore paragraph (g) (3) of the regulation is applicable.

(d) *Ratings not to interfere with authorized controlled material orders.* While a person who has been assigned a rating to get material may use the rating to get the use of the facilities of a controlled materials producer to have the material processed (if the material, when processed, is not a controlled material) rated orders for the use of a controlled materials producer's facilities must not interfere with the acceptance, production, or delivery of orders which he is permitted to fill under paragraph (t) (3) of CMP Regulation No. 1. Attention is called to Interpretation No. 4 to Priorities Regulation No. 1 on this subject. (Issued Nov. 18, 1943.)

INTERPRETATION 8

ELECTRONIC INTERCOMMUNICATING SYSTEMS AND WIRE INTERCOMMUNICATING SYSTEMS

List B of Priorities Regulation 3 (§ 944.23) forbids the use of blanket MRO ratings to obtain electronic intercommunicating systems or wire intercommunicating systems. This restriction applies only to getting systems not yet installed. Therefore, blanket MRO ratings may be used to obtain repair parts and materials for existing intercommunicating systems. Also, those blanket MRO ratings which may be used for minor capital additions, may within prescribed dollar limits be used to add stations to an existing intercommunicating system to bring it to its designed capacity. Thus, if an intercommunicating system is designed for 16 stations, with only 12 stations originally installed, four stations may be added by the use of blanket MRO ratings. However, an expansion beyond the 16 stations, or any enlargement of or an extension beyond the designed capacity, may not be obtained by use of blanket MRO ratings.

In conjunction with the above interpretation, it should be pointed out that a related item, signal and alarm equipment, also appears on List B of Priorities Regulation 3. With respect to signal and alarm equipment, blanket MRO ratings may be used to get parts and materials for repair and maintenance of existing equipment. However, since signal and alarm equipment is generally installed without a specific margin of unused designed capacity, no additions or extensions by the use of blanket MRO ratings are permitted. (Issued Jan. 6, 1944.)

INTERPRETATION 9

CERTAIN MRO RATINGS ASSIGNED UNDER P-98-b ARE NOT BLANKET MRO RATINGS

Paragraph (e) (2) of Priorities Regulation 3 prohibits the use of a "blanket MRO rating" to get any item on List B. See that paragraph for a definition of a "blanket MRO rating". Some of the items which are on List B also appear on Schedule B of Preference Rating Order P-98-b. That schedule provides a way to get a rating for the items which appear on it so that such P-98-b ratings will not be "blanket MRO ratings". These ratings are assigned to specific purchase orders for a specific kind and quantity of the material desired.

Therefore, when a rating assigned pursuant to Schedule B of P-98-b (as evidenced by the symbol MRO-P-3) is applied to a purchase order for any item which is set out on Schedule B of that order that rating is valid, despite the fact the item is also on List B of Priorities Regulation 3.

The order does not require the purchaser to furnish a copy of his approved purchase order to the supplier, and the supplier should give effect to the rating and certification unless he knows or has reason to believe that the purchase order has not been rated as provided in Schedule B of Order P-98-b. (Issued Jan. 24, 1944.)

INTERPRETATION 10

USE OF RATING TO OBTAIN LEASED MACHINERY

(a) A preference rating which has been assigned for the delivery of an item of machinery or equipment may be used to lease the equipment as long as the following conditions are fulfilled:

(1) The lease must be a long-term semi-permanent arrangement where both parties contemplate the comparatively permanent installation of the machine or equipment. For instance, a rating could be used to obtain a machine under lease where the lease was for one year, with provision for renewal at the end of each year, and both parties expected that the lease would be renewed from time to time. However, the rating could not be used to obtain a machine for a month's use.

(2) If the rating is limited by specific dollar amount, it may be used only to lease machinery or equipment whose fair market value is no greater than the amount specified. For example, CMP Regulation No. 5 assigns a rating for the purchase of minor capital additions not exceeding $500. This rating can be used to lease a machine if its fair market value is not more than $500.

(b) If the instrument assigning the ratings specifies a lease rather than a purchase, it is not necessary to comply with the above conditions. (Issued April 25, 1944.)

INTERPRETATION 11

IDENTIFICATION OF BLANKET MRO RATINGS

Generally speaking, ratings accompanied by the symbol "MRO" are blanket MRO ratings when they are applied to get an item on List B of Priorities Regulation 3. Therefore, any person receiving an order for a List B item bearing a rating accompanied by the symbol "MRO" must assume that the rating is a blanket MRO rating and give it no effect, unless the person who applied or extended it demonstrates (1) that it is not a blanket MRO rating or (2) that it is an extension of a blanket MRO rating applied on an order which was filled before the item was added to List B. (See paragraph (e) (2) of Priorities Regulation 3 for definition of "blanket MRO rating.")

It should not be assumed, however, that all blanket MRO ratings are accompanied by the "MRO" symbol. Several "P" and "U" Orders assign blanket MRO ratings which are accompanied by symbols other than "MRO." For example, a blanket MRO rating is assigned by Preference Rating Order P-98, but the symbol accompanying the rating is "S-6".

The question has been raised whether the War Production Board assigns the symbol "MRO" in connection with the assignment of a rating on Form WPB-541 (PD-1A) for a List B item. The answer to this question is "No." Therefore, no rating which was assigned on Form WPB-541 for a List B item could properly be accompanied by the "MRO" symbol. (Issued April 25, 1944.)

INTERPRETATION 12

RECORDS OF EXPORTERS

Paragraph (g) (5) of Priorities Regulation No. 3 requires each person who applies or extends a rating to keep all documents including preference rating orders and certificates which authorize him to apply or extend the rating at his regular place of business. The Foreign Economic Administration and its predecessors, the Board of Economic Warfare and the Office of Economic Warfare, have assigned preference ratings to exporters for export by endorsing appropriate legends upon export licenses. The original of every export license, however, is required by other government regulations to be surrendered to export officials at the time of shipment. Consequently, persons who receive their assignments of preference ratings on export licenses are not in a position to retain the original of the export license and thus are not required to do so by paragraph (g) (5) except only in those cases where other government regulations do not require the surrender to the government of the documents referred to. (Issued April 25, 1944.)

INTERPRETATION 13

TIME LIMIT ON USE OF RATINGS

Preference ratings may not be extended to replace material in inventory after three months from the time delivery was made to the customer. This is the rule of paragraph (h) (1) of the regulation.

When a rating is being applied (except a blanket rating such as one assigned by CMP Regulation 5) or when any rating is extended for some purpose other than to replace inventory, this may be done only within a reasonable time after the rating was received. Generally speaking, more than three months is deemed to be an unreasonable delay in the use of a rating. In a particular case there may be circumstances which make a reasonable time shorter or longer than three months. For example,

(1) A rating assigned to a construction project on a form which says when the rating expires (such as CA-1456 or CMPL 503) may be applied for material going into the project until the expiration date stated, even though more than three months may have elapsed.

(2) A rating assigned in connection with an export license may be applied as long as the license is valid and expires when the license expires or is revoked. (For explanation of this rule see Interpretation 2, Directive 27.)

(3) When a rating is applied to a long term contract (such as the construction of a ship), it may be extended for material needed to fill the contract, even though more than three months have elapsed.

(4) If the purpose for which the rating was assigned no longer exists, the rating may not be applied even though three months have not elapsed.

(5) When a rating is extended by a person to get material to deliver to his customer, or to incorporate in such material, the time within which it may be done will, in general, be controlled by the delivery date on his customer's order.

The fact that a person has not been able to get his rated order accepted by a supplier does not lengthen the time within which he may use his rating. [Issued June 28, 1944.]

PART 3288—RADIO AND RADAR DIVISION

[General Limitation Order L-265, Interpretation 9]

STATUS OF CERTIFICATE ORDERS

The following interpretation has been issued with respect to General Limitation Order L-265:

Purchase orders accompanied by either the "Consumer's Certificate" or the "Supplier's Certificate" specified in Order L-265 carry no priority by virtue of the certificate. They are unrated orders, and they must not be filled, therefore, to the prejudice of required deliveries on rated orders. The fact that a certificate order was placed earlier than a rated order does not give it any kind of preference. Shipments on certificate orders cannot be made to any extent that they will prevent or interfere with required shipments on rated orders. Furthermore, certificate orders do not give rise to any preference ratings. Ratings cannot be applied or extended by suppliers simply on the basis of certificate orders on hand.

Issued this 22d day of August 1944.

PART 3291—CONSUMERS DURABLE GOODS

[Limitation Order L-176, as Amended Aug. 22, 1944]

DOMESTIC AND COMMERCIAL ELECTRIC FANS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials and facilities for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3291.135 *Limitation Order L-176*—(a) *What this order does.* This order controls the manufacture and delivery of certain types of electric fans. It provides for the resumption of production of a limited quantity of 12 inch and 16 inch fans. Generally, it does not control heavy industrial type fans which are controlled by Limitation Order L-123.

(b) *Definitions.* For the purposes of this order:

(1) "Electric fan" means any propeller type fan designed for desk, pedestal, wall bracket, ceiling, or portable window mounting, which is powered by a fractional horsepower motor drawing 200 watts or less. It includes such fans whether completely assembled or assembled in knocked down form. It does not include any centrifugal fan or blower, propeller type attic fan, industrial propeller type exhaust fan or any fan which is a functional part of any equipment or device having a primary use other than ventilation.

(2) "Base period" means the aggregate of the years 1938, 1939 and 1940.

(3) "Manufacturer" means any person engaged in the business of manufacturing or assembling any electric fan or parts for an electric fan, including a person who assembles parts of an electric fan for sale in knocked down form, or any person engaged in that business during the base period.

(4) "Special order" means any purchase order, contract or subcontract for delivery of an electric fan to or for the account of the Army, Navy, Maritime Commission or War Shipping Administration if (i) the fan ordered conforms to applicable specifications for marine fans issued by the Navy or Maritime Commission, and (ii) the order, contract or subcontract states that the fan is for use on a combat or marine vessel.

(c) *Permitted manufacture of electric fans.* (1) No manufacturer shall make or assemble any electric fans except in models and quantities specifically authorized by the War Production Board on CMPL-150-b. Application should be made by filing Form WPB-3700 with the field office of the War Production Board for the district in which the plant where the fans are to be made is located.

(2) Manufacture of electric fans will be authorized so that the total production will not exceed the approved War Production Board program and so that the production in any one plant, or labor requirements therefor, will not interfere with war production in that plant, or in any other plant located in the same area. Each manufacturer permitted to produce electric fans under paragraph (c) (1) will be given two separate quotas, one for military and export requirements other than special orders and another for other orders. Wherever practical each manufacturer will be permitted to make his pro rata share of the total production authorized based on his production in the base period. However, to insure full production of approved requirements, additional quotas may be assigned to qualified manufacturers. In general, the War Production Board will only authorize the production of 12 inch and 16 inch electric fans, and no single manufacturer will be authorized to produce more than one model 12 inch fan and one model 16 inch fan. Approval of models will be based largely on economy of production and the volume of production of individual models by a manufacturer in the base period. The War Production Board will from time to time or on request of any manufacturer give notice to all manufacturers of the total production authorized and the percentage of base period production authorized to each individual manufacturer.

(3) Manufacturers who are unable to produce in their own plant because of interference with war production may apply to the War Production Board for permission to have another person make fans for them. Each application should be made by filing Form WPB-3700 in accordance with its instructions.

(d) *Certain production exempt.* The restrictions contained in paragraph (c) do not apply to the production or assembly of electric fans to fill special orders.

(e) *Effect on outstanding authorizations.* All authorizations for manufacture or assembly of electric fans issued by the War Production Board before May 24, 1944, on appeals or otherwise are hereby cancelled as of May 31, 1944.

(f) *Restrictions on deliveries of electric fans.* No manufacturer shall transfer or deliver any electric fan except:

(1) To fill special orders;
(2) To other manufacturers;
(3) As authorized by the War Production Board on Form WPB-1319 for hospital, institutional or essential industrial purposes in response to an application in quadruplicate filed with the nearest field office of the War Production Board; or
(4) As authorized by the War Production Board on Form WPB-1319 in response to an application filed in quadruplicate with the War Production Board, Washington 25, D. C., Ref.: L-176, (i) to fill Army and Navy orders other than special orders; (ii) for export; (iii) in all other cases not covered by paragraph (f) (3).

(g) *Restrictions on production of parts.* No manufacturer shall make any parts for an electric fan (including repair and replacement parts) if by making those parts he would have more parts of that type in his inventory than a three months' supply. However, a manufacturer is not required to make less than a minimum practical run of any part (including repair and replacement parts) in order to comply with the provisions of this paragraph.

(h) *Restriction on the use of copper and copper base alloy.* No manufacturer shall use copper or copper base alloy in the manufacture of electric fans or parts for electric fans except in current carrying parts; motor bearings; and for identification, instruction and data plates on fans made to fill special orders as permitted by M-9-c.

(i) *Preference ratings for purchase of electric fans prohibited.* No preference rating for electric fans shall be valid for any purpose. All orders bearing preference ratings may be filled as unrated orders. This does not apply to any rating carried by a purchase order or contract calling for delivery (1) to fill special orders, or (2) to or for the account of the Army, Navy, Maritime Commission or War Shipping Administration when authorized on Form WPB-1319, pursuant to paragraph (f) (4).

(j) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(k) *Exceptions and appeals*—(1) *Production under Priorities Regulation 25.* Any person who wants to make electric fans and who has not been authorized to make them on Form CMPL-150-b, or who wants to make more fans than he was authorized to make on Form CMPL-150-b may apply for permission to do so as explained in Priorities Regulation 25. A person may still, of course, apply on Form WPB-3700 for an authorization if he desires. Restrictions in paragraph (f) on deliveries apply to electric fans made under authorizations pursuant to Priorities Regulation 25.

(2) *Appeals.* Any appeals from the provisions of this order, other than paragraph (c), should be filed on Form WPB-1477 with the Field Office of the War Production Board for the district in which is located the plant to which the appeal relates. No appeal should be filed from the provisions of paragraph (c).

(l) *Applicability of other orders and regulations.* This order and all transactions affected by this order are subject to the applicable regulations of the War Production Board. If any other order of the War Production Board limits the use of any material in the production of electric fans to a greater extent than does this order, the other order shall govern unless it states otherwise.

(m) *Communications.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers Durable Goods Division, Washington 25, D. C., Ref: L-176.

(n) *Reports.* Every manufacturer producing or shipping electric fans shall file Form WPB-1600, executed in accordance with the instructions for filing that form, with the War Production Board, Washington 25, D. C., Ref: Order L-176, on or before the 15th day of July, October, January and April. This form is a report of the number of electric fans made and shipped during the preceding quarter.

NOTE: The reporting and application requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 23d day of August 1944.

PART 3291—CONSUMERS DURABLE GOODS

[Limitation Order L-275 as Amended Aug. 22, 1944]

ALARM CLOCKS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of alarm clocks and materials and facilities for producing them; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3291.205 *Limitation Order L-275*—(a) *What this order does.* This order governs the manufacture and distribution of new alarm clocks.

(b) *Definitions.* For the purposes of this order: "Manufacturer" means any person who produces or assembles, or who produced or assembled during the period 1936 to 1941, inclusive, any new alarm clocks, either spring driven or electrically operated.

(c) *Who may produce alarm clocks; how many may be made.* (1) After May 10, 1944, no manufacturer may produce, assemble, or deliver any new alarm clocks, either spring driven or electrically operated, except according to quarterly quotas authorized in writing by the War Production Board pursuant to an application on Form WPB-2719 (formerly PD-880), which each manufacturer must file with the War Production Board on or before the 10th day of May, and thereafter on or before the 15th day of June, September, December, and March, showing his proposed production and delivery for the next quarter.

(2) The War Production Board will assign production quotas to meet approved requirements. Total production which would exceed such requirements will not be authorized. No person will be authorized to produce alarm clocks if that production would interfere with his other war production. Production will be authorized so as to avoid increased labor requirements in labor shortage areas. The War Production Board will give notice to each manufacturer of the total and individual authorizations.

(3) In order to secure proper distribution of the supply of alarm clocks authorized to be produced under this order, the War Production Board may require manufacturers, as a condition to the right to produce alarm clocks, to sell specified quantities of those produced to other manufacturers who are presently found to be in a position to facilitate the distribution of these alarm clocks. In general, the number of alarm clocks required to be sold to such other manufacturers will be in relation to their volume of production in the period 1936 to 1941, inclusive. Manufacturers authorized to distribute alarm clocks under this paragraph may be required to distribute them in a manner required by the War Production Board.

(4) Alarm clocks may be delivered without regard to preference ratings. No person shall apply or extend any rating to get any alarm clocks and no person selling alarm clocks shall require a rating as a condition of sale. Any rating purporting to be applied or extended to delivery of alarm clocks shall be void and no person shall give any effect to it in filling an order.

(d) *What type of alarm clocks may be made.* Only alarm clocks authorized in writing by the War Production Board as to type of movement and style of case may be manufactured. In general, no manufacturer will be authorized to produce more than one type of spring wound, and one type of electrically operated, alarm clock. Approval of models will be based largely on economy of production and a minimum use of critical materials.

(e) *Reports.* The reporting and application requirements of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(f) *Applicability of other orders and regulations.* This order and all transactions affected by this order are subject to the applicable regulations of the War Production Board. If any other order of the War Production Board limits the use of any material in the production of alarm clocks to a greater extent than does this order, the other order shall govern unless it states otherwise.

(g) *Violations.* Any person who wilfully violates any provision of this order or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(h) *Exceptions and appeals*—(1) *Production under Priorities Regulation 25.* Any person who wants to produce or assemble new alarm clocks and who has not been authorized to produce or assemble on Form WPB-2719, under paragraph (c) (1), and any person who wants to produce or assemble more new alarm clocks than he was authorized to produce or assemble on Form WPB-2719, may apply for permission to do so as explained in Priorities Regulation 25. The provisions of paragraph (c) (1) regarding the delivery of new alarm clocks and all the provisions of paragraphs (c) (3) and (d) apply to a person who receives an authorization under Priorities Regulation 25. A person may still, of course, apply on Form WPB-2719 under paragraph (c) (1) for au-

§ 3291.291 *Limitation Order L-301*—(a) *Definitions.* For the purposes of this order:

(1) "Powercycle" means any two or three wheeled vehicle (with or without side car or similar attachment) commonly known as a motor bike, motor scooter, or motor glide, propelled by an internal combustion engine having a displacement of less than 25 cubic inches. It shall not include motorcycles.

(2) "Powercycle manufacturer" means any person engaged in the business of producing or assembling powercycles or parts specifically designed for incorporation into powercycles.

(3) "Repair-part" means any part that is produced to replace a used or worn part, in a used powercycle.

(b) *Restrictions on production.* (1) No powercycle manufacturer shall produce or assemble any powercycle except pursuant to the specific authorization of the War Production Board granted in response to a letter of application.

(2) During the six months period beginning July 1st, 1943, and during each six months period thereafter, no powercycle manufacturer shall produce repair parts containing more weight of metal in the aggregate than 62½% of the aggregate weight of metal contained in the repair parts produced by him during 1942.

(c) *Restrictions on transfer.* No powercycle manufacturer shall transfer the physical possession of or legal title to any powercycle which has never been sold to an ultimate consumer, except:

(1) In fulfillment of an order, contract or subcontract placed by or for the account of the Army or Navy of the United States, the War Shipping Administration, the United States Maritime Commission, the government of any country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act) and government agencies or other persons acquiring powercycles for export to any foreign country.

(2) Pursuant to specific authorization of the War Production Board on Form WPB-1319 (formerly PD-556).

(3) The War Production Board will not, in the absence of special circumstances, grant any authorizations for transfers to any persons unless they are directly engaged in the production of War material or require powercycles for intraplant or emergency use.

(d) *Avoidance of excessive inventories.* No manufacturer shall accumulate for use in the manufacture of powercycles inventories of raw materials, semi-processed materials or finished parts in quantities in excess of the minimum amount necessary to maintain production of powercycles at the rates permitted by this order.

(e) *Applicability of other orders and regulations.* This order and all transactions affected by this order are subject to the applicable regulations of the War Production Board. If any other order of the War Production Board limits the use of any material in the production of powercycles to a greater extent than this order does, the other order shall govern unless it states otherwise.

(f) *Violations.* Any person who willfully violates any provision of this order or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

(g) *Communications.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers Durable Goods Division, Washington 25, D. C., Ref: L-301.

(h) *Exceptions and Appeals*—(1) *Production under Priorities Regulation 25.* Any person who wants to produce or assemble more powercycles than he has been authorized to produce under paragraph (b) (1) (including a person who has no authorization under this order), and any person who wants to produce more repair parts than he is permitted to produce under paragraph (b) (2) may apply for permission to do so as explained in Priorities Regulation 25. He may still, of course, apply for a specific authorization as described in paragraph (b) (1).

(2) *Appeals.* Any appeal from the provisions of this order other than the restrictions of paragraph (b) (1) or (b) (2) shall be made by filing a letter in triplicate with the War Production Board, Washington 25, D. C., Ref: L-301, referring to the particular provision appealed from and stating the grounds of the appeal. No appeal should be filed from the restrictions of paragraph (b) (1) or (b) (2).

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 422,[1] Amdt. 24]

CEILING PRICES OF CERTAIN FOODS SOLD AT RETAIL IN GROUP 3 AND GROUP 4 STORES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.[*]

Maximum Price Regulation 422 is amended in the following respects:

1. The following undesignated paragraphs are added to section 20 (l) to read as follows:

This section shall not apply to sales by you under the following conditions:

(1) If, prior to April 29, 1944, you figured a ceiling price for canned Cuban pineapple or canned Cuban pineapple juice for sales to industrial, institutional or commercial users under § 1341.155 (a) of Maximum Price Regulation No. 197,[2] or under this regulation for other packed pineapple or pineapple juice (other than pineapple or pineapple juice packed in the Territory of Hawaii or in Puerto Rico); and

(2) If you have entered into contracts with a foreign seller prior to April 29, 1944, at prices not in excess of such ceiling price for the item; and

(3) If you file a copy of each such contract with the Distribution Branch, Food Price Division, OPA, Washington, D. C., on or before September 9, 1944, together with a statement showing your cost for each item under such contract and your cost and ceiling prices for each item under Maximum Price Regulation No. 197 or this regulation.

In such cases, if your contracts are approved, the OPA will send you written notice permitting you to carry out such contracts at the contract price and setting forth the method you must use in figuring your ceiling prices for items delivered to you under the above contracts.

2. A new section 20 (m) is added to read as follows:

(m) *Frozen fruits, berries, and vegetables.* If you buy an item of frozen fruits, berries, fruit or berry juices, vegetables, or vegetable juices from a seller (for example, freezers, wagon wholesalers, or primary distributors) pricing the item under Supplement No. 6 to Food Products Regulation No. 1,[3] you may add to your "net cost" for any such item ¾ of a cent per pound for quick-frozen items, or ¼ cent per pound for cold-packed items. Your "net cost", however, in such cases may not include any amount you paid for storage.

3. A new section 20 (n) is added to read as follows:

(n) *Frozen fish which you process.* (1) If, prior to offering for sale any item of frozen fish, you process it by changing its form to either gutted, dressed, dressed and skinned, fillets, cuts or steaks (sliced), you will figure your "net cost" as though you had purchased the item already processed. Your "net cost" for any style of dressing is the price fixed, at the time you process it, for that style of dressing in Maximum Price Regulation No. 364[4] for your supplier's sales to you. (Add the transportation and container allowances specified in Maximum Price Regulation No. 364.

(2) If, prior to offering for sale any item of frozen saltwater fish, you process it by changing its form to cuts or steaks (sliced), and if Maximum Price Regulation No. 364 does not fix a price for that style of dressing, you will figure your "net cost" as follows: Find the price per pound fixed, at the time you process it, in Maximum Price Regulation No. 364 for your supplier's sales to you of that kind of fish bought dressed. Multiply that price by 1.40. (Add the transportation and container allowances specified in Maximum Price Regulation No. 364.) The resulting figure will be your "net cost" per pound for the item. To get your ceiling price per pound, apply the mark-up for your group of retailer to the resulting figure.

4. A new section 20 (o) is added to read as follows:

(o) *Smoked fish which you process.* (1) If you buy smoked fish in the form of slabs (gutted, headed and halved) and sell it in slices, you shall multiply your "net cost" per pound for the item by 1.20. To get your ceiling price per pound for such slices, apply the mark-up for your group of retailer to the resulting figure.

(2) If, prior to offering for sale, you change the form of an item of smoked fish bought drawn (gutted) to dressed (headed, with fins off), and sell it whole, in chunks or in slices, you shall multiply your "net cost" per pound for the item by 1.10. To get your ceiling price per pound, apply the mark-up for your group of retailer to the resulting figure.

5. Section 38 (b) (10) is amended to read as follows:

(10) "Fruits, berries and fruit juices, canned" includes, but is not limited to, apple sauce, apple cider, berry juices, concentrated fruit juices, citrus fruits and juices, cranberry jelly and sauce, fountain fruits, maraschino cherries, fruit nectars, bulk apple cider and pineapple juice. "Canned" means processed and packed in any container, whether or not hermetically sealed. Excluded are apple butter, fruit butters, jams, jellies, fruit preserves, cocoanut, olives, baby foods, dried fruits, dehydrated fruits, fruit cocktail, pineapple (except pineapple juice), peaches, pears, and frozen fruits.

6. Section 38 (b) (13) is amended to read as follows:

(13) "Frozen foods" means packaged quick-frozen or cold-packed foods, sold from refrigerated cabinets or lockers, including, but not limited to all fruits, berries, fruit or berry juices, and mixtures (except any of the foregoing in containers of a capacity of 50 pounds or more), vegetables, vegetable juices and mixtures, including mushrooms, dog and cat food not prepared by you for pet food, apple sauce, macaroni and spaghetti products, chop suey, gravies, pork-and-beans, soups, food products in which meat, chicken, turkey, fish or seafood are combined with other ingredients, meat stews, and corned beef hash. Excluded are frozen pies and pastries, frozen meat, poultry, fish and seafood, ice cream, sherbet and frozen confections. Quick-frozen and cold-packed frozen foods shall be considered as separate items, and priced separately.

NOTE: The 1943 pack of canned fruits and frozen fruits shall be considered different items from the 1942 pack of fruits and you must figure separate ceiling prices for each item of the 1943 pack.

7. Section 38 (b) (24) is amended to read as follows:

(24) "Rice" (packaged or bulk) means all rice. Excluded are rice flour, rice flakes, popped rice, wild rice, and rice containing more than 50 percent broken kernels.

8. Section 38 (b) (29) is amended to read as follows:

(29) "Spices" includes, but is not limited to, bayleaves, caraway seed, dried peppers, dry chili, celery seed, celery salt, celery flakes, chili powder, garlic, garlic salt, dry mustard, onion salt, onion flakes, poultry seasoning, poppy seed, seasoned salt, sesame seed, thyme, and cream of tartar. Excluded are table salt, spice oils, candied ginger, raw spices and spice seeds in containers of the customary unit and weight in which they are imported into the United States, and wooden or other type trays designed as permanent kitchen furniture containing sets of assorted spices.

9. Section 38 (b) (33) is amended to read as follows:

(33) "Vegetables and vegetable juices, canned" includes, but is not limited to, blackeye, crowder, cream and field peas, baked beans, sauerkraut, rhubarb, chili sauce, cocktail sauce, canned hominy, mushrooms, mushroom sauce, tomato catsup, tomato paste, tomato puree, pimientos, and Chinese style foods including soy sauce and brown sauce. "Canned" means processed and packaged in any container, whether or not hermetically sealed. Excluded are vegetable soups, "baby" or "junior" foods, pickles, corn, green and wax beans, peas (except canned blackeye, crowder, cream and field peas), tomatoes, tomato juice and frozen vegetables.

10. In section 38 (c), the item "Wild rice" is amended to read "Wild rice, and rice containing more than 50 percent broken kernels."

11. In section 38 (c), the following items are added in alphabetical order to the list of commodities excluded:

Frozen fruits, berries, fruit or berry juices, and mixtures, in containers of a capacity of 50 pounds or more.

Raw spices and spice seeds in containers of the customary unit and weight in which they are imported into the United States.

The details of how to adjust March 31, 1942 costs as to material cost and overtime hours are given below in § 1377.154 and § 1377.155.

Ration Order 5C is amended in the following respects:

1. In § 1394.8218 the headnote is amended to read *"Reports by licensed distributors and intermediate distributors,"* and paragraph (f) is added to read as follows:

(f) On or before September 20, 1944, and on or before the 20th day of each succeeding month, every distributor shall file a report for the preceding calendar month with the District Director in the City of Philadelphia, in the State of Pennsylvania, in respect to any retail outlet located in that city to which he has made deliveries of 6,000 gallons or more of gasoline during such preceding month.

Each such distributor shall set forth in his report the following information:

(1) His name and address;

(2) The calendar month and year for which the report is made;

(3) The name and location of each such retail outlet to which he has delivered 6,000 or more gallons of gasoline during the month for which the report is made;

(4) The number of gallons of gasoline he delivered to each such retail outlet during such month; and,

(5) The number of gallons of gasoline, if any, which he delivered to each such retail outlet during the corresponding month in 1942.

A distributor may omit from such report all information in respect to a retail outlet to which he delivered a larger quantity of gasoline in the corresponding period in 1942 than he delivered during the calendar month for which the report is made.

For the purpose of this paragraph the expression "retail outlet" means the place of business of a dealer, or the retail facility of a licensed distributor.

SECTION 1. *Prohibition against sales of hemlock or chestnut oak bark at higher than maximum prices.* On and after August 26, 1944, regardless of any contract, agreement, lease, or other obligation:

(a) No person making a sale of hemlock or chestnut oak bark for which maximum prices are established by this regulation shall sell, deliver, or transfer such bark at prices higher than the maximum prices established under this regulation.

SEC. 2. *Less than maximum prices.* Lower prices than those established by this regulation may be charged, demanded, paid or offered.

SEC. 3. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. SEC. 5. *Records and reports—(a) Records.* (1) Every person selling hemlock or chestnut oak bark to an industrial user or any industrial user buying such bark shall on and after August 26, 1944 keep records which will show the name and address of the buyer and of the seller, the date of the sale, the transportation provisions, the kind of bark and the quantity sold, and the price. Such records must be kept for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, is in effect. Customary records such as invoices showing the above information will constitute compliance with this subparagraph (1).

(2) Every industrial user making purchases of hemlock or chestnut oak bark and every person making sales of such bark to industrial users shall preserve for examination by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, all his existing records relating to deliveries of such bark made or received during the period May 15 to July 15, 1944, inclusive, as well as all records of contracts for the purchase or sale of such bark entered into prior to July 16, 1944 which call for deliveries after July 15, 1944 or under which deliveries have or will be made after July 15, 1944.

(3) Every industrial user making purchases of hemlock or chestnut oak bark shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, records showing as precisely as possible the basis upon which he determined the maximum price applicable to his purchases from each seller from whom he purchases bark after the effective date of this regulation.

(b) *Reports.* On or before September 20, 1944, each industrial user who bought hemlock or chestnut oak bark in the course of trade or business during the period May 15, to July 15, 1944, inclusive, shall file with the Chemicals and Drugs Price Branch, Office of Price Administration, Washington 25, D. C., a report showing his maximum prices as determined under section 11 (a) of this regulation for purchases of such bark from each seller from whom he received bark during the period May 15 to July 15, inclusive, or with whom, prior to July 16, 1944, he entered into a contract which calls for delivery of bark after July 15, 1944 or under which deliveries of bark have or will be made after July 15, 1944. Where a maximum price is not f. o. b. seller's shipping point, the amount of transportation charges included in the maximum price shall be shown separately.

(c) The persons mentioned in paragraphs (a) and (b) above shall keep such other records and shall submit such other reports to the Office of Price Administration in addition to or in place of the records required in said paragraphs as the Office of Price Administration may from time to time require.

SEC. 6. *Evasion.* Price limitations set forth in this regulation shall not be evaded, whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to hemlock or chestnut oak bark alone or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge, discount, premium, or other privilege, or other trade understanding, or by transactions with or through the agency of subsidiaries or affiliates, or otherwise.

SEC. 7. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

A seller's license may be suspended for violation of the license or one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 9. *Petitions for amendment.* Any person seeking an amendment to any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.[4]

(1) "Hemlock bark" refers to the bark of the species *Tsuga canadensis*, or Eastern hemlock.

(2) "Chestnut oak bark" refers to the bark of the species *Quercus montana*, or chestnut oak.

(3) "Industrial user" means a tannery or a person who processes hemlock bark or chestnut oak bark into extract.

(4) "Seller of the same class" refers to a seller of hemlock or chestnut oak bark who belongs to the same one of the following categories as the seller for whom a maximum price is being determined:

(ii) "Pulp mill" (meaning a seller who supplies bark in connection with his operation of a pulp mill).

(iii) "Logger" (meaning a seller who supplies bark in connection with logging operations, but who does not produce either paper or pulp).

(iv) "Bark dealer" (meaning a seller who buys bark which has already been separated from other parts of the tree, and resells it).

(5) "Transportation charge" shall be deemed to include the tax imposed by section 620 of the Revenue Act of 1942 (Pub. Law 753, 77th Cong., approved October 21, 1942) as if it were a like increase in the rate or the amount charged by the carrier for the transportation in question.

(6) "Unit" refers to the unit, such as cord or ton, in which a seller sells hemlock or chestnut oak bark.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms used in this regulation.

SEC. 11. *Maximum prices for hemlock and chestnut oak barks sold to industrial users.* (a) If an industrial user buys or receives hemlock or chestnut oak bark from a particular seller from whom he received delivery of the same kind of bark during the period May 15 to July 15, 1944, inclusive, the maximum price per unit which that purchaser may pay to that seller shall be the highest price per unit which that seller charged that purchaser for a delivery of that kind of bark during the period May 15 to July 15, 1944, inclusive. Where, prior to July 16, 1944, the seller and purchaser had entered into a firm contract for the sale of a bark at a fixed price, and deliveries under the contract have been or will be made only after July 15, 1944, the contract price per unit may be considered for the purposes of this paragraph (a)

as a "price per unit which that seller charged that purchaser for a delivery of the same kind of bark during the period May 15 to July 15, 1944, inclusive."

(b) If an industrial user cannot determine a maximum price under paragraph (a) above for purchases of a particular kind of bark from a particular seller, he shall determine the maximum price as follows:

(1) He shall select from among sellers of the same class for whom he has determined maximum prices under (a) above for the same kind of bark, the seller who is located nearest to the seller for whose bark he is determining a maximum price.

(2) He shall ascertain the maximum price per unit determined under (a) above for the same kind of bark purchased from the seller selected under (1).

(3) The maximum price per unit selected under (2), adjusted to an f. o. b. seller's shipping point basis, shall be the maximum price per unit, f. o. b. seller's shipping point, which he may pay for that kind of bark to the seller for whose bark he is determining a maximum price. The maximum price per unit of the seller of the same class shall be adjusted to an f. o. b. seller's shipping point basis by deducting from the maximum price per unit established for that seller under paragraph (a) the actual cost per unit of any transportation charges included in the maximum price so established.

If, in the case of sales or deliveries of hemlock or chestnut oak bark for which maximum prices are established by this paragraph (b), the seller shall wish confirmation of the buyer's statement with respect to the maximum price therefor, the seller shall apply to the Office of Price Administration, Chemicals and Drugs Price Branch, Washington 25, D. C. and that Office shall inspect the buyer's records and such other records as it deems necessary and certify to the seller the correct maximum price.

(c) If a maximum price cannot be determined under paragraphs (a) or (b) above, the maximum price for a sale of hemlock or chestnut oak bark to an industrial user shall be a price in line with the level of maximum prices established by this regulation specifically authorized by the Office of Price Administration.

Prior to accepting delivery of any hemlock or chestnut oak bark for which a maximum price cannot be determined under (a) or (b) above, the buyer and seller jointly shall make a written application to the Chemicals and Drugs Price Branch, Office of Price Administration, Washington 25, D. C., for authorization of a maximum price. The application shall show the kind of bark to be purchased, the approximate quantity to be purchased, the manner of delivery to be used, the name and address of the seller and buyer, a short description of the nature of the business of the seller, the proposed maximum price per unit, and an explanation of how such price was determined and why the parties believe it to be in line with the level of maximum prices established by this regulation. Deliveries may be made or accepted after mailing the above application and payment at the proposed price may be made and received. If within 20 days of mailing the application written disapproval of the above price is mailed to the seller, the seller may be required to make refunds in accordance with the price as finally approved. If no such disapproval is mailed within the 20 day period, the proposed price shall be considered as approved. Such price may be adjusted at any time by the Office of Price Administration, but any such adjustment, after the 20 day period, shall not be retroactive.

Effective date. This regulation shall become effective August 26, 1944.

NOTE: All record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 21st day of August 1944.

TITLE 38—PENSIONS, BONUSES AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 36—REGULATIONS UNDER SERVICEMEN'S READJUSTMENT ACT OF 1944

EMPLOYEES OF VETERANS' ADMINISTRATION AND REPRESENTATIVES OF VETERANS' ORGANIZATIONS IN CERTAIN ARMY AND NAVY INSTALLATIONS

Joint Regulations of the Secretary of War, the Secretary of the Navy and the Administrator of Veterans' Affairs

The following regulations define the status and functions of certain officials and employees placed in Army and Navy installations by the Administrator of Veterans' Affairs under the authority granted in section 103 of the Servicemen's Readjustment Act of 1944 and provide for the certification by the Administrator of Veterans' Affairs of paid full time accredited representatives of recognized veterans' and other national organizations and the functioning of such accredited representatives in Army and Navy installations as authorized and directed in section 200 of the act.

Nothing in these regulations shall operate to affect measures of military security now in effect or which may hereafter be placed in effect, nor to prejudice the right of the American Red Cross to recognition under existing statutes.

Sec.
36.1 Representatives of the Veterans' Administration.
36.2 Accredited representatives of veterans' or other organizations.

AUTHORITY: §§ 36.1 to 36.2, inclusive, issued under secs. 103 and 200, 58 Stat. 284.

§ 36.1 *Representatives of the Veterans' Administration.* (a) The Administrator of Veterans' Affairs directs the manager of a Veterans' Administration facility having regional office activities or regional office to assign a contact representative on an itinerant basis to maintain relationship with Army or Navy installations in his area which have less than 100 discharges from the service per month as a constant rate for the purpose of rendering any assistance to assure that persons about to be discharged or released from active service are being fully advised of all rights and benefits to which they may be entitled under laws administered by the Veterans' Administration.

The Administrator of Veterans' Affairs directs the manager of a Veterans Administration facility having regional office activities or regional office to designate such full-time contact representatives as deemed necessary from those under his control for duty at each Army and Navy Installation in his area which has 100 or more discharges from the service per month as a constant rate.

(b) The contact representative will present his credentials to the Commanding Officer of the Army or Navy installation to which he is assigned.

(c) It will be the function of full time contact representatives of the Veterans' Administration assigned to Army and Navy installations to assist in giving aid and advice to personnel of the Army and Navy who are about to be discharged or released from active service, to assist such persons in the filing of claims, and to cooperate with the Commanding Officer of the Army or Navy installation so that the latter can expedite the submission of records to the Veterans' Administration.

(d) It is not intended that the contact representative will replace Army, Navy or Red Cross personnel who are assisting persons about to be discharged or released from active service in the preparation of their claims, in the preparation of related records, or performing other administrative procedures in connection with the process of discharge or release from active service, nor that the unavailability of a contact representative will delay this process.

(e) The contact representative will maintain cooperative working relationship on matters of common interest with the accredited representatives of the organizations recognized by the Administrator of Veterans' Affairs who are functioning in the Army or Navy installation to which he is assigned.

(f) The managers of Veterans' Administration facilities having regional office activities or regional offices will make available to Commanding Officers of Army or Navy installations on their request any specific instructions issued to contact representatives.

§ 36.2 *Accredited representatives of veterans' or other organizations.* (a) Procedure for certifying a representative to function at an Army or Navy installation.

(1) Accredited representatives recognized to function in Veterans' Administration facilities or regional offices.

(i) The appropriate national officer of a recognized veterans' or other recognized organization may request the manager of a Veterans' Administration facility having regional office activities or regional office to certify a paid full time accredited representative or representatives of that organization to function at a designated Army or Navy installation (hospital or separation center) located within the area of the facility or regional office. In making such request the national officer shall certify that the representative in question is an accredited representative of his organization and is paid to devote his full time to veteran activities.

(ii) The manager will furnish the accredited representative with a letter of certification stating that inasmuch as he has been authorized to function in a Veterans' Administration facility or regional office pursuant to the authority granted the Administrator of Veterans' Affairs by section 200 of the Act of June 29, 1936 (Public Law 844, 74th Congress), he meets the requirements of section 200 of the Servicemen's Readjustment Act of 1944 relative to functioning in an Army or Navy installation.

This letter will include a statement as to the Army or Navy installation designated for the accredited representative by the national officer of his organization.

(iii) The manager will also notify the following officials of the action taken:

The Commanding Officer of the designated Army or Navy installation.
The national officer of the recognized veterans' or other organization.
The Administrator of Veterans' Affairs.

(iv) The accredited representative will communicate with the Commanding Officer of the Army or Navy installation as to available space and equipment or other conditions which may affect his functioning in the installation.

(2) Nominees not presently recognized by the Administrator of Veterans' Affairs.

(i) The appropriate national officer of a recognized veterans' or other organization will submit to the Administrator an application for recognition of an individual who is a paid full time representative of his organization to function at a designated Army or Navy installation on VA Form P-21, which contains a sworn statement by the applicant regarding his qualifications and character, together with reference in support of the same. In making such request the national officer shall certify that the nominee in question is a representative of his organization and is paid to devote his full time to veteran activities.

(ii) The Administrator or his designate will request recommendation from the manager of the facility in the State (or section of the State) in which the

Army or Navy installation is located. The manager, when called upon for his recommendation, will be furnished the names of persons possessed of intimate knowledge of the character and qualifications of the nominee.

(iii) In the event of favorable action by the Veterans' Administration, the nominee will be furnished a letter certifying him as an accredited representative of his organization in the preparation of claims under the laws administered by the Veterans' Administration. This letter will include a statement as to the Army or Navy installation designated by the national officer.

(iv) The Veterans' Administration will also advise the Commanding Officer of the designated Army or Navy installation and the manager of the facility that the individual (name and address) has been certified as an accredited representative of the named organization.

(v) Upon certification the accredited representative will communicate with the Commanding Officer of the Army or Navy installation as to available space and equipment, or other conditions which may affect his functioning in the installation.

(b) The function of an accredited representative of a recognized veterans' or other organization in Army or Navy installations will be to assist in giving aid and advice to persons in the active service who are about to be discharged or released therefrom, pertaining to their potential entitlement to benefits as administered by the Veterans' Administration.

(c) He shall conform to the orders and regulations laid down by, and will cooperate with the Commanding Officer and others designated by that officer.

(d) He shall act in the closest cooperation with the Veterans' Administration contact representative at installations where such a representative is assigned.

(e) He shall bring to the attention of the Commanding Officer, or to the officer designated by him, any recommendations or complaints, and cooperate in all ways with him so that the Army or Navy authorities can expedite the procedure of discharge or release from active service.

(f) In view of the confidence and trust reposed in the accredited representative, he shall treat as confidential all personal and military information obtained in the course of his activities.

(g) He shall not concern himself with matters which pertain to internal administration of the Army or Navy installation or to professional treatment, transfer, or disposition of patients or other personnel.

(h) He shall not have access to any official records including clinical records and other medical data at an Army or Navy installation.

(i) Unless a Veterans' Administration adjudicating agency (rating board or other adjudicating official) is operating at the Army or Navy installation at which he is functioning, there will be no occasion for action on the part of the accredited representative for the "presentation of claims" and he will abstain from soliciting the execution of a power of attorney (Veterans' Administration Form P-22, "Appointment of Service Organization as Claimant's Representative") by a member of the armed forces at such installation.

This will not be construed as prohibiting the explanation and acceptance of Veterans' Administration Form P-22 by an accredited representative upon the request of the person about to be discharged or released from active service.

(j) An accredited representative of a recognized organization certified to function at an Army or Navy installation will be held personally responsible for the information he gives to persons about to be discharged or released from active duty. He will be expected to be familiar with the rules and regulations of the Veterans' Administration pertaining to the submission of claims; prohibition against furnishing certain information concerning veterans; and all information relative to benefits to which veterans are entitled under laws administered by the Veterans' Administration.

He may obtain necessary information from the manager of the regional office or the Veterans' Administration facility having regional office activities located in the State or section of the State in which the Army or Navy installation is located or from contact representatives designated by the manager.

(k) The Commanding Officer of an Army or Navy installation shall report to the War or Navy Department any misconduct or breach of confidence on the part of an accredited representative.

(l) An accredited representative certified to function at an Army or Navy installation who presents himself to any other Army or Navy installation on an itinerant basis will be accorded the same recognition as though certified to that particular installation upon presentation of his credentials to the proper authority.

An accredited representative certified to function at an Army or Navy installation who is employed in a supervisory capacity by his organization and who presents himself to any other Army or Navy installation shall identify himself as such to the proper authority and shall be afforded an opportunity to inspect the work of accredited representatives of his organization functioning in the installation.

While functioning at such installations they will conform to the rules prescribed for certified representatives at those installations.

(m) The Commanding Officer of each Army or Navy installation will publish a list of all the organizations having an accredited representative, including Veterans' Administration and American Red Cross, functioning at his installation. This list will show the location assigned to the representative of each such organization.

He will make this information available to persons about to be discharged or released from active service.

He will also notify all representatives concerning the schedule for any group orientation talks to be given to advise persons about to be discharged or released from active service concerning their potential rights and benefits after return to civil life.

FILING OF TOWNSHIP PLATS

Section 240.3, of the Code of Federal Regulations (Circ. 1486, March 4, 1941), is amended to read as follows:

§ 240.3 *Filing of township plats.* Upon the acceptance of surveys by the General Land Office, and upon receipt of photolithographic editions of the plats, the originals will be returned to the district cadastral engineer of the proper public survey office, accompanied in each case by the triplicate copy for delivery to the register of the appropriate district land office. The duplicate copy will be retained in the General Land Office. Unless otherwise directed, the register will not regard such plat as officially filed in his office, or the lands as subject to entry and disposal, until the receipt from the General Land Office of instructions for such filing and, thereafter, not until the following regulations have been complied with:

(a) The register will prepare a notice of the official filing of the plat in accordance with the instructions received for approval by the Commissioner, and will forward two copies of the notice to the Commissioner. (c) The register will give publicity to the filing of the plat as follows:

(1) He will at once post the approved notice in a conspicuous place in his office. The notice must be kept posted until the plat has been officially filed and for such additional time, if any, as may be allowed by the notice for the presentation of preference right claims.

Where there is no district land office in a State, the Commissioner will prepare all necessary notices, and will give substantially the same publicity to the filing of the plat as is indicated above.

Vessels engaged in business connected with the conduct of the war.

The Acting Secretary of the Navy having by order dated 1 October, 1942 (7 F.R. 7979) waived compliance with the Navigation and Vessel Inspection laws administered by the United States Coast Guard, in the case of any vessel engaged in business connected with the conduct of the war to the extent and in the manner that the Commandant, United States Coast Guard, shall find to be necessary in the conduct of the war; and

R. A. FOURT CONSTRUCTION CO.

ORDER REVOKING LICENSES, DIRECTING SURRENDER OF LICENSES, AND REQUIRING RECORDS TO BE FURNISHED

To: R. A. Fourt, R. A. Fourt Construction Company, 4522 Grand Avenue, Fort Smith, Arkansas.

Based upon the records in this matter, including your answer, I make the following findings of fact:

1. On June 28, 1944, a specification of charges against you, setting forth violations of the Federal Explosives Act (55 Stat. 863), as amended, and the regulations pursuant thereto, of which you were accused, was mailed to you giving you notice to mail an answer within 15 days from June 28, 1944, answering the charges against you and requesting an oral hearing if you wished.

2. More than 45 days have elapsed since June 28, 1944. The length of time required for mail to be delivered to the Bureau of Mines, Washington, D. C., from Fort Smith, Arkansas, does not exceed four days. The only communication received from you is your answer dated July 3, 1944. You have not requested an oral hearing.

3. On or about January 7, 1944, and February 9, 1944, you stored explosives otherwise than in properly constructed, safely located, and securely locked magazines and you thereby violated section 17 (a) of the regulations.

4. On or about January 7, 1944, and February 9, 1944, you stored explosives on premises not marked with a sign containing the words "Explosives—Keep Off" and you thereby violated section 12 of the act and sections 17 (b) and 20 (c) of the regulations.

5. On or about January 7, 1944, you permitted Dale Underwood, a person not then individually licensed under the act, to have charge and custody of your explosives and you thereby violated sections 17 (d) and 20 (b) of the regulations.

6. You failed to keep a full, detailed, and tabulated record of your transactions and operations involving explosives and you thereby violated sections 14 (d) and 20 (d) of the regulations.

7. You failed and refused to furnish to one of my authorized representatives information concerning your business in so far as it related to or was connected

with explosives, particularly by failing to reply within 15 days to a letter sent to you on February 15, 1944, by R. D. Leitch, Chief, Explosives Control Division, and you thereby violated section 10 of the act.

8. On or about April 24, 1944, you stored explosives otherwise than in magazines meeting the standards set forth in the regulations and you thereby violated sections 24–28 of the regulations.

Now, therefore, by virtue of the authority vested in me by the Federal Explosives Act and the regulations thereunder, I hereby order:

1. That all licenses issued to you under the Federal Explosives Act be and they are hereby revoked as of midnight, September 2, 1944.

2. That prior to midnight, September 2, 1944, you shall sell or otherwise dispose of, to properly licensed persons, or use, or destroy, all explosives and ingredients of explosives owned or possessed by you or consigned to you or which are in your custody.

3. That after having sold or otherwise disposed of, or used, or destroyed, all the explosives or ingredients of explosives as required by paragraph 2 of this order you shall, prior to midnight, September 2, 1944, deliver or mail to G. M. Kintz, Supervising Engineer, United States Bureau of Mines, 1416 Gulf States Building, Dallas 1, Texas, a sworn statement of your transactions in and uses and destructions of explosives and ingredients of explosives beginning with the date of this order and ending with the final sale or other disposition or use or destruction of the explosives and ingredients of explosives as required above. The statement shall set forth the amount of each kind of explosives and ingredients of explosives which you had on hand at each location at the opening of business on the date of this order, the amount of each kind acquired by you that day and each day thereafter the dates on which acquired, the names and addresses of the persons from whom acquired, the amount of each kind sold or otherwise disposed of by you, the dates on which sold or otherwise disposed of, the names and addresses and the numbers and dates of the Federal explosives licenses of the persons to whom sold or otherwise disposed of, the amount of each kind used by you, the dates on which used and the places where used, and the amount of each kind destroyed by you, the dates on which destroyed, and the places where destroyed.

4. That prior to midnight, September 2, 1944, you shall surrender all licenses issued to you under the Federal Explosives Act and all copies thereof by mailing or delivering them to G. M. Kintz, Supervising Engineer, United States Bureau of Mines, 1416 Gulf States Building, Dallas 1, Texas.

Failure to comply with any of the provisions of this order will constitute a violation of the Federal Explosives Act, punishable by a fine of not more than Five Thousand Dollars ($5,000), or imprisonment for not more than one year, or by both such fine and imprisonment.

This order shall be published in the FEDERAL REGISTER.

Dated at Washington, D. C., this 19th day of August 1944.

[Order 109]

APPLICATION FOR PUBLIC LANDS

EXTENSION OF PROCEDURE

JULY 18, 1944.

The procedure described in General Land Office Order No. 158, approved by the Department on January 7, 1944 (9 F. R. 701), for affording all persons interested an equal opportunity to apply for public lands which become subject to such applications because of the official filing of a plat of survey or resurvey, or of an order revoking a withdrawal or reservation, is hereby extended to lands of the following classes, when restored to the public domain:

1. Lands acquired by the United States as a result of court proceedings, or a demand for reconveyance made by this Department.

2. Lands reconveyed to the United States by a State or private owner in an exchange under the Taylor Grazing Act.

3. Lands patented to a State under the Carey Act and reconveyed to the United States by the State, for any reason.

The procedure herein referred to shall not apply to any case where a restoration from withdrawal is made for the benefit of a particular individual or State, based upon equitable considerations or the public interests, or where the lands offered as base in an exchange under the Taylor Grazing Act are situated in a national park, or Indian or other reservation, which would preclude the filing of applications therefor under the public land laws.

Hereafter, any order making public lands available after public notice, in accordance with Order No. 158, or this order, must be prepared for publication in the FEDERAL REGISTER.

Commissioner.

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 6651]

ALLOCATION OF FREQUENCIES TO NON-GOVERNMENTAL SERVICES

NOTICE OF HEARING

In the matter of allocation of frequencies to the various classes of non-governmental services in the radio spectrum from 10 kilocycles to 30,000,000 kilocycles.

Whereas, the Commission is authorized and required by section 303 (c) of the Communications Act of 1934, as amended, to "assign bands of frequencies to the various classes of stations"; and

Whereas, the Commission is further authorized and required by sections 4 and 303 of the Communications Act of 1934, as amended, to "classify radio stations" and "prescribe the nature of the service to be rendered by each class of licensed stations"; "assign frequencies for each individual station and determine the power which each station shall use and the time during which it may operate"; "determine the location of classes of stations or individual stations"; "regulate the kind of apparatus to be used with respect to its external effects and the purity and sharpness of the emissions from each station"; "make such regulations not inconsistent with law as it may deem necessary to prevent interference between stations"; "study new uses for radio, provide for experimental uses of frequencies, and generally encourage the larger and more effective use of radio in the public interest"; "establish areas or zones to be served by any station"; "make such rules and regulations and prescribe such restrictions and conditions * * * as may be necessary to carry out the provisions of" the Communications Act, "or any international radio or wire communications treaty or convention"; and, "for the purpose of obtaining maximum effectiveness from the use of radio * * * in connection with safety of life and property, * * * investigate and study all phases of the problem and the best methods of obtaining the cooperation and coordination of these systems"; and

Whereas, the Commission, the other interested Government departments, and the radio industry all recognize that a complete review of present allocations of bands of frequencies in the radio spectrum is necessary as a result of the important advances in the radio art which have been made during the war and the greatly increased demands for the use of radio; and

Whereas, it is essential in the interest of orderly planning that frequency allocations be determined before the manpower, materials and manufacturing facilities now devoted to war production become available for the production of civilian equipment; and

Whereas, the Commission, the Interdepartmental Radio Advisory Committee, and the radio industry, represented chiefly by the Radio Technical Planning Board, have for some time been conducting studies looking toward the reallocation of frequencies to the various services operating in the radio spectrum; and

Whereas, the Department of State has recently held conferences with interested agencies and parties and has announced that it desires that recommendations with respect to international agreements for the allocation of radio frequencies be available by December 1, 1944; and

Whereas, it is essential that the frequency requirements of the United States be determined before appropriate recommendations can be made looking toward international agreements; and

Whereas, the Commission is of the opinion that the most effective manner of discharging its responsibility for securing the data necessary to determine the frequency requirements of the United States non-governmental radio services is to hold formal hearings at which all interested persons may present their views;

Now, therefore, it is ordered, This 15th day of August, 1944, that a hearing be held before the Commission en banc commencing at 10:30 a. m. on September 28, 1944, at the offices of the Commission in Washington, D. C., for the purpose of:

(1) Determining the present and future needs of the various classes of non-governmental services for frequencies in the radio spectrum from 10 kilocycles to 30,000,000 kilocycles with the view of ultimately assigning bands of frequencies to such services;

(2) Securing for the public and the Commission a clear understanding of the conflicting problems which confront the industry and the regulatory body in the application of frequencies to the service of the public;

(3) Encouraging experimentation along such lines as may be justified from the evidence presented at the hearing;

[Region VII 2d Rev. Order G-7 Under SR 15, Amdt. 7]

FLUID MILK IN CERTAIN AREAS IN COLORADO

Pursuant to the Emergency Price Control Act of 1942 as amended, the Stabilization Act of 1942 as amended, and § 1499.75 (a) (9) of Supplementary Regulation No. 15 to the General Maximum Price Regulation, and for the reasons set forth in the accompanying opinion, this Amendment No. 7 is issued.

1. Paragraphs (f), (g) and (h) of 2d Revised Order No. G-7 under Supplementary Regulation No. 15 of the General Maximum Price Regulation are hereby re-designated (i), (j) and (k) respectively, and three new paragraphs designated (f), (g) and (h) respectively are inserted to read as follows:

(f) *Limitation on applicability.* The specific maximum prices established for the several areas in the state of Colorado as set forth in paragraph (b) hereof, have been arrived at and determined upon a statistical basis which assumes that the producer of the milk sold will be paid therefor the maximum price authorized by 2d Revised Order No. G-10 under Maximum Price Regulation No. 329. Therefore, the specific maximum prices established for said several areas of the state of Colorado shall be available to those dealers only who are producers of the milk sold; or who have purchased the milk sold from a producer or producers to whom they have paid the full maximum price authorized by said 2d Revised Order No. G-10 under Maximum Price Regulation No. 329; or who have purchased the milk sold from an intermediate seller or distributor who certifies on the invoice or other written memorandum of the transaction that the producers of the milk sold were paid the full maximum price authorized by said 2d Revised Order No. G-10 under Maximum Price Regulation No. 329. If the producer of the milk sold or offered to be sold has not been paid therefor the full maximum price established by said 2d Revised Order No. G-10 under Maximum Price Regulation No. 329, then the seller's maximum prices at wholesale and at retail shall be ¼¢ less per quart and a proportionate reduction where the unit of quantity sold is less than a quart, below the specific maximum prices set forth in this 2d Revised Order No. G-7 for the area in the state of Colorado in which the sale is made, for each 3¢ that the price paid the producer is below such authorized maximum price. If any part or portion of the milk sold at wholesale or at retail by a seller during any calendar month is milk for which the producer has not been paid the full maximum price as authorized by said 2d Revised Order No. G-10 under Maximum Price Regulation No. 329, then all of the milk sold in the state of Colorado by such seller during such calendar month shall be subject to this limitation and his maximum prices therefor shall be determined upon the basis of the lowest price paid by him to any producer for any part or portion of the total quantity of milk sold by him during such calendar month.

(g) *Certification as to price paid producer.* Any person other than the producer thereof, who sells milk to a distributor or dealer for resale either at wholesale or at retail under this 2d Revised Order No. G-7, shall, at the time of the sale, deliver to the purchaser a written invoice or other memorandum of the transaction upon which the seller shall certify that the producer of the milk was or was not, as the case may be, paid the full maximum price authorized by said 2d Revised Order No. G-10 for Colorado producers, under Maximum Price Regulation No. 329, and if such maximum price was not paid the producer, the price actually paid said producer shall be stated.

(h) *Penalty for false certificate.* A false certificate made by any person pursuant to paragraph (g) above, shall constitute a violation of this Regulation and subject the maker thereof to the penalties provided by the Emergency Price Control Act of 1942 as amended for such offense.

2. *Effective date.* This Amendment No. 7 shall become effective on the 14th day of August 1944.

(56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871, and E.O. 9328, 8 F.R. 4681)

FLUID MILK IN WYOMING

Pursuant to the Emergency Price Control Act of 1942 as amended, the Stabilization Act of 1942 as amended, and § 1499.75 (a) (9) of Supplementary Regulation No. 15 to the General Maximum Price Regulation, and for the reasons set forth in the accompanying opinion, this Amendment No. 1 is issued.

1. Paragraphs (k), (l) and (m) of Revised Order No. G-8 under Section 1499.18 (c) of the General Maximum Price Regulation, are hereby redesignated paragraphs (n), (o) and (p) respectively, and three new paragraphs designated (k), (l) and (m) respectively, are inserted to read as follows:

(k) *Limitation on applicability.* The specific maximum prices established for the several districts in the state of Wyoming as set forth in paragraphs (b), (c), (d) and (e), respectively, have been arrived at and determined upon a statistical basis which assumes that the producer of the milk sold will be paid therefor the maximum price authorized by Order No. G-11 or Second Revised Order No. G-10 under Maximum Price Regulation No. 329. Therefore, the specific maximum prices established for said several districts of the state of Wyoming shall be available to those dealers only who are producers of the milk sold; or who have purchased the milk sold from a producer or producers to whom they have paid the full maximum price authorized by said Order No. G-11 under Maximum Price Regulation No. 329 if the purchase is made from a Wyoming producer, or Second Revised Order No. G-10 under Maximum Price Regulation No. 329 if the purchase is made from a Colorado producer; or who have purchased the milk sold from an intermediate seller or distributor who certifies on the invoice or other written memorandum of the transaction, that the producers of the milk sold were paid the full maximum price authorized by said Order No. G-11, or said Second Revised Order No. G-10 under Maximum Price Regulation No. 329. If the producer of the milk sold, or offered to be sold, has not been paid therefor, the full maximum price established for Wyoming producers by said Order No. G-11, or the full maxi-

mum price established for Colorado producers by said Second Revised Order No. G–10, then the seller's maximum prices at wholesale and at retail shall be ¼¢ less per quart, and a proportionate reduction where the unit of quantity sold is less than a quart, below the specific maximum prices set forth in this Revised Order No. G–8 for the district in which the sale is made, for each 3¢ that the price paid the producer is below such authorized maximum price. If any part or portion of the milk sold at wholesale or retail by a seller during any calendar month is milk for which the producer has not been paid the full maximum price as authorized by said Order No. G–11 for Wyoming producers, or said Second Revised Order No. G–10 for Colorado producers, then all of the milk sold by such seller during such calendar month shall be subject to this limitation and his maximum prices therefor shall be determined upon the basis of the lowest prices paid by him to any producer for any part or portion of the total quantity of milk sold by him during such calendar month.

(l) *Certification as to price paid producer.* Any person other than the producer thereof, who sells milk to a distributor or dealer for resale either at wholesale or at retail under this Revised Order No. G–8, shall, at the time of the sale, deliver to the purchaser a written invoice or other memorandum of the transaction upon which the seller shall certify that the producer of the milk was or was not, as the case may be, paid the full maximum price authorized by said Order No. G–11 for Wyoming producers, or said Second Revised Order No. G–10 for Colorado producers; and if such maximum price was not paid the producer, the price actually paid said producer shall be stated.

(m) *Penalty for false certificate.* A false certificate made by any person pursuant to paragraph (l) above, shall constitute a violation of this Regulation and subject the maker thereof to the penalties provided by the Emergency Price Control Act of 1942 as amended for such offense.

2. *Effective date.* This Amendment No. 1 shall become effective on the 14th day of August 1944.

(iii) The new female employee's last regular employment was in agriculture and she is to be hired for non-agricultural work exceeding 6 weeks in duration, *Provided:* That no such individual shall be referred to non-agricultural work except after consultation with a designated representative of the War Food Administration.

(c) *Evidence of compliance with hiring provisions.* Employers shall keep on file statements of availability, referral cards, and certificates of prior employment, and shall make them available for inspection upon request by a representative of the War Manpower Commission.

SEC. 5. *Issuance of statements of availability by employers.* In each case, an individual whose last employment is or was in an essential or locally needed activity shall be issued a statement of availability by his employer when:

(a) He has been discharged, or his employment has been otherwise terminated by his employer, or

(b) He has been laid off for an indefinite period, or for a period of seven or more days, or

(b) The United States Employment Service shall issue a statement of availability to, or upon request, refer any individual in the employ of an employer who the War Manpower Commission finds, after notice, hearing and final decision, has not complied with any War Manpower Commission employment stabilization program, regulation or policy, and for so long as such employer continues his non-compliance after such finding.

(c) If an individual is employed at less than full time or at a job which does not utilize his highest recognized skill for which there is need in the war effort, the United States Employment Service, may upon his request, refer him to other available employment in which it finds that the individual will be more fully utilized in the war effort.

(d) A worker seeking a statement of availability or a referral to employment under any circumstances except where he has been laid off or discharged from his last employment by his employer, shall be urged to remain on his job until the statement is issued, unless remaining on the job would subject him to undue personal hardship.

SEC. 7. *Contents of statements of availability.* A statement of availability issued to an individual pursuant to this program shall contain only the individual's name, address, social security number, if any, the name and address of the issuing employer, or War Manpower Commission office and office, the date of issuance, a statement as to whether or not the individual's last employment was in a critical occupation, and such other information not prejudicial to the employee in seeking new employment as may be authorized or required by the War Manpower Commission.

SEC. 9. *Authority and responsibilities of Management-Labor Committee.* The State and Area Management-Labor War Manpower Committees are hereby authorized to consider questions of policy, standards and safeguards not inconsistent with this program, in connection with the establishment and the administration of area employment stabilization programs, and to make recommendations through their respective Manpower Directors to the Regional Manpower Director.

SEC. 13. *Solicitation of workers.* No employer shall advertise or otherwise solicit for the purpose of hiring any individual if the hiring of such an individual would be subject to restrictions under this employment stabilization program, except in a manner consistent with such restrictions.

SEC. 14. *Hiring.* The decision to hire or refer a worker shall be based on qualifications essential for performance of or suitability for the job, and shall be made without discrimination as to race, color, sex, creed, and, national origin, or except as required by law, citizenship.

taxable year. If for any such taxable year assessment of a deficiency is prevented (except for the provisions of sections 3801 and 3807) by the operation of any law or rule of law (other than section 3761, relating to compromises) any increase in the tax previously determined for such taxable year shall be considered a deficiency for the purposes of this section. For the purposes of this section the term "tax previously determined" shall have the meaning assigned to such term by section 3801 (d).

(c) *Extension of Statute of Limitations.* Notwithstanding any law or rule of law (other than section 3761, relating to compromises), any amount determined as a deficiency under subsection (b), or which would be so determined if assessment were prevented in the manner described in subsection (b), with respect to any taxable year may be assessed as if on the date of the expiration of the time prescribed by law for the assessment of a deficiency for the fifth taxable year of the five consecutive taxable years specified in subsection (a), one year remained before the expiration of the period of limitation upon assessment for any such taxable year.

(b) *Effective date of amendment.* The amendment made by subsection (a) shall be applicable to taxable years beginning after December 31, 1939, but shall not affect any tax liability for any taxable year beginning prior to January 1, 1944.

§ 29.130–1 *Limitation on deductions allowable to individuals in certain cases—*(a) *Recomputation of net income.* Section 130 serves to limit the deductions, other than taxes and interest, attributable to a trade or business carried on by an individual which are otherwise allowable to such individual under the provisions of chapter 1. If in each of five consecutive taxable years the deductions attributable to a trade or business, except the deduction for interest and except the deduction for taxes, exceed the gross income derived from such trade or business by more than $50,000, the net income of such individual must be recomputed for each of such five taxable years. In recomputing the net income for each of the five taxable years, deductions (other than those for interest and taxes) attributable to the trade or business, and otherwise allowable under chapter 1, shall be allowed only to the extent of:

(1) The gross income derived from the trade or business, plus

(2) $50,000.

The deduction for interest and the deduction for taxes shall each be allowed in full. The net operating loss deduction provided in section 23 (s), to the extent attributable to the given trade or business, shall be disallowed in its entirety in making such recomputation. Thus, any carry-over or carry-back of a net operating loss, so attributable, either from a year within the period of five consecutive taxable years or from a year outside of such period, shall be ignored in making the recomputation of net income. However, the net operating loss deduction provided in section 23 (s) shall be included in determining whether the deductions (other than the deduction for interest and the deduction for taxes), otherwise allowable under chapter 1, which are attributable to a trade or business exceed the gross income derived from such trade or business by more than $50,000 in any taxable year. The limitations on deductions provided by section 130 are applicable in determining under section 122 the amount of any net operating loss carry-over or carry-back from any year which falls within the provisions of section 130 to any year which does not fall within such provisions. Also in determining under section 122 the amount of any net operating loss carry-over from a year which falls within the provisions of section 130 to a year which does not fall within such provisions, the amount of the net operating loss is to be reduced by the net income (determined after the application of section 130 and computed as provided in § 29.122–4 (c)) of (1) the two preceding taxable years and of (2) the first succeeding taxable year if such first succeeding taxable year falls within the provisions of section 130, even though the net operating loss deduction is not an allowable deduction for such succeeding or preceding taxable years.

If an individual carries on several trades or businesses, the deductions attributable to such trades or businesses, and the gross income derived from such trades or businesses, shall not be aggregated in determining whether the deductions (other than those for interest and taxes) exceed the gross income derived from such trades or businesses by more than $50,000 in any taxable year. Each trade or business shall be considered separately. The trade or business carried on by the individual must be the same in each of the five consecutive taxable years in which the deductions (other than those for interest and taxes) exceed the gross income derived from such trade or business by more than $50,000.

For purposes of section 130, a given taxable year may be part of two or more different periods of five consecutive taxable years. Thus, if the deductions, other than taxes and interest, attributable to a trade or business carried on by an individual exceed the gross income from such business by more than $50,000 for each of six consecutive taxable years, the fifth year of such six consecutive taxable years shall be considered to be a part both of a five-year period beginning with the first and ending with the fifth taxable year and of a five-year period beginning with the second and ending with the sixth taxable year.

(b) *Redetermination of tax.* The tax imposed by chapter 1 for each of the five consecutive taxable years specified in paragraph (a) of this section shall be redetermined upon the basis of the net income of the individual recomputed in the manner described in paragraph (a). If the assessment of a deficiency is prevented (except for the provisions of section 3801, relating to mitigation of effect of limitation and other provisions in income tax cases, or 3807, relating to period of limitation in case of related taxes under chapter 1 and chapter 2) by the operation of any provision of law (e. g., sections 275 and 276, relating to the period of limitation upon assessment and collection) except section 3761, relating to compromises, or by any rule of law (e. g., res judicata), then the excess of the tax for such year as recomputed over the tax previously determined for such year shall be considered a deficiency for purposes of section 130. The term "tax previously determined" shall have the same meaning as that assigned to such term by section 3801 (d). See § 29.3801 (d)–1.

(c) *Assessment of tax.* Any amount determined as a deficiency in the manner described in paragraph (b) of this section in respect of any taxable year of the five consecutive taxable years specified in (a) may be assessed and collected as if on the date of the expiration of the period of limitation for the assessment of a deficiency for the fifth taxable year of such five consecutive taxable years, one year remained before the expiration of the period of limitation upon assessment for the taxable year in respect of which the deficiency is determined. If the taxable year is one in respect of which an assessment could be made without regard to section 130, the amount of the actual deficiency as defined in section 271 (whether it is greater than, equal to, or less than the deficiency determined under section 130 (b)) shall be assessed and collected. However, if the assessment of a deficiency for such taxable year would be prevented by any provision of law (e. g., the period of limitation upon the assessment of tax) except section 3761, relating to compromises, or by the operation of any rule of law (e. g., res judicata), then the excess of the tax recomputed as described in paragraph (b) over the tax previously determined may be assessed and collected even though in fact there is no actual deficiency, as defined in section 271, in respect of the given taxable year.

(d) *Years to which applicable.* The provisions of section 130 are applicable to taxable years beginning after December 31, 1939, but no deficiency shall be assessed pursuant to such section for any taxable year beginning prior to January 1, 1944. Thus, if an individual makes his tax returns on the basis of a calendar year and if the deductions (other than those for interest and taxes) attributable to a trade or business carried on by such individual which are otherwise allowable under chapter 1 exceed the gross income derived from such trade or business by more than $50,000 in each of the taxable years 1940, 1941, 1942, 1943, and 1944, the net income of such individual for the year 1944 is to be recomputed and a deficiency, as defined in paragraph (b) of this section, may be assessed in respect of the taxable year 1944. No such deficiency, however, may be assessed in respect of the years 1940, 1941, 1942, or 1943.

(Sec. 62 of the Internal Revenue Code (53 Stat. 32; 26 U.S.C. 62) and sec. 129 of the Revenue Act of 1943 (Pub. Law 235, 78th Cong.))

PART 3291—CONSUMERS DURABLE GOODS

[Limitation Order L–30–b, as Amended Aug. 23, 1944]

ENAMELED WARE

§ 3291.155 *Limitation Order L–30–b*—(a) *What this order does.* This order states the rules governing the manufacture of household, cooking and hospital articles made of vitreous-enameled iron and steel. The kinds and sizes of enameled ware which may be made are described, including hospital ware which was formerly covered by Schedule I to Order L–214. Quotas are placed on the use of iron and steel. Special provisions are made for military and export orders.

(b) *Definitions.* When used in this order:

(1) "Enameled ware" means any of the articles listed on Table A when made of vitreous-enameled iron or steel. It does not include any furniture, electrical or gas appliance or power-driven equipment.

(2) "Preferred orders" means any purchase order or contract for enameled ware which will be ultimately delivered to the Army or Navy of the United States, the U. S. Maritime Commission or War Shipping Administration, or to other persons pursuant to authorization by the United States Maritime Commission on Form WPB 646 (formerly PD–300).

(3) "Export orders" means any purchase order or contract for enameled ware for delivery outside the United States, its territories and possessions.

(4) "Civilian order" means any purchase order or contract other than a preferred order or export order.

(c) *What enameled ware may be made.* (1) No manufacturer shall produce or assemble any enameled ware that does not conform to Table A. Exceptions to this rule are stated below.

(2) A manufacturer may complete the following operations on enameled ware which was otherwise completed by December 31, 1942; making and attaching handles, bails, spouts and ears; welding together fabricated parts; applying a vitreous-enameled or other coating.

(3) The War Production Board may authorize on Form WPB–1319 (formerly PD–556) enameled ware not conforming to Table A to fill export orders.

(4) The provisions of Table A do not apply to enameled ware which is produced to fill preferred orders or for experimental use in a scientific laboratory in connection with the development of enameled ware standards.

Quota Restrictions

(d) *General.* No manufacturer shall use more iron and steel in making enameled ware than the amounts stated below. Each manufacturer has a quota for civilian orders and a separate quota for preferred orders and export orders. In each calendar quarter a manufacturer is limited to a percentage of the iron and steel he used in his total production of enameled ware in the twelve months ending June 30, 1941, the "base period." The gross weight of iron and steel when first put into production, whether in the form of raw materials or as purchased parts, is considered the amount of iron and steel used and to be used in figuring out the quotas. A manufacturer who purchases black shapes and covers them with an enamel coating should include the weight of these black shapes in his "use" of iron and steel, while a manufacturer who fabricates the black shapes should consider the gross weight of the sheets he cuts up as part of his "use" of iron and steel.

(e) *Civilian quotas*—(1) *General rule.* In his production for civilian orders of all enameled ware (except roasters), a manufacturer is limited in each calendar quarter to one-fourth of 70% of the iron and steel which he used for all enameled ware (except roasters) in the base period. No manufacturer may produce during any calendar year more enameled roasters than 15% of the number he produced in the base period.

(2) *Optional quotas for manufacturers of hospital ware.* Instead of following the general rule any manufacturer may use in any calendar quarter in producing hospital enameled ware (See Table A) not more than one-fourth of 100% of the iron and steel which he used for that ware in the base period. If he does this, however, his civilian quota for non-hospital ware (except roasters) is reduced to one-fourth of 60% of the iron and steel he used for that ware in the base period. Any manufacturer who chooses this alternative or who later decides to follow the general rule stated in the preceding paragraph shall notify the War Production Board by January 15, 1944 or before the first day of the quarter in which he intends to do this.

(3) *Division of quota among different articles.* In allocating his iron and steel among the items listed in column (2) of Table A, a manufacturer should use his best efforts to divide his quota of iron and steel among all the articles which he customarily makes in such a way as to meet the essential needs for those articles. If it is found that an undue shortage exists in certain articles or that production is being concentrated too much on other articles, the War Production Board may issue written instructions to any manufacturer directing him to allocate a specified share of his production to articles which are considered most essential. Failure to comply with a specific direction shall be deemed a violation of this order.

(f) *Quotas for preferred orders and for export.* In addition to his civilian quota, a manufacturer may use during any quarter in producing enameled ware to fill preferred orders and export orders not more than one-fourth of 55% of the iron and steel which he used in the base period for all enameled ware.

(g) *Unused quotas.* A manufacturer may use for civilian orders during any calendar quarter, in addition to his quota for that quarter, any unused balance of his previous quarter's civilian quota. A manufacturer may also use to fill preferred orders and export orders during any calendar quarter, in addition to his quota for that quarter, any unused balance of his previous quarter's quota for such orders.

(h) *Special permission to exceed quotas.* The War Production Board from time to time may permit manufacturers to exceed their quotas. This will only be done in special cases and for limited periods of time. For example, if one or more manufacturers are unable to use their full quota in any quarter, other manufacturers may be permitted to use the unused amount in addition to their own quotas. Similarly, if additional iron or steel becomes available at any time, the War Production Board may authorize its use in addition to the quotas. As far as practicable increases will be permitted for all manufacturers of the articles to be made in proportion to their quotas. Permission will be granted either in the form of individual letters or of published directions supplementary to this order.

Miscellaneous Provisions

(i) *Overruns, rejects and cancellations.* Enameled ware made to fill a preferred order, which, because of overruns, rejects, cancellations of orders or any other reasons cannot be used to fill that order, may be used or disposed of only as allowed in § 944.11, paragraph (b) of Priorities Regulation No. 1.

(j) *Reports.* (1) [Deleted Apr. 3, 1944]

(2) Each manufacturer shall file with the War Production Board on or before January 20, April 20, July 20, and October 20 of each year, a report on Form WPB–1600 (formerly PD–655), showing his production, shipments, and inventory of enameled ware for the preceding quarter.

(3) These reporting provisions have been approved by the Bureau of the Budget in accordance with the Federal Reports Acts of 1942.

(k) *Applicability of other orders and regulations.* This order and all transactions affected by it are subject to all applicable regulations of the War Production Board. If any other order of the War Production Board limits the use of any material in the production of enameled ware to a greater extent than does this order, the other order shall govern unless it states otherwise.

(l) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(m) *Exceptions and appeals*—(1) *Production under Priorities Regulation 25.* Any person who wants to use more iron and steel in making enameled ware than the amounts fixed in paragraphs (d), (e) or (f) (including a person who has no quota under this order) may apply for permission to do so as explained in Priorities Regulation 25. He may still, of course, apply for special permission to exceed quotas under paragraph (h).

(2) *Appeals.* Any appeal from the provisions of this order, other than the restrictions of paragraphs (d), (e) or (f) should be filed on Form WPB–1477 (in triplicate) with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates. No appeal should be filed from the restrictions of paragraphs (d), (e) or (f).

(n) *Communications.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers Durable Goods Division, Washington 25, D. C., Ref.: L–30–b.

Issued this 23d day of August 1944.

PART 3191—CIVILIAN AIRCRAFT

[Limitation Order L-48, as Amended Aug. 23, 1944]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials entering into the production of aircraft for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3191.6 *General Limitation Order L-48—(a) Purposes and definitions.* This order forbids the manufacture of any aircraft and aircraft products, unless authorized in the manner provided in this order. It also forbids the transfer of the following products which have been made under authorization of the War Production Board: (1) New training devices or those which have been in operational use for less than six months and (2) new aircraft or other aircraft products or those which have had less than 100 hours flying time. For the purpose of this order, aircraft and aircraft products are airplanes, airframes, airplane propulsion engines, airplane propellers, gliders, and aircraft training devices designed to simulate actual flying conditions.

(b) *Manufacture of military aircraft, and aircraft products.* Manufacture of aircraft and aircraft products to fill a schedule approved by the Joint Aircraft Committee and Aircraft Production Board is not restricted by this order.

(c) *Manufacture of prototype aircraft and aircraft products.* Prototype aircraft and aircraft products may be manufactured. Preference ratings and an allotment symbol are assigned by Preference Rating Order P-43. Whether or not the allotment symbol or rating is used to get materials, prototypes for civilian use must be manufactured without diverting any manpower, technical skill or facilities from activities connected with the war effort.

(d) *Manufacture of other aircraft and aircraft products.* (1) The War Production Board will authorize the manufacture of other aircraft and aircraft products only if the demand for them is directly related to military needs or to the operation of a service to fill an essential need. No person may manufacture these aircraft or aircraft products except as authorized or permitted in this order.

(2) Applications to the War Production Board for approval of manufacture must be made by letter in triplicate, must be accompanied by an application on Porm CMP-4B to cover the required materials, and must show the following:

(i) The proposed production by month;

(ii) A statement explaining in detail the use to be made of the aircraft or aircraft product and its relation to the military or other essential need;

(iii) If the application is for complete airplanes, it must also show the delivery schedule of the required engines and propellers describing the product and showing the manufacturer. If a schedule for complete airplanes is approved, the War Production Board will authorize the manufacture and transfer of the engines and propellers, and the manufacturers of the engines and propellers need only file with the War Production Board their applications for materials on Form CMP-4B.

(e) *Restrictions on the transfer of aircraft or aircraft products.* (1) No person may transfer any of the following aircraft or aircraft products manufactured under paragraph (d) above without specific authorization of the War Production Board: (i) New training devices or those which have been in operational use for less than six months, and (ii) New aircraft, airplanes, airframes, airplane propulsion engines, metal airplane propellers and gliders or those which have had less than 100 hours flying time and are still airworthy.

(2) Applications for authorization to transfer aircraft and aircraft products must be made by the purchaser to the War Production Board on Form WPB-1319 unless authorization is granted under subdivision (d) (2) (iii) above. Only those applications showing important military or other essential needs will be considered.

(f) *Communications.* All applications for permission and other communications concerning this order should be addressed to: War Production Board, Washington 25, D. C. Ref: L-48.

(g) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control, and may be deprived of priority assistance.

Sec. 6, Lot 7.

Respectfully,
[SEAL] H. W. BASHORE,
Commissioner.

I concur: August 10, 1944.

FRED W. JOHNSON,
Commissioner of the General Land Office.

The foregoing recommendation regarding the Owyhee project is hereby approved, and it is so ordered. The jurisdiction over and use of such lands by the Bureau of Reclamation shall cease upon the date of the signing of this order.

On April 4, 1944, the Board of Directors of the Owyhee Irrigation District passed a resolution to the effect that the release from reclamation withdrawal of the above tract shall not constitute a basis for a reduction in the sum that District has obligated itself to pay the United States and that such action shall not release the tract from the obligations of the Owyhee Irrigation District.

Mr. Willie B. McGinnis, of Adrian, Oregon, has filed a petition (1990784) in the General Land Office requesting that the land be released from reclamation withdrawal in order that he may file a desert land application.

This order, however, shall not otherwise become effective to change the status of the lands until 10:00 o'clock a. m. of the sixty-third day from the date on which it is signed, whereupon the lands shall, subject to valid existing rights, become subject to such application, position, location, or selection as may be authorized by the public-land laws in accordance with the provisions of 43 CRF 295.8 (Circ. 324, May 22, 1914, 43 L. D. 254) and 43 CRF part 296, to the extent that these regulations are applicable.

The Commissioner of the General Land Office is hereby authorized and directed to cause the records of his office and of the district land office to be noted accordingly.

STRUCTURAL CLAY PRODUCTS

MODIFICATION OF MAXIMUM PRICES

Amendment No. 48 to Order No. A–1 under § 1499.159b of Maximum Price Regulation 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel.

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Paragraph (a) (36) is added to Order A–1 to read as follows:

(36) *Modification of maximum prices for structural clay products*—(i) *Scope of this subparagraph.* This subparagraph (36) establishes adjusted maximum prices for sales and deliveries of building brick (common and unglazed face), drain tile and hollow building tile, (glazed and unglazed), in the States of Iowa, Minnesota, Nebraska, North Dakota, South Dakota, the upper Peninsula of Michigan and Counties of Wisconsin lying north and west of and including Oconto, Shawano, Waupaca, Waushara, Green Lake, Columbia, Dane and Green.

(ii) *Maximum prices.* On and after the 26th day of August, 1944, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver, and no person in the course of trade or business, shall buy or receive any building brick (common and unglazed face), drain tile, or hollow building tile, (glazed or unglazed), produced in or delivered in the area specified in subparagraph (i) above, at prices higher than those set forth below. Prices lower than maximum prices may be charged and paid. The maximum prices computed under this subparagraph shall be subject to all cash discounts, allowances and price differentials established by the seller for such products and in effect to the sellers' various classes of customers during the month of March 1942.

(a) The manufacturer's maximum prices for building brick, (common and unglazed face), may be increased by adding an amount not in excess of $2.00 per thousand to f. o. b. plant prices or delivered prices for standard size brick. If the manufacturer had an established differential in price during the month of March 1942 for non-standard sizes of building brick (common and unglazed face) he may convert the adjustment granted herein for standard size brick on the basis of the conversion factors or formula in use by him during March 1942 in establishing a price differential between the standard size brick and the non-standard size brick under this adjustment.

(b) The maximum prices for drain tile may be increased as follows:

Size (inches)	Weight per foot	Increase per M lineal feet
	Pounds	
3	5	$1.90
4	6	2.30
5	8	3.00
6	10	3.80
8	16	6.00
10	25	9.40
12	32	12.00

Manufacturers who produce drain tile of 14" through 24" diameters, inclusive, may compute the maximum price increase per M lineal feet at $0.75 per ton on the basis of published weights per foot, rounded off at the nearest $.10 figure in accordance with established industry practice.

(c) The maximum prices for hollow building tile, (glazed or unglazed), may be increased by adding an amount not in excess of $.75 per ton to f. o. b. plant or delivered prices.

(iii) Any jobber or dealer purchasing structural clay products for resale from any manufacturer who has modified his maximum prices in accordance with subdivision (ii) above may increase his maximum prices f. o. b. yard or delivered, established by the General Maximum Price Regulation, by the dollars-and-cents amount equal to his actual dollars-and-cents increase in cost resulting from the increase permitted under subdivision (ii) above.

(iv) Any price adjustment granted prior to August 26, 1944, for any seller of brick covered by this Paragraph (a) (36) is hereby revoked.

This Paragraph (a) (36) may be revoked or amended at any time.

This Amendment No. 48 shall become effective August 26, 1944.

Issued this 23d day of August 1944.

ADJUSTMENT OF MAXIMUM PRICES

Amendment No. 51 to Order A–1 under § 1499.159b of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel.

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Order A–1 is amended in the following respect:

1. Paragraph (a) (39) is added to read as follows:

(39) *Modification of maximum prices of automatic controls for use in domestic hot water heaters.*—(i) *Scope of this subparagraph.* This subparagraph (39) establishes adjusted maximum prices for sales and deliveries of automatic controls for direct-fired domestic automatic hot water heaters by the manufacturers of such automatic controls to manufacturers of such heaters for use in the manufacture thereof.

This subparagraph does not establish adjusted maximum prices for sales of automatic controls for direct-fired domestic automatic hot water heaters by the manufacturers of such controls to persons other than manufacturers of such heaters or sales of such controls to manufacturers of such heaters where such controls are not used in the manufacture thereof.

For the purpose of this subparagraph the term "automatic controls for direct-fired domestic automatic hot water heaters" means any automatic device especially designed for (1) controlling and maintaining the temperature and (2) the safe operation of a direct-fired domestic automatic hot water heater which uses natural or manufactured gas, kerosene, or oil, or any derivative thereof as fuel. The term includes but is not limited to safety pilots or shut-offs, thermostats and combination units embodying at least two of the following features: thermostat, safety pilot or shut-off, main gas cock, flow control valve, and pilot valve.

(ii) *Maximum prices.* On and after August 24, 1944, regardless of any contract, agreement, lease, or other obligation, any manufacturer of automatic controls for direct-fired domestic automatic hot water heaters may, on sales to manufacturers of direct-fired domestic automatic hot water heaters for use in the manufacture of such heaters only, increase his presently established maximum net price for such automatic controls by 9 percent.

(iii) *Cash discounts, allowances and services.* The maximum prices established by this subparagraph shall be subject to the extension of cash discounts and other allowances, the rendition of services and the absorption of transportation charges most favorable to manufacturers of direct-fired domestic automatic hot water heaters which the manufacturer extended, rendered or absorbed or would have extended, rendered or absorbed during the month of March 1942.

(iv) Every person selling automatic controls under the authority of this subparagraph shall have available for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, a record of each sale made under the authority of this subparagraph, showing the date of the sale, the name and address of the purchaser, the plate number, the transaction price, the discount allowed, transportation charges allowed, and the point of delivery, except that such records need not be kept for any month in which the total sales of automatic controls do not exceed $1,000.00.

(v) Every person making sales under the authority of this subparagraph shall submit such reports as the Office of Price Administration shall from time to time require, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(vi) *Notification to purchasers.* Every person making sales under the authority of this subparagraph shall send a notice to every purchaser at the time of the first invoicing stating substantially as follows:

Amendment No. 51 to Order A–1 under § 1499.159b of Maximum Price Regulation No. 188 permits us to increase by 9 percent our present maximum net price of automatic controls for use in direct-fired domestic automatic hot water heaters when sold to a manufacturer of direct-fired domestic automatic hot water heaters for such use by the manufacturer. The prices charged you for automatic controls are not higher than the adjusted maximum net prices permitted under this amendment.

This notice is given to you at the express direction of the Office of Price Administration.

This Amendment No. 51 shall become effective August 24, 1944.

Issued this 23d day of August 1944.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 21st day of August A. D. 1944.

Notice is hereby given that a joint declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Electric Power & Light Corporation ("Electric"), a subsidiary of Electric Bond and Share Company, both registered holding companies and Electric's subsidiary, Arkansas Power & Light Company ("Arkansas").

All interested persons are referred to said joint declaration or application which is on file in the office of the said Commission, for a statement of the transactions therein proposed, which are summarized below:

In return for the surrender by Electric to Arkansas of all of the securities of the latter held by it consisting of 7,697 shares of $7 preferred stock and 1,233,638 shares of no par value common stock and the payment by Electric to Arkansas of $4,000,000 in cash, Arkansas will issue to Electric 1,070,000 shares of new $12.50 per value common stock.

Arkansas will also take the following corporate action:

(1) Cancel the securities to be received by it from Electric together with 891 shares of reacquired $7 preferred stock and 453 shares of reacquired $6 preferred stock held by it in its treasury.

(2) Restate the then remaining outstanding shares of $6 and $7 preferred stock at $100 per share, the amount of the claim of such shares on liquidation.

(3) Call for redemption, by lot, 39,934 shares of its $7 preferred stock at the redemption price of $110 plus accrued dividends.

As a result of the foregoing transactions the capital surplus of Arkansas will be increased from $5,862 to $5,736,826 of which $3,296,782 together with $165,136 of earned surplus of the company will be used to eliminate certain inflationary items contained in the plant account of Arkansas and to make other accounting adjustments ordered to be made by the Department of Public Utilities of Arkansas. The remaining balance of capital surplus will be used to dispose of certain capital stock discount and expense and call premiums.

Arkansas further proposes to amend its Articles of Incorporation to confer contingent voting rights on its preferred stocks and to provide that in the event of a partial redemption of either of the classes of preferred stock, the shares to be redeemed shall be selected by lot. The proposed transactions will, according to the filing, be expressly authorized by the Department of Public Utilities of Arkansas.

The applicants-declarants have designated sections 6 (a), 6 (b), 9 (a) (1), 12 and Rules U-42, U-43 and U-45 as being applicable to the proposed transactions.

It appearing to the Commission that it is proper and in the public interest and in the interest of investors and consumers that a hearing be held with respect to said application-declaration, and that said application should not be granted, or said declaration should not become effective, except pursuant to further order of the Commission:

It is hereby ordered, That a hearing be held upon said matters on September 5, 1944 at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. At such hearing cause shall be shown why the application-declaration should be granted and should be permitted to become effective.

It is further ordered, That Henry C. Lank or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matters. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve by registered mail a copy of this order on the applicants and declarants herein and the Department of Public Utilities of Arkansas; and that notice of said hearing be given to all other persons by publication of this order in the FEDERAL REGISTER. Any person desiring to be heard in connection with these proceedings, or proposing to intervene herein, shall file with the Secretary of the Commission on or before September 2, 1944 his request or application therefor, as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That without limiting the scope of the issues presented by said application-declaration, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the proposed issue and sale of common stock by Arkansas is solely for the purpose of financing the business of said company and has been expressly authorized by a state commission of the state in which Arkansas is organized and doing business.

(2) Whether the proposed transfer of securities from Electric to Arkansas and the purchase of common stock by Electric and the proposed reduction of capital stock liability by Arkansas will result in an unfair and inequitable distribution of voting power or is otherwise detrimental to the public interest or the interests of investors or consumers.

(3) Generally, whether the proposed transactions comply with the applicable provisions of the Public Utility Holding Company Act of 1935 and all rules and regulations promulgated thereunder.

(4) What terms and conditions, if any, are necessary or appropriate in the public interest or the interests of investors or consumers to ensure compliance with the requirements of the Public Utility Holding Company Act of 1935, or any rules, regulations or orders promulgated thereunder.

(2) The hiring of a new employee for work of less than seven days' duration; or for work which is suplementary to the employee's principal work; but such work shall not constitute the individual's "last employment" for the purpose of the program, unless the employee is customarily engaged in work of less than seven days' duration;

(3) The hiring of an employee in any Territory or possession of the United States, except Alaska and Hawaii;

(4) The hiring by a foreign, State, county, or municipal government, or their political sub-divisions or their agencies and instrumentalities, or to the hiring of any of their employees, unless such foreign, State, county, or municipal government or political subdivision or agency or instrumentality has indicated its willingness to conform, to the maximum extent practicable under the Constitution and laws applicable to it, with the program;

(5) The hiring of a new employee for domestic service, or to the hiring of a new employee whose last regular employment was in domestic service;

(6) The hiring of a school teacher for vacation employment or the rehiring of a school teacher for teaching at the termination of the vacation period.

SEC. 15. *Content of statements of availability.* A statement of availability issued to an individual pursuant to the program shall contain only the individual's name, address, social security account number, if any, the name and address of the issuing employer, or War Manpower Commission officer and office, the date of issuance, a statement as to whether or not the individual's last employment was in a critical occupation and such other information not prejudicial to the employee in seeking new employment as may be authorized or required by the War Manpower Commission.

SEC. 16. *Retention of statement of availability or referral card by employer.* Each employer upon hiring a worker upon presentation of a United States Employment Service referral card or a statement of availability, where referral cards are not necessary, shall retain and file such statement or referral card and shall make these cards and statements available for inspection upon request of the United States Employment Service.

When a worker is employed who does not need a referral card or a statement of availability, the employer shall retain a signed statement in his file showing the worker's name, address, last employer, and final employment date of the worker's last employment. This statement shall be retained in the file in lieu of the statement of availability or referral card.

SEC. 17. *Solicitation of workers.* No employer shall advertise or otherwise solicit for the purpose of hiring any individual if the hiring of such an individual would be subject to restrictions under the Employment Stabilization Program, except in a manner consistent with such restrictions.

SEC. 18. *Hiring and discharge.* (1) The decision to hire or refer a worker shall be based on qualifications essential for performance of or suitability for the job, and shall be made without discrimination as to race, color, creed, sex, national origin, or except as required by law, citizenship.

(2) In order to obtain the maximum utilization of available manpower, employers engaged in essential or locally needed activities shall refrain from discharging workers except for gross misconduct: *Provided*, That insofar as it will not interfere with the effective prosecution of the war, no employer shall be expected to retain in his employment, a worker who is incompetent or who fails to conform to reasonable shop rules or standards of conduct.

SEC. 19. *Continuance on job.* Pending the issuance of a statement of availability or referral card to a worker, he should remain on his job.

SEC. 20. *Representation.* Nothing contained in the program shall be construed to restrict any individual from seeking the advice and aid of, or from being rep-

resented by, the labor organization of which he is a member or any other representative freely chosen by him, at any step in the operation of the program.

SEC. 21. *General referral policies.* No provision in the program shall limit the authority of the United States Employment Service to make referrals in accordance with approved policies and instructions of the War Manpower Commission.

SEC. 22. *Enforcement of program.* (1) Violations of this program which constitute violations of War Manpower Commission Regulations No. 4 as amended August 16, 1943, issued pursuant to Executive Order 9328, are subject to the penal provisions of the act of October 2, 1942 (Pub. No. 729, 77th Cong.); the provisions of § 4001.10 of the regulations of the Economic Stabilization Director issued October 27, 1942, apply to all wages or salaries paid in violation of Regulation No. 4.

(2) A statement of availability shall be issued by the United States Employment Service to any individual in the employ of an employer or any other appropriate sanction may be invoked by the War Manpower Commission against an employer or worker who the War Manpower Commission finds, after notice, hearing and final decision, has not complied with any War Manpower Program, regulation, or policy, and for so long as such employer or worker continues his non-compliance after such finding.

SEC. 23. *Collective bargaining agreements.* No part of this stabilization program shall be construed to be in conflict with the requirements of any Federal or State law or any collective bargaining agreements, so long as such agreement is consistent with applicable War Manpower Commission policies, procedures, and standards.

SEC. 24. *Employment ceilings.* The State Manpower Director may fix for all or any establishments in the State of Colorado fair and reasonable employment ceilings and manpower allowances, limiting the number of employees or specified types of employees which such establishments may employ during specified periods. Such ceilings and allowances will be determined on the basis of the establishment's actual labor needs, the available labor supply, and/or the relative urgency of the establishment's products or services to the war effort. Except as authorized by the State Manpower Director or his representative, no employer shall hire any new employee for work in such establishment if the hiring of such employee would result in such establishment's exceeding the employment ceiling or manpower allowance currently applicable to it.

SEC. 25. *Control of migration*—(1) *Out-migration.* Any resident of the State of Colorado wishing to seek employment in any area within the States of Utah, Idaho, Montana, Colorado and Wyoming in which he has not worked or lived during the preceding 30-day period shall apply to the United States Employment Service office nearest his present home or place of employment for a statement of inter-area clearance. Such inter-area clearance statement shall be granted if;

(a) He is entitled to, or is not required to obtain, a statement of availability, and

(b) His reasons for wishing to seek employment elsewhere are such as to take precedence over the local need for his services.

(2) *In-migration.* An in-migrant worker may be employed only if:

(a) He has been granted a statement of inter-area clearance or its equivalent by the United States Employment Service in the area of his last residence or employment: *Provided,* That if the immigrant worker's last place of residence was outside the States of Montana, Utah, Idaho, Colorado and Wyoming, he may be employed if he presents a statement of availability or evidence that he is not required to obtain one; or

(b) He has been recruited through the clearance system of the United States Employment Service.

SEC. 26. *Effective date.* This program revises and supersedes the Colorado Employment Stabilization Program of October 15, 1943 and shall become effective 12:01 a. m. July 1, 1944.

EXECUTIVE ORDER 9469

AUTHORIZING THE SECRETARY OF THE INTERIOR TO TAKE POSSESSION OF AND OPERATE THE MINES, COLLIERIES, AND FACILITIES OF THE PHILADELPHIA AND READING COAL AND IRON COMPANY IN THE STATE OF PENNSYLVANIA

WHEREAS after investigation I find and proclaim that there is an interruption of the operation of the mines, collieries, and preparation facilities of the Philadelphia and Reading Coal and Iron Company in the State of Pennsylvania as a result of strikes, threatened strikes, and other labor disturbances; that the effective prosecution of the war will be unduly impeded or delayed by such interruption; and that the exercise as hereinafter specified, of the powers vested in me is necessary to insure, in the interests of the war effort, the operation of these mines, collieries, and facilities:

NOW, THEREFORE, by virtue of the power and authority vested in me by the Constitution and laws of the United States, including section 9 of the Selective Training and Service Act of 1940 (54 Stat. 892) as amended by the War Labor Disputes Act (57 Stat. 163), as President of the United States and Commander in Chief of the Army and Navy of the United States, it is hereby ordered as follows:

1. The Secretary of the Interior is authorized and directed to take possession of the mines, collieries, and preparation facilities of the Philadelphia and Reading Coal and Iron Company in the State of Pennsylvania, and of any real or personal property, and other assets, used in connection with the operation thereof; to operate or arrange for the operation of such mines, collieries, and facilities in such manner as he deems necessary for the successful prosecution of the war; and to do all things necessary for, or incidental to, the production, sale and distribution of the coal produced, prepared, or handled by the said mines, collieries, and facilities.

2. The Secretary of the Interior shall operate the said mines, collieries, and facilities in accordance with the terms and conditions of employment which are in effect at the time possession thereof is taken, subject to the provisions of section 5 of the War Labor Disputes Act. He shall provide such protection of the employees as may be necessary to maintain production, and shall take such appropriate disciplinary action, not inconsistent with law, as may be necessary to effectuate the purposes of this order.

3. In carrying out this order, the Secretary of the Interior shall act through or with the aid of such public or private instrumentalities or persons as he may designate. All Federal agencies, including but not limited to the War Manpower Commission, the National Selective Service System, the War Department, and the Department of Justice, are directed to cooperate with the Secretary of the Interior to the fullest extent possible in carrying out the purposes of this order.

4. Possession of the mines, collieries, and facilities taken under this order shall be terminated by the Secretary of the Interior within sixty days after he determines that the productive efficiency of the mines, collieries, and facilities has been restored to that prevailing prior to the interruption of production referred to in the recitals of this order.

GENERAL INSTRUCTIONS

§ 257.1 *County agricultural conservation committees.* County committees shall supervise the loan and purchase program. The purchase and loan documents must be signed by a member of the county committee of the county in which the soybeans were produced, for purchased soybeans, and the county in which the agricultural conservation program records are kept, for soybeans placed under loan. State and county committees shall determine or cause to be determined the quantity and grade of the soybeans to be placed under loan or purchased by the committee, and the amount of the loan or purchase. All loan and purchase documents shall be completed and approved by the county committee, which shall retain copies of all documents: *Provided, however,* That the county committee may formally designate certain employees of the county association to execute such forms on behalf of the committee. County agricultural conservation associations shall collect a service fee of 1 cent per bushel for each loan to meet the expenses incurred in the operation of the program. No service fee shall be collected from the producer in the case of purchases.

§ 257.2. *Liens.* The soybeans placed under loan or purchased must be free and clear of all liens, or, if liens exist on the soybeans, proper waivers must be obtained for each lien-holder. The names of the holders of all existing liens on the soybeans, such as landlord, laborers, threshers, or mortgagees, must be listed in the space provided therefor in the chattel mortgage (C.C.C. Grain Form AA, Revised) for loans, and in the Offer of Sale (C.C.C. Soybean Purchase Form B) for purchases. The waiver on the Offer of Sale, or the waiver and consent to mortgage the soybeans and the payment of the proceeds of the loan and the proceeds of the sale of the soybeans solely to the producer, as contained in the mortgage, must be signed personally by all lienholders listed or by their duly authorized agents; or, if a corporation, by an officer authorized to execute such instruments. Waivers of lienholders may be executed on separate instruments if complete identification of the commodity and producer is shown. The proceeds of the loan or purchase may be made payable to the producer and/or such other person or concern as the producer may direct in the space provided on the producer's note (C.C.C. Grain Form A, Revised) for loans and on the Offer of Sale for purchases. Producers should be sure to determine whether soybeans offered for sale or as collateral for loans are covered by previous real estate or other mortgages.

§ 257.3 *Regional office of Commodity Credit Corporation.* The soybean loan and purchase program shall be administered by the Regional Director, Commodity Credit Corporation, 208 South La Salle Street, Chicago 4, Illinois.

LOANS

§ 257.8 *Eligible producer.* Any person, partnership, association, or corporation, producing soybeans in 1944 as landowner, landlord, or tenant.

§ 257.9 *Eligible soybeans for loans.* Soybeans eligible for loans must be stored on farms and shall be of any class grading No. 4 or better with respect to factors other than moisture and having a moisture content not in excess of 14 percent, which were produced in 1944, the beneficial interest to which is and always has been in the eligible producer. Soybeans grading weevily, or which are musty, sour, heating, or have any objectionable foreign odor, shall not be eligible for loan. Loans will be made to eligible producers on soybeans stored on the farm in approved storage facilities in the States of Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin, and such other States, except those listed immediately below, as may be approved by Commodity.

Commodity will not make loans on soybeans in the following States: Alabama, Arkansas, Connecticut, Florida, Georgia, Louisiana, Maine, Massachusetts, Mississippi, New Hampshire, Oklahoma, Rhode Island, South Carolina, Texas, and Vermont.

§ 257.10 *Basic (and premium) loan rates.* The loan rates per bushel for soybeans according to classes (Class I—Yellow; Class II—Green; Class III—Brown; Class IV—Black; Class V—Mixed) shall be in accordance with the schedule below. For purposes of this program, weights per bushel, moisture, and damage percentages shall be rounded (a) down to the nearest whole pound for weight-per-bushel tests (drop 0.5 pound), (b) to the nearest ½ percent for moisture, and (c) to the nearest whole percent for damage (drop 0.5 percent).

	Maximum	Rounded	Moisture: Actual percent	Moisture: "Rounded" percent	Loan rates: Classes I and II soybeans	Loan rates: Classes III, IV, and V soybeans

Other classes except green in yellow and yellow in green.[1]	5.0	----				

[1] Mixtures of Classes I and II eligible soybeans which contain 5 percent (actual) or less of Classes III and IV soybeans and bicolored soybeans, either singly or in combination, shall take the applicable loan rate for Classes I and II soybeans. If more than 5 percent of Classes III and IV and bicolored soybeans, either singly or in combination, are contained in a mixture of eligible soybeans which otherwise would take the loan rate for Classes I and II soybeans, the mixture shall take the applicable loan rate for Classes III, IV, and V soybeans. Mixtures of green soybeans in Class I and yellow soybeans in Class II shall be disregarded for purposes of determining applicable loan values.

§ 257.11 *Discounts.* Discounts from the basic loan rates shall be in accordance with the following schedules:

(a) *Test weight.*

As rounded down:	Discount per bushel
53.0	$0.005
52.0	0.01
51.0	0.015
50.0	0.02
49.0	0.025

(b) *Splits.*

Percent	Discount per bushel
15.1–20.0 inclusive	$0.0025
20.1–25.0 inclusive	0.0050
25.1–30.0 inclusive	0.0075

NOTE 1.—Soybeans having a test weight per bushel of less than 49.0 pounds (as rounded down) or splits in excess of 30.0 percent shall not be eligible for loan. (Under the U. S. Grain Standards for soybeans, test weight is shown in full and half pounds.)

(c–1) *Green Damage.*

Percent in excess of 3 percent actual	Rounded	Discount per bushel
0.6–1.5 inclusive	1.0	$0.002
1.6–2.5 inclusive	2.0	0.004
2.6–3.5 inclusive	3.0	0.006
3.6–4.5 inclusive	4.0	0.008
4.6–5.5 inclusive	5.0	0.010

(c–2) *Other damage.* Before computing damage other than green, total damage shall be rounded to the nearest full percent and green damage shall be rounded to the nearest full percent (drop 0.5 percent in both instances). Therefore, damage other than green will always be a full percent.

NOTE 2.—Soybeans which contain in excess of 8.0 percent total damage shall not be eligible for a loan. When soybeans contain total damage in excess of 3.0 percent (actual) the first 3 percent of total damage shall be considered damage other than green damage.

(d) *Foreign material and dockage.* Dockage and foreign material other than dockage, which, singly or in combination, total 2 percent or less, shall not be deducted from the gross weight of the soybeans. If the total weight of foreign material and dockage combined is in excess of 2 percent, the excess shall be deducted from the total gross weight of soybeans in the determination of the net number of bushels of soybeans. For the purpose of this determination, dockage shall be computed in whole percents. Less than 1.0 percent actual dockage shall be disregarded and fractional percentages in excess of 1 percent shall be rounded to the next lower whole per-

cent. Foreign material percentages shall be stated in tenths.

§ 257.12 *Maturity and interest rate.* Loans on eligible soybeans shall be available through January 31, 1945, and shall mature on demand but not later than April 30, 1945. All loans shall bear interest at the rate of 3 percent per annum.

§ 257.13 *Storage advance.* A storage advance of 7 cents per bushel for each (net) bushel of soybeans (see § 257.11 (d) above) placed under loan shall be advanced to the borrower at the time the loan is made, which shall be funds disbursed to the borrower in excess of the amount of the loan. This storage advance shall be earned by the producer for such number of bushels (1) if the soybeans are delivered to Commodity on or after April 30, 1945, or (2) if, pursuant to demand by Commodity for repayment of the loan, the soybeans are delivered to Commodity prior to April 30, 1945, provided such demand for repayment was not due to any fraudulent representation on the part of the producer or because the soybeans were damaged, threatened with damage, abandoned, or otherwise impaired. If delivery is made prior to April 30, 1945, with consent and approval of Commodity, because the soybeans were damaged, threatened with damage, abandoned, or otherwise impaired, a storage payment shall be earned in accordance with the following:

6 cents per bushel if delivered during the month of April, 1945.
5 cents perbushel if delivered during the month of March, 1945.
4 cents per bushel if delivered during the month of February, 1945.
3 cents per bushel if delivered during the month of January, 1945.
2 cents per bushel if delivered during the month of December, 1944.

No storage payment shall be earned if the soybeans are delivered prior to December 1944.

If delivery is made pursuant to demand by the Corporation due to fraudulent representation, no storage payment shall be earned.

A storage payment cannot be earned on a greater number of bushels than is specified in the chattel mortgage. On delivery of the collateral, any deficiencies due Commodity shall be deducted from any credits which may be due the producer from Commodity. The producer shall pay to Commodity any deficiency due Commodity. If the soybeans are redeemed, the producer is required to repay the storage advance plus accrued interest.

§ 257.14 *Storage.* Eligible storage shall consist of farm bins and granaries which are of such substantial and permanent construction, as determined by the county agricultural conservation committee, as to afford safe storage for the soybeans for a period of 1 year and afford protection against insects, rodents, other animals, thieves, and weather. Soybeans must have been stored in the granary for a reasonable period, as determined by the county agricultural conservation committee, prior to inspection for measurement, sampling, and sealing. County agricultural conservation committees shall inspect and approve storage facilities and shall arrange for measuring, sampling, grading, and sealing the soybean collateral in approved structures. Chattel mortgages covering soybeans stored on the farm under loan must be executed and filed in accordance with the applicable State law. Where the borrower is a tenant, the expiration date of the lease shall be given in section 1 (e) of the chattel mortgage. If the expiration date of the lease is prior to July 1, 1945, the borrower must obtain, from the owner and other interested parties, consent that the collateral may remain in the described storage structures until June 30, 1945, without any charge to Commodity other than that agreed to be paid to the borrower for storing the collateral. The consent agreement is set forth in the chattel mortgage. Each producer must designate in section 1 (b) of the chattel mortgage a shipping point reasonably convenient for the delivery of the soybeans, as determined by the county committee. A separate note and chattel mortgage must be submitted for soybeans stored on each quarter section of land.

Commodity shall accept delivery of all the producer's soybeans in the bin or bins in which all or a portion of the soybeans therein are under loan. Such delivery shall be limited to the number of bushels that was in the bin at the time the loan was made, less any amount that has been removed since the loan was made. The producer shall be given credit for the number of bushels delivered at the loan rate applicable to the grade and class of soybeans delivered. If no loan rate has been established for the grade of soybeans delivered, the actual market value shall be furnished by the regional director of Commodity.

§ 257.15 *Determination of quantity of soybeans.* Loans shall be made at values expressed in cents per bushel. A bushel shall be 60 pounds of soybeans free of dockage and foreign material in excess of 2 percent when determined by weight, or 1.25 cubic feet of soybeans testing 60 pounds per bushel, when determined by measurement. In determining the quantity of soybeans stored by measurement, fractional pounds of the test weight per bushel for soybeans testing less than 60 pounds shall be disregarded, and the quantity determined by measurement shall be adjusted by the following respective percentages:

	Percent
For soybeans testing 60 pounds or over	100
For soybeans testing 59 pounds or over but less than 60	98
For soybeans testing 58 pounds or over but less than 59	97
For soybeans testing 57 pounds or over but less than 58	95
For soybeans testing 56 pounds or over but less than 57	93
For soybeans testing 55 pounds or over but less than 56	92
For soybeans testing 54 pounds or over but less than 55	90
For soybeans testing 53 pounds or over but less than 54	88
For soybeans testing 52 pounds or over but less than 53	87

§ 257.16 *Lending agency and source of loans.* A lending agency shall be any bank, cooperative marketing association, corporation, partnership, or person making loans in accordance with these instructions, which has executed the Contract to Purchase on 1940 C. C. C. Form E. Producers may obtain loans through approved lending agencies or direct from Commodity.

§ 257.17 *Purchase of loans.* Commodity shall purchase, without recourse, notes secured by chattel mortgages only from approved lending agencies. Notes held by lending agencies must be tendered to Commodity for immediate or deferred purchase within 10 days of written request, or at least 10 days prior to maturity in the absence of written demand. Notes must be dated prior to February 1, 1945, and must be executed in accordance with these instructions, with State documentary revenue stamps affixed thereto where required by law. Notes executed by an administrator, executor, or trustee shall be accepted only where valid in law. The purchase price to be paid by Commodity for notes accepted shall be the outstanding face amount of such notes plus accrued interest, from the date of disbursement by the lending agency to the date of payment of the purchase price, at the rate of 1½ percent per annum. Under the terms of the Contract to Purchase (1940 C. C. C. Form E), lending agencies are required to report weekly, on 1940 C. C. C. Form F, all repayments or collections on producers' notes held by them, and to remit with such report, to the office of the regional director of Commodity Credit Corporation at Chicago, Illinois, an amount equivalent to 1½ percent per annum on the principal amount collected from the date of the note to the date of repayment.

§ 257.18 *Release of collateral.* A producer may obtain release of the collateral by paying to the lending agency or Commodity, whichever holds the note, the principal amount thereon (including storage advance) plus accrued interest. If the note is held by an out-of-town agency or Commodity, the producer may request that the note be forwarded to a local bank for collection. In such case, the local bank should be instructed to return the note to the sender if payment is not effected within 15 days. All charges in connection with the collection of the note shall be paid by the producer. Upon repayment of a loan, the county agricultural conservation committee must be requested and authorized to release the mortgage by filing an instrument of release, or by a margin release on the county recorder's records.

§ 257.19 *Redemption of part of collateral.* A producer may obtain release of all or part of the collateral in a bin by paying to the holder of the note the loan value, plus storage advance and accrued interest, for the soybeans released. Form Commodity Loan 29 must be prepared and distributed, in accordance with instructions issued by the Agricultural Adjustment Agency, for each partial redemption.

§ 257.20 *Insurance.* The producer is not required to insure soybeans placed under loan.

PURCHASES

§ 257.25 *Eligible producer.* Any person, partnership, association, or corporation producing soybeans in 1944 as landowner, landlord, or tenant.

§ 257.26 *Eligible soybeans for purchase.* Soybeans eligible for purchase shall be soybeans of all classes and grades, the beneficial interest to which is and always has been in the eligible producer, except that soybeans which grade weevily or sample (except sample because of an odor due to green damage) shall not be eligible for purchase by Commodity. Soybeans which grade sample or are weevily may be purchased by processors. Soybeans which grade sample or would grade sample because of having an odor due solely to green damage, or being sour due solely to green damage, shall be eligible for purchase by Commodity.

Purchases may be made in all States through June 30, 1945.

§ 257.27 *Basic purchase prices and specifications.* The price per net (see § 257.32 below) bushel of eligible soybeans sold and delivered to normal delivery points, according to classes (Class I—Yellow; Class II—Green; Class III—Brown; Class IV—Black; Class V—Mixed) shall be in accordance with the schedule below. For purposes of this program, weights per bushel, moisture and damage percentages shall be rounded (a) down to the nearest whole pound for weight-per-bushel tests (drop 0.5 pound), (b) to the nearest ½ percent for moisture, and (c) to the nearest whole percent for damage (drop 0.5 percent).

Basic specifications	Actual	Rounded	Basic per bushel purchase prices	
			Classes I and II	Classes III, IV and V
Test weight (pounds per bushel, minimum)		54.0		
Moisture (percentage)	13.5–14.3 inclusive	14.0	$2.04	$1.84
Splits (percentage maximum)		15.0		
Total damage (percentage maximum)	3.0			
Other classes except green in yellow and yellow in green (maximum percentage).[1]	5.0			

[1] Mixtures of Classes I and II eligible soybeans which contain 5 percent (actual) or less of Classes III and IV soybeans and bicolored soybeans, either singly or in combination, shall take the applicable loan rate for Classes I and II soybeans. If more than 5 percent of Classes III and IV soybeans and bicolored soybeans, either singly or in combination, are contained in a mixture of eligible soybeans which otherwise would take the loan rate for Classes I and II soybeans, the mixture shall take the applicable loan rate for Classes III, IV, and V soybeans. Mixtures of green soybeans in Class I and yellow soybeans in Class II shall be disregarded for purposes of determining applicable loan values.

§ 257.28 *Premiums.* Premiums shall be paid for soybeans only in the case of eligible soybeans which have a moisture content of 13½ percent rounded or less. The premium schedule follows:

MOISTURE Percent	Premiums per bushel
13.3–13.7 inclusive	$0.01
12.8–13.2 inclusive	.02
12.3–12.7 inclusive	.03
11.8–12.2 inclusive	.04
11.3–11.7 inclusive	.05
Below 11.0–11.2 inclusive	.06

§ 257.29 *Discounts.* Discounts for soybeans shall be assessed in accordance with the discount schedules given below:

(a) *Test weight.* ½ cent per bushel for each pound or fraction thereof (weight-per-bushel) by which the soybeans fall below 54.0 pounds. (Under the U. S. Grain Standards for soybeans, test weight is shown in full and half pounds.)

(b) *Moisture.* 1½ cents per bushel for each ½ percent in excess of 14.2 percent moisture (actual), 14.0 percent (rounded) up to and including 18.2 percent moisture (actual), 18.0 percent (rounded).

Percent		Discount per bushel
Actual	Rounded	
14.3–14.7 inclusive	14.5	$0.015
14.8–15.2 inclusive	15.0	$0.03 etc.

2 cents per bushel for each ½ percent in excess of 18.2 percent moisture (actual), 18.0 percent (rounded).

Example:

Percent		Discount per bushel
Actual	Rounded	
18.3–18.7 inclusive	18.5	$0.02
18.8–19.2 inclusive	19.0	$0.04 etc.

(c) *Splits.* ¼ cent per bushel for each 5 percent or fraction thereof in excess of 15.0 percent (actual) of split soybeans.

Example:

Percent	Discount per bushel
15.1–20.0 inclusive	$0.0025
20.1–25.0 inclusive	.005 etc.

(d) *Damage.* When soybeans contain total damage in excess of 3.0 percent (actual), the first 3.0 percent shall be considered damage other than green damage.

(i) Green damage—2/10 of a cent per bushel for each 1 percent (rounded) green damage in excess of 3 percent (actual) damage.

Example:

Green damage, percent in excess of 3 percent		Discount per bushel
Actual	Rounded	
0.6–1.5 inclusive	1.0	$0.002
1.6–2.5 inclusive	2.0	.004 etc.

(ii) Other damage—½ cent per bushel for each 1 percent damage other than green damage in excess of 3 percent (actual) damage, but not in excess of 25 percent (actual).

Before computing damage other than green, total damage shall be rounded to the nearest full percent and green damage shall be rounded to the nearest full percent (drop 0.5 percent in both instances). Therefore, damage other than green will always be a full percent.

1 cent per bushel for each 1 percent damage other than green damage in excess of 25 percent (actual), but not in excess of 60 percent (actual).

1½ cents per bushel for each 1 percent damage other than green damage in excess of 60 percent (actual).

§ 257.30. *Green damage odor.* Soybeans grading sample because of having an odor due to green damage or being sour due to green damage shall be purchased at rates for such soybeans had such odors not been present.

§ 257.31 *Other out-of-condition soybeans.* Soybeans which are weevily, grade sour (other than because of green damage), musty, heating, or which have a "commercially objectionable foreign odor" shall be subject to discounts as may be agreed upon by the buyer and seller at the time of purchase.

§ 257.32 *Foreign material and dockage.* Dockage and foreign material other than dockage, which, singly or in combination, total 2 percent or less, shall not be deducted from the gross weight of the soybeans. Therefore, a net bushel shall be considered to be 60 pounds of soybeans containing not in excess of 2 percent dockage and foreign material. If the total weight of foreign material and dockage combined is in excess of 2 percent, the excess shall be deducted from the total gross weight of soybeans in the determination of the net number of bushels of soybeans. For the purpose of this determination, dockage shall be computed in whole percents. Less than 1.0 percent actual dockage shall be disregarded and fractional percentages shall be disregarded. Foreign material percentages shall be stated in tenths.

§ 257.33 *Method of receiving soybeans.* (a) Country warehousemen may receive soybeans for immediate shipment to processors, terminal warehousemen having contracts with Commodity, or for storage in the elevator or Commodity bins. In order to receive soybeans for Commodity, a country warehouseman must have executed Uniform Grain Storage Agreement (CCC Form H) and supplements thereto. Approval by the county committee must be obtained before any soybeans are placed in Commodity bins.

(b) County agricultural conservation committees may receive soybeans for storage in bins owned by Commodity, storage in other facilities, or shipment. No car shall be loaded without prior approval from the regional director.

§ 257.34 *Soybeans received by country warehouses approved under the Uniform Grain Storage Agreement.* The country warehouseman shall receive soybeans delivered by wagon or truck from the producer, grade the soybeans and store them in his warehouse, Commodity bins upon prior approval of and under supervision of the county committee, or for sale to processors or to terminal warehousemen who have contracts with Commodity. Producers shall file an Offer of Sale memorandum with the county committee listing all lien holders and designate to whom the proceeds of the soybeans sold shall be paid, in the case of soybeans sold to Commodity.

(a) *Storage in warehouse for Commodity.* The warehouseman shall issue separate warehouse receipts for each lot of soybeans stored for Commodity showing the weight, moisture, class and grade, and all other necessary information to determine the premiums and discounts specified in §§ 257.28 and 257.29. The warehouseman shall deliver to the producer said warehouse receipt and inspection certificates or, upon request of the producer, the warehouseman shall deliver such warehouse receipt and inspection certificates to the county office of the Agricultural Adjustment Agency. The county committee of the Agricultural Adjustment Agency shall issue the producer a non-interest-bearing sight draft for each purchase. The information on the warehouse receipt or inspection certificate shall be transferred to the sight draft. The sight draft shall be prepared in triplicate, the original given to the producer, one copy retained by the county committee of the Agricultural Adjustment Agency, and one copy mailed daily to the regional office of Commodity. The sight draft and attachments may be presented to a local bank or direct to Commodity for payment. The warehouseman's charges shall accrue against the warehouse receipts in accordance with the Uniform Grain Storage Agreement, except that the charge for handling the soybeans in and out of the house shall be 5 cents per bushel. The warehouseman shall be responsible for weights and grades to Commodity.

(b) *Storage in bins owned by Commodity.* Eligible soybeans containing not more than 14 percent moisture, and eligible soybeans grading sample (due to green damage only), and containing not more than 14 percent moisture and reasonably free from dockage and foreign material, may be stored in bins owned by Commodity upon prior approval by the county committee. All soybeans stored in Commodity bins must be placed in the bins under the direct supervision of the committee. Soybeans to be stored in steel or wooden bins for Commodity should be segregated according to color, except that soybeans of Classes I and II which contain a total of less than 5 percent of Classes III and IV may be considered as the same color. If necessary, soybeans of the same color but different grades may be mixed. The warehouseman shall issue scale tickets and inspection certificates showing moisture, class, and grade for soybeans grading other than sample (due to green damage only). For eligible soybeans grading sample, the warehouseman shall issue scale tickets or ihspection certificates showing moisture, class, grade, and percent of damage, and deliver such tickets and inspection certificates to the producer, or upon request from the producer deliver such scale tickets and inspection certificates to the county office of the Agricultural Adjustment Agency. The county committee of the Agricultural Adjustment Agency shall issue the producer a non-interest-bearing sight draft for each purchase in an amount due the producer for the quantity, quality, class, and grade of soybeans delivered. The information on the scale tickets or inspection certificates shall be transferred to the sight draft.

§ 257.35 *Soybeans received by county committees.* In areas where there are no approved warehousemen, country warehousemen, or warehousemen's agents available at usual shipping points, or where warehousemen do not cooperate in the purchase program, the county committee, or an agent designated by the county committee, will receive soybeans and make immediate shipment or store in Commodity bins.

Soybeans containing in excess of 14 percent moisture shall not be stored in bins owned by Commodity. However, producers may, by filing Form B with the county committee, deliver their soybeans for purchase to a point designated by the county committee, without first obtaining a grade determination, provided the soybeans do not have a moisture content in excess of 14 percent in the opinion of the producer and the county committee.

In the event the producer is requested by the county committee to deliver his soybeans to a point more distant than his usual delivery point for the purpose of assembling in carload lots, Commodity will allow not more than 5 cents per ton per mile haul for the additional distance necessary to make such delivery. In no event shall the county committee approve payments for an additional haul in excess of 4 cents per bushel without prior approval of the regional director of Commodity. The approval of payment for additional mileage shall be submitted on Form J by the county committee, which shall be mailed to the Chicago office of Commodity for payment. The amount claimed for additional mileage shall not be included in the amount of the sight draft.

County committees shall weigh and load soybeans into bins owned by Commodity, and shall obtain a representative sample, which shall be forwarded to the State office of the Agricultural Adjustment Agency or to an inspector licensed to grade soybeans. Upon receipt of the grade analysis, which shall include an entry for all grade factors needed to determine purchase price, the county committee shall draw a non-interest-bearing sight draft in favor of the producer on Commodity, for the total purchase price of the beans delivered in the same manner, and shall follow the same instructions as when the soybeans are placed in bins by the warehouseman.

§ 257.36 *Grade analysis.* Where requested by the producer, the warehouseman shall furnish the producer a complete grade analysis which shall include class, grade, test weight, moisture, percentage of splits, percentage of total damage, percentage of green damage, percentage of foreign material other than dockage, percentage of brown and/or black soybeans in case green or yellow soybeans are being offered for sale, and percent of dockage.

If the warehouse is not equipped to furnish all grade factors, a representative sample of the soybeans delivered shall be taken by the warehouseman and producer and sent to the State Agricultural Conservation Office Laboratory, or to an inspector licensed to grade soybeans, for grade determination before any payment is made to the producer.

All settlements with the producer by the county committee of the Agricultural Adjustment Agency shall be based upon an agreement between the warehouseman and producer of grade factors determined.

The producer may call for another grade if, in his opinion, any grade factors furnished by the warehouseman are incorrect. In such cases, a representative sample taken by the warehouseman and producer shall be forwarded to a qualified licensed inspector for analysis, and settlement shall then be made on the basis of such analysis. The individual requesting the second grade shall pay the cost of obtaining grade determination.

PART 3288—PLUMBING AND HEATING EQUIPMENT

[Limitation Order L-107, Schedule I, as Amended Aug. 24, 1944]

EXTENDED SURFACE HEATING EQUIPMENT

§ 3288.37 *Schedule I to Limitation Order L-107*—(a) *Definitions.* For the purpose of this schedule:

(1) "Unit heater" means any extended surface heating equipment which is a factory made assembly and which consists of a heating element and a motor driven fan or blower (or fans or blowers) enclosed in a casing having an air inlet and an air outlet, designed to be placed within or adjacent to a space to be heated and to heat such space by circulating air within it.

(2) "Unit ventilator" means any extended surface heating equipment which is a factory made assembly and which consists of a standard (single tube) heating element with by-pass and temperature regulation dampers, or a distributing tube heating element without by-pass and temperature regulating dampers, a motor driven fan or blower (or fans or blowers) and fresh air regulation damper (or dampers) enclosed in a casing having a fresh air inlet and an air outlet and designed to be placed within or adjacent to a space to be heated, and to heat and ventilate such space by circulating air through it.

(3) "Convector" means any extended surface heating equipment which consists of a heat transfer element enclosed

in a cabinet or casing which has an air inlet and an air outlet, and which cabinet or casing serves as a stack to accelerate the circulation of air through the heating element.

(4) "Blast heating coil" means any heat transfer element designed for installation in duct work, for space heating or for drying purposes.

(5) "Special heating coil" means any extended surface heating equipment or any heat transfer element which is not a unit heater, unit ventilator, convector, or blast heating coil as defined in paragraph (a) (1), (2), (3) and (4) of this schedule, and includes, but is not limited to, a convector-radiator or finned-pipe, or any heat transfer element specifically designed for incorporation by a person other than the producer, into extended surface heating equipment or into any other equipment or machinery.

(6) "Standard size unit heater" means a unit heater having certain overall physical dimensions, as specific heating element and a specific fan (or fans), which will develop a specific BTU output per hour heating capacity with free air delivery, when supplied with steam at two (2) pounds pressure per square inch and air at 60 degrees Fahrenheit, and when equipped with a specific single-phase, 60 cycle A. C. electric motor arranged to drive the fan (or fans) at a specific speed.

A standard size unit heater shall not be deemed to be changed;

MISCELLANEOUS CHEMICALS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of the chemicals subject to this order for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.491 *Allocation Order M–340*—(a) *Definitions.* (1) "Subject chemical" means any chemical listed in Appendix A, as therein defined.

(2) "Producer" means any person engaged in the production of any subject chemical and includes a person who imports any subject chemical or has it produced for him pursuant to toll agreement.

(4) "Supplier" means a producer or distributor.

(b) *Restrictions on deliveries.* (1) On and after the applicable effective date stated in Appendix A, no supplier shall deliver a subject chemical to any person except as specifically authorized or directed in writing by War Production Board. No person shall accept delivery of a subject chemical which he knows or has reason to believe is delivered in violation of this order.

(2) Authorization or directions as to deliveries to be made by suppliers in each calendar month will generally be issued by War Production Board prior to the beginning of such month, but may be issued at any time. They will normally be issued on Form WPB–2947 (formerly PD–602) which is to be filed by the supplier with War Production Board as explained in paragraph (g) below.

(3) If a supplier is authorized or directed by War Production Board to deliver a subject chemical to any specific customer or group of customers, but is unable to make the delivery either because of receipt of notice of cancellation or otherwise, the subject chemical shall revert to inventory, and shall not be delivered, or used, without further instructions.

(c) *Exceptions for small deliveries.* (1) Specific authorization in writing of War Production Board is not required for delivery by any supplier to any person in any calendar month of a subject chemical in a quantity not exceeding the quantity stated in Column 3 of Appendix B.

(2) The aggregate quantity of a subject chemical which any supplier may deliver in any calendar month pursuant to paragraph (c) (1), shall not exceed:

(i) The quantity which he has been specifically authorized, upon application pursuant to Appendix D, to deliver on small orders; or

(ii) If he is a distributor, the quantity which he acquired upon certification that it was required to fill small orders or the quantity which he acquired himself on such a small order, or

(iii) If he is a distributor who customarily delivers exclusively on small orders, any quantity.

(d) *Exceptions for deliveries for other reasons.* Specific authorization in writing of War Production Board is not required for delivery of a subject chemical by any supplier to any other person for a purpose stated in Column 4 of Appendix B.

(e) *Restrictions on use.* (1) On and after the applicable effective date stated in Appendix A, no supplier shall use a subject chemical except as specifically authorized or directed in writing by War Production Board.

(2) Each person who with an order for a subject chemical furnishes a certificate required by paragraph (f) shall use the subject chemical delivered on such order only as specified on such certificate except as otherwise specifically authorized or directed in writing by War Production Board.

(3) War Production Board may from time to time issue directions with respect to the use or uses which may or may not be made of a subject chemical to be delivered to, or then in inventory of the prospective user.

(f) *Supplier to obtain from customer a certificate of use.* No supplier shall in any calendar month (beginning in the case of each subject chemical with the calendar month in which the order becomes effective as to that chemical as stated in Appendix A) deliver to any person a greater quantity of such subject chemical than is stated in Column 3 of Appendix B unless he shall have received from such person a certificate as to the use for which such person is ordering such subject chemical. Such certificate shall be substantially in the form and shall be subject to the instructions stated in Appendix C and shall be in the hands of the supplier not later than the 15th day of the month preceding the month in which delivery is to be made. It need not be filed with War Production Board. A supplier must not deliver a subject chemical where he knows or has reason to believe the purchaser's certificate is false, but in the absence of such knowledge or reason to believe he may rely on the certificate.

(g) *Applications by suppliers for leave to deliver or use.* (1) Each supplier requiring authorization to make delivery of, or to use, a subject chemical during any calendar month shall file application on or before the 20th day of the preceding month. The application should be made on Form WPB–2947 (formerly PD–602) in the manner set forth in the general instructions appearing on that form, subject to the special instructions contained in Appendix D. If there is an inconsistency between the general and special instructions, the special instructions must be followed.

(2) War Production Board may issue to any supplier other and further directions with respect to preparing and filing Form WPB–2947 (formerly PD–602).

(h) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of War Production Board, as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington 25, D. C. Ref: M–340.

(2) *Number of copies.* Prepare an original and three copies. File original and two copies with War Production Board, Chemicals Division, Washington 25, D. C., Ref.: M-340, retaining the third copy for your files. The original filed with the War Production Board shall be manually signed by a duly authorized official.

(3) *Separate set for each chemical.* Where the supplier's application relates to deliveries of two or more subject chemicals, he will file a separate set of Form WPB-2947 (formerly Form PD 602) for each.

(4) *Information at top of form.* In the heading, under "Name of Material", specify the subject chemical to which the Form WPB-2947 (formerly Form PD-602) relates; under "Grade", specify grade stated in Appendix A, or if no grade specified, leave blank; under "WPB Order No.", specify "M-340"; indicate month and year during which deliveries covered by the application are to be made; under "Unit of Measure", specify unit of measure stated in Column 2 to Appendix B; under name of company, specify your name and the address of the plant or warehouse from which shipment will be made.

(5) *Listing of customers.* In Column 1 (except for small orders as explained in (7) below) list the name of each customer from whom an order for delivery of the subject chemical during the applicable month has been received. If it is necessary to use more than one sheet to list customers, number each sheet in order and show the grand total on last sheet which is the only one that need be certified.

(6) *Primary product and end use.* In Column 1-a (except for small orders as explained in (7) below) specify the product or products in the manufacture or preparation of which the subject chemical will be used by your customer, the end use to which such product or products will be put, and military or Lend-Lease contract numbers, and export license numbers, all as indicated by the certificate obtained under paragraph (f) of this order. The quantity of the subject chemical used in the manufacture or preparation of each primary product for each product use shall be shown separately. If the subject chemical ordered by a customer is for two or more uses, indicate each use separately and indicate the quantity of the subject chemical ordered for each use.

(7) *Small orders.* The supplier need not list the name of any customer to whom he is to deliver in the applicable month a quantity of the subject chemical not exceeding the maximum quantity (indicated in Column 3 of Appendix B) which he is permitted to deliver to any one person in any calendar month without specific authorization. Also, in the case of any such delivery, he need not show the name of the product or the end use. Instead, he must write in Column 1 "Total small order deliveries (estimated)" and in Column 4, must specify the total estimated quantity of the subject chemical to be delivered on such orders.

(8) *Uses by producers.* A producer requiring permission to use a part or all of his own production of the subject chemical shall list his own name as customer in Column 1 on Form WPB-2947 (formerly Form PD-602) specifying quantity required and product manufactured. Written approval of War Production Board on such Form WPB-2947 (formerly Form PD-602) shall constitute authority to the producer to use the subject chemical in the quantity and for the purposes indicated in such approved form.

(9) *Table II.* Each producer will report production, deliveries and stocks as required by Table II, Columns 9 to 16, inclusive. Distributors will fill out only Columns 10, 12 and 13. Producers and distributors will show in Column 9 Grade, as stated in Appendix A, or if no Grade is there specified, will leave Column 9 blank.

PART 1351—FOOD AND FOOD PRODUCTS

[FPR 1,[1] Amdt. 3 to Supp. 7]

PACKED FRUITS, BERRIES AND VEGETABLES OF THE 1944 AND LATER PACKS

A statement of the considerations involved in the issuance of this amendment to Supplement 7 to Food Products Regulation No. 1 has been issued and filed with the Division of the Federal Register.[*]

1. In section 16, Appendix B is added to read as follows:

APPENDIX B—APRICOTS

Explanation of how maximum prices for packed apricots are figured. In making conversions for grade, for style of pack, for syrup differential and for container type and size under subparagraph (2), (3) or (4) of section 5 (a) of this supplement, in the case of packed apricots the order in which the steps in figuring the maximum prices are to be taken differs from those specified in the note at the beginning of section 5 (a) (2). In figuring maximum prices for packed apricots under those subparagraphs, steps are to be taken in the order indicated below in all cases, although in many cases not all of the steps are necessary.

In each case where the processor is figuring a maximum price for a grade or style of pack of apricots different from that sold in the base period, he must add the permitted increase for the same grade and same style of pack of apricots as that sold in the base period, before converting for the change in grade or change in style of pack, for the reason that the permitted increases for each grade and style of pack are different.

The term "grade" in Tables 3 and 4 refers to the grade of the fruit and the prices are constructed on fruit packed in syrup of a density which corresponds to the grade of the fruit. If fruit is packed in syrup of a density which does not correspond to the grade of the fruit, the processor must use the syrup differentials in the manner provided in Table 9.

Conversions from metal containers to glass containers must be made in the 1944 prices and not in base period prices. In each case of conversion from metal containers to glass containers, the processor must first construct a maximum price for the item when packed in metal and then add or subtract the appropriate conversion factor named in Table 6, even though he packed the item in glass during the base period.

In figuring prices under subparagraph (2), (3) or (4) of section 5 (a) based on grade differentials the processor shall, whenever he has a base price for choice apricots, use it as the base price from which to figure maximum prices for fancy and standard grades. In other cases he shall use the differential between the item being priced and the nearest grade. The differentials to be used are named in Table 9.

The order in which the steps are to be taken in figuring maximum prices for packed apricots under subparagraph (2), (3) or (4) of section 5 (a) is as follows:

1. Convert for container size.
2. Add the permitted increase specified in Table 3 for the style of pack and grade of packed apricots sold in the base period.
3. Convert for grade.
4. Convert for style of pack.
5. Convert for syrup differential.
6. Convert for container type and size.
7. Apply the limitations of the price range.
8. Convert for syrup differential.
9. Convert for style of pack.
10. Convert for container type and size.

Chapter XX—Office of Contract Settlement

[General Reg. 1]

PART 8008—INTERIM FINANCING

PROCEDURE FOR GUARANTEEING TERMINATION LOANS BY WAR AND NAVY DEPARTMENTS AND MARITIME COMMISSION

AUGUST 18, 1944.

Pursuant to the authority conferred upon me by sections 4 (b) and 8 (c) of the Contract Settlement Act of 1944, there is hereby prescribed the procedure for the guaranteeing of termination loans by the War Department, the Navy Department and the Maritime Commission through the Federal Reserve Banks, outlined in the Guarantee Agreement, the Loan Agreement, and Explanatory Notes attached hereto.

Technical amendments not affecting policy may be made in Appendix I Termination Loan Agreement and the Explanatory Notes by agreement among the War and Navy Departments, the Maritime Commission and the Federal Reserve Board.

*Copies may be obtained from the Office of Price Administration.

[1] 9 F.R. 6520, 9090.

[2] 7 F.R. 5277, 6771, 8016, 8946, 8948; 8 F.R. 7001; 9 F.R. 754.

[1] 8 F.R. 9835, 9885, 10514, 12793, 13060, 13724, 15259, 15705, 16604, 16428, 16919, 17199; 9 F.R. 943, 1328, 2176, 3655, 4985, 5586, 6451.

In the execution of this procedure the following policies will be observed:

1. Termination loan (hereinafter called T-Loan) guarantees should not be refused by the contracting agency having the preponderant interest in the borrower's war contracts if the borrower is or has been engaged in performing an operation connected with or related to war production, except in such classes of cases as may be prescribed by the Director. The borrower's certification of his investment in termination inventories and receivables and of the amounts payable to subcontractors should not be questioned by the Federal Reserve Bank or the contracting agency unless there is reason to believe that it is substantially overstated in value. Financing institutions should be encouraged to make unguaranteed production and termination loans, and the fact that a financing institution has made such an unguaranteed loan shall not affect its right subsequently to apply for a T-Loan guarantee, even if the proceeds of the T-Loan are used to retire the existing loan.

2. If a contracting agency which utilizes the Federal Reserve Bank as fiscal agents for T-Loan guarantees has local representatives in connection therewith, it should delegate to such banks authority to approve, after consultation with and in the absence of objection by such representatives, all applications for guarantees of loans totaling (a) $500,000 or less to any one borrower when the requested percentage of guarantee is not in excess of 90 percent, and (b) $100,000 or less to any one borrower when the requested percentage of guarantee is not in excess of 95 percent. Any such contracting agency which does not have such local representatives will provide them in the localities where, and at the times when, it is determined that they are required, in the light of its prospective volume of contract terminations and after consultation with the Director, and in the absence of such representatives should delegate such authority to the Reserve Banks as is necessary to insure prompt processing of applications for and execution of such guarantees.

3. Conditions other than those required under the standard loan agreement should be prescribed by the contracting agencies or the Federal Reserve Banks only in exceptional circumstances and when they are clearly necessary to protect the Government's interest. Additional conditions agreed upon by the borrower and the financing institution, if not unreasonable and not inconsistent with the standard loan agreement, should not be objected to by the contracting agency or the Reserve Banks.

4. The requested percentage of guarantee should not ordinarily be questioned by the Federal Reserve Bank or the contracting agency if it does not exceed 90 percent; and a contracting agency should not authorize a percentage of guarantee in excess of 90 percent, or 95 percent in the case of small loans, unless the circumstances clearly justify the financing institution in requesting it and other means of interim financing are not promptly available.

5. In general, the percentages in the loan formula certificate agreed upon by the financing institution and the borrower should not be questioned by the Federal Reserve Bank or the contracting agency. After consultation with the Board of Governors of the Federal Reserve System, the contracting agencies will, to the extent practicable, specify general criteria or standard maximums which may be employed in typical classes of cases.

T-LOAN GUARANTEE AGREEMENT

No. ------

The ---------- (herein called "Guarantor"), acting through the Federal Reserve Bank of ---------- as fiscal agent of the United States (herein called "Reserve Bank"), and the Financing Institution hereby agree as follows:

SECTION 1. *Definitions.* (A) "Financing Institution" shall mean----------

---

(B) "Borrower" shall mean----------

(Name)

of ----------

(Address)

(C) "The loan" shall mean the financing arrangement between the Financing Institution and the Borrower which is described in Appendix I annexed hereto. In case of any conflict or inconsistency between the provisions of this agreement and the provisions of Appendix I or any other similar instrument, the provisions of this agreement shall control.

(D) "Obligation" shall mean the instrument or instruments evidencing the Borrower's indebtedness under the loan.

(E) "Guaranteed percentage" shall mean ------%.

SEC. 2. *Guarantee as to sharing of losses and expenses.* (A) All losses on the loan (i. e., all amounts of principal and interest which are due and unpaid), and all unreimbursed expenses as defined in Paragraph (B) of this section, shall be shared ratably, on the date of settlement, by the Guarantor and the Financing Institution in accordance with the guaranteed and unguaranteed percentages, respectively. All net recoveries after the date of settlement shall be shared on the same basis. The date of settlement shall be the thirtieth (30th) day after the date on which either party, after maturity of the loan, receives from the other party a written request for such settlement, or any other date agreed on by the parties.

(B) Expenses shall mean all reasonable out-of-pocket expenses (including reasonable counsel fees incurred by the Financing Institution or the Reserve Bank prior to but not after any purchase under this agreement) which relate to the enforcement of the loan or the preservation of the collateral and which are incurred during the period of any default in the payment of principal or interest.

SEC. 3. *Agreement to purchase.* The Guarantor will at any time and from time to time prior to the date of settlement purchase such portion of the obligation as may be demanded in writing by the Financing Institution, by paying to the Financing Institution, on the tenth (10th) day after the receipt by the Reserve Bank of such a demand, the unpaid principal amount of the portion of the obligation to be purchased, as of the date of the demand, plus all unpaid accrued interest on such amount, with appropriate adjustment for guarantee fees, computed as of the date of purchase; provided that in no event shall the total amount of the portion of the obligation owned by the Guarantor exceed the guaranteed percentage.

SEC. 4. *Voluntary purchase by guarantor.* The Guarantor may, at any time upon its demand, purchase the guaranteed percentage of the obligation, less any amounts previously purchased under this agreement and not repaid, and shall pay therefor on the basis stated in section 3. In such event, at the option of the Financing Institution or the Guarantor, the Financing Institution shall forthwith transfer possession of the obligation and collateral in the manner provided in section 5.

SEC. 5. *Administration of loan and possession of obligation and collateral.* (A) The Financing Institution shall administer the loan until it transfers possession of the obligation and collateral to the Reserve Bank as provided below, and thereafter the Guarantor shall administer the loan. Whenever the Guarantor purchases any part of the obligation, the Financing Institution shall forthwith deliver to the Reserve Bank a certificate evidencing the Guarantor's ownership interest in the obligation and collateral. In any such case, however, upon written demand by the Reserve Bank, the Financing Institution shall forthwith transfer to the Reserve Bank, without recourse or warranty except as to the genuineness of the Borrower's signature to any instrument, such possession of, title to, and rights to enforce the obligation and all collateral therefor as it may have. Thereupon the Reserve Bank shall issue to the Financing Institution a certificate evidencing the Financing Institution's ownership interest in the obligation and collateral. Either party administering the loan may (1) release and dispose of collateral and proceeds thereof, and permit substitution therefor, all in accordance with the terms of the loan, and (2) after five days' written notice to the other party, bring any action to enforce the loan.

(B) Nothing in this agreement shall prevent the Financing Institution from transferring the obligation as collateral for advances by a Federal Reserve Bank.

SEC. 6. *Ratable application of collections.* All amounts at any time paid or credited on the obligation, from whatever sources realized, shall be applied ratably for the benefit of the Financing Institution and the Guarantor according to their respective ownership interests in the obligation. Except as may be provided in the loan, the Financing Institution shall not be required to credit on the obligation the proceeds of any banker's lien or right of set-off with respect to funds of the Borrower (exclusive of proceeds of contracts on Exhibit C to Appendix I) or of other assets, to the extent that the Financing Institution has provided that such lien, right of set-off or other assets shall be security for other indebtedness of the Borrower to it.

SEC. 7. *Fees payable to guarantor.* The Financing Institution shall pay to the Reserve Bank at the end of each monthly or quarterly period, as fixed by the Reserve Bank, an amount equal to ——— percent of any interest payable by the Borrower on the average daily amounts of that part of the unpaid principal of the obligation which the Guarantor was obligated during such period to purchase upon demand of the Financing Institution.

SEC. 8. *Effect of violation of agreement.* (A) If the Financing Institution shall violate, or fail to comply with, any of the terms of this agreement or any of the terms or condi-

tions of the loan or shall through gross negligence make a material misrepresentation of fact in the application therefor, or in anything constituting a part of the application, it shall become liable to the Guarantor in an amount equal to the damages sustained by the latter by virtue of such violation, failure to comply, or misrepresentation; but the Guarantor shall not be relieved by such violation, failure to comply, or misrepresentation from any of its obligations to the Financing Institution under this agreement.

(B) In the absence of gross negligence on the part of the Financing Institution, (1) no invalidity or ineffectiveness of any collateral or of any assignment thereof accepted by the Financing Institution, and (2) no action or omission to act on the part of the Financing Institution in reliance on a statement or certificate signed by an appropriate officer or member of the Borrower with respect to the financial condition, business or operations of the Borrower, shall constitute a violation of, or failure to comply with, any of the terms of this agreement or any of the terms or conditions of the loan on the part of the Financing Institution. No invalidity of any provision of the loan arising from statute or decision of any court shall in any way relieve the Guarantor hereunder.

SEC. 9. *Officials not to benefit.* No member of or delegate to Congress or resident commissioner shall be admitted to any share or part of this contract or to any benefit that may arise therefrom, but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

IN WITNESS WHEREOF, the parties have caused this agreement to be executed on their behalf by their duly authorized agents this ____ day of _____, 194__.

APPENDIX I—TERMINATION LOAN AGREEMENT UNDER GUARANTEE AGREEMENT NO. _____

_____

_____ (herein called "Financing Institution") will grant credit to _____

_____ of _____ (herein called "Borrower"), up to a maximum principal amount of $_____ at any one time outstanding, by lending to the Borrower at any time and from time to time on promissory notes in the form annexed hereto as Exhibit A and in accordance with the terms and conditions of this agreement.

1. *Definitions.* All terms defined in the Contract Settlement Act of 1944 and in the Guarantee Agreement shall have the same meaning when used in this agreement. "Terminated war contract" shall mean a war contract, in its entirety, which has been terminated in whole or in part. "The Contracts" shall mean such terminated war contracts, if any, as may now be listed on Exhibit C annexed, and as the Borrower may from time to time add thereto by supplement approved by the Financing Institution.

2. *Maturity.* The loan shall mature thirty (30) days after final payment of the amounts due, upon final and conclusive settlement, on the war contracts of the Borrower or upon _____, 194__, whichever is earlier, and all notes issued hereunder shall thereupon become due and payable. If any note of shorter maturity is issued, the Borrower may from time to time until the maturity of the loan again borrow hereunder the unpaid amount of such note, subject to the provisions of paragraph 6 hereof. The Borrower may at any time by written notice reduce the maximum principal amount of the loan in multiples of $_____.

3. *Interest.* The Borrower shall pay interest as prescribed in Exhibit A.

4. *Commitment fee and expenses.* The Borrower shall pay quarterly a commitment fee at the rate of _____% per annum on the average daily unused balance of the maximum principal amount of the loan. The Borrower shall reimburse the Financing Institution for reasonable out-of-pocket expenses incurred in connection with the loan and the application therefor.

5. *Collateral.* Prior to or contemporaneously with any borrowing hereunder, the Borrower, except and to the extent that the Financing Institution otherwise agrees in writing, will assign to the Financing Institution as security for the loan all moneys due and to become due on the Contracts. At any time upon request of the Financing Institution or the Guarantor, the Borrower will furnish additional security by assigning to the Financing Institution the moneys due and to become due on any or all of its terminated war contracts which by using its best efforts the Borrower can assign and which have not been previously assigned hereunder. All proceeds of assignments made hereunder and of any other collateral taken by the Financing Institution for the loan shall be applied to the indebtedness under the loan. Except to secure borrowings hereunder, except as provided in Exhibit D, and except to secure partial payments made to the Borrower by any contracting agency, the Borrower will not (a) assign, or suffer to remain assigned, moneys due or to become due on any of the Contracts, or (b) mortgage, pledge, or otherwise encumber, or suffer to remain encumbered for more than _____ days, any inventory allocable to the Contracts.

6. *Conditions of borrowing.* The Financing Institution shall not be required to make any advance hereunder (a) unless the Borrower furnishes to the Financing Institution a loan formula certificate in the form annexed hereto as Exhibit B, dated not more than _____ days before the date of the proposed borrowing, which shows a borrowing base, calculated in accordance with the percentages therein specified, of not less than the amount that will be outstanding after the proposed borrowing, or (b) if any event exists which constitutes or which, except for notice or lapse of time or both, would constitute a default specified in this agreement, or (c) to the extent that the Financing Institution has reason to believe that the borrowing base stated in the loan formula certificate is substantially overstated in value and has so notified the Borrower in writing, provided that the Financing Institution may rely upon the borrowing base shown in the loan formula certificate.

7. *Reports.* The Borrower shall maintain proper records and accounts, permit such inspection thereof, and furnish such statements and reports, including audit reports, as the Financing Institution or the Guarantor may from time to time reasonably request. In any event, within three (3) months after the initial borrowing and not less than quarterly thereafter the Borrower shall furnish to the Financing Institution periodic reports in triplicate made up as follows:

(a) A balance sheet, certified by an appropriate officer or member of the Borrower, as of a date not more than _____ days prior to the date of furnishing the report.

(b) A loan formula certificate in the form of Exhibit B, dated not more than _____ days before the date of furnishing the report, unless such a certificate has been furnished within thirty (30) days before such date.

(c) A statement of the nature, amounts, and dates of all payments on any assigned terminated war contracts and on the Contracts, whether or not assigned, in cash or by offset or otherwise (except any offset theretofore deducted in any loan formula certificate) between the date of the initial borrowing or the last date covered by the last report, whichever is later, and a date not more than fifteen (15) days prior to the date of such a statement. Payments shall be deemed to include the proceeds of collateral taken for the loan, or proceeds of, or specific credit with respect to, any sale, retention or other disposition of inventory allocable to such contracts, approved or authorized by the proper authority, and the cost or proceeds, whichever is greater, of any such inventory which the Borrower has definitively elected to retain without specific credit therefor.

8. *Reduction of notes.* The Borrower shall pay down the unpaid principal amount of the notes by an amount equal to: (a) All payments, as described in Paragraph 7 (c), within three (3) days from the date of any such payment or within such further time as the Financing Institution may prescribe; and (b) any excess of outstanding borrowings over the borrowing base shown in the most recent loan formula certificate, upon the date of furnishing such certificate: *Provided*, That, while the Financing Institution may rely upon the borrowing base shown in such certificate, such borrowing base shall be decreased to the extent that the Financing Institution or the Guarantor has reason to believe that it is substantially overstated in value and has so notified the Borrower in writing, in which event the Borrower shall pay, in addition, an amount equal to any excess resulting from such decrease, within ten (10) days after the mailing of such notice.

9. *Maintenance of working capital.* The Borrower shall maintain net current assets, as determined in accordance with generally accepted principles of accounting and including in current liabilities all borrowings outstanding hereunder, of not less than $_____.

10. *Insurance.* The Borrower shall maintain insurance on its property in such amounts and against such risks as is customarily maintained by similar businesses operating in the same vicinity.

11. *Other provisions.* The parties hereto agree to any additional provisions appearing in Exhibit D annexed.

12. *Events of default.* The occurrence of any one of the following events shall constitute a default hereunder:

(a) Any statement, representation, warranty, certificate, schedule or report furnished by the Borrower in connection with the loan shall prove to have been materially false at the date thereof.

(b) Nonpayment of the principal of any of the notes outstanding hereunder when due; or nonpayment of interest or any commitment fee within ten (10) days after the due date thereof.

(c) Breach by the Borrower of any other provision of this agreement.

(d) The Borrower shall be adjudicated a bankrupt or a trustee or a receiver shall be appointed for the Borrower or of a substantial part of its property in any involuntary proceeding, or any court shall have taken jurisdiction of the property of the Borrower or of a substantial part thereof in any involuntary proceeding for the reorganization, dissolution, liquidation or winding up of the Borrower, and such trustee or receiver shall not be discharged or such jurisdiction relinquished or vacated or stayed on appeal or otherwise stayed within thirty (30) days, or the Borrower shall file a petition or answer, not denying jurisdiction, in voluntary bankruptcy or under Chapter X or Chapter XI of the Federal Bankruptcy Act or any similar law, State or Federal, whether now or hereafter existing, or such a petition filed against the Borrower shall be approved and not vacated or stayed within thirty (30) days, or shall make an assignment for the benefit of creditors, or shall admit in writing its inability to pay its debts generally as they become due, or shall consent to the appointment of a receiver or trustee or liquidator of all of its property or a substantial part thereof, or shall have failed within thirty (30) days to bond or otherwise discharge any attachment or to pay any judgment which is unstayed on appeal.

If there shall occur any default as defined in item (a) above or if there shall occur and be continuing any default as defined in items (b) or (c) above, then upon the election of the Financing Institution or the Guarantor, evidenced by written notice to the Borrower, or if there shall occur any default as defined in item (d) above, then forthwith and without any election, the obligation, if any, of the Financing Institution to extend further credit shall terminate and all notes outstanding hereunder shall become due and payable without presentment, demand, protest or notice of any kind, all of which are hereby expressly waived.

_____

EXPLANATORY NOTES APPROVED BY THE DIRECTOR OF CONTRACT SETTLEMENT WITH RESPECT TO STANDARD FORMS OF T-LOAN GUARANTEE AGREEMENT AND TERMINATION LOAN AGREEMENT

GUARANTEE AGREEMENT

Opening Paragraph

(1) The guarantee agreement is issued pursuant to the authority contained in the Contract Settlement Act of 1944, the First War Powers Act, 1941, Executive Order 9112, the Act of June 11, 1942 (56 Stat. 351), and other pertinent provisions of law. No changes in the guarantee agreement will be permitted except in the most unusual cases and then only with the concurrence of the Board of Governors of the Federal Reserve System.

(2) Pursuant to section 10 (a) (1) of the Contract Settlement Act of 1944, the Guarantor in its authorization or through its local representative will notify the Federal Reserve Bank in writing that the Borrower is or has been engaged in performing an operation deemed by the Guarantor to be connected with or related to war production.

Section 1 (A)

(3) If one Financing Institution is authorized, as agent for a number of participants, to execute a guarantee agreement in their behalf, the participants should be referred to as "each bank, trust company or other financing institution which is or shall be a party to the loan described in Appendix I annexed hereto" or by some other appropriate reference showing the several nature of the agreement.

Section 1 (C)

(4) Since the guarantee agreement covers only the loan described in Appendix I, any material alteration in the terms of the loan should be made only with the written consent of the Guarantor in order that the loan, as altered, will be covered by the guarantee.

Section 1 (E)

(5) The requested percentage of guarantee will not ordinarily be questioned by the Federal Reserve Bank or the Guarantor if it does not exceed 90 per cent.

Section 2 (B)

(6) Counsel fees incurred by the Financing Institution after a purchase cannot be shared by the Guarantor because of the provisions of 8 U. S. C. 314.

Section 3

(7) It is contemplated that a purchase made by the Guarantor under this section shall be for cash. However, if the Guarantor owns an interest in any obligation which has been issued under a revolving credit arrangement, and if, at or before the maturity of such obligation, the Reserve Bank receives written demand from the Financing Institution for the purchase of the same or a lesser amount of a new obligation to be issued in place of such maturing obligation, the payment for the portion of the new obligation purchased pursuant to such demand will be made by the Guarantor by surrendering, at or before maturity, its interest in the maturing obligation, in the amount of the demand by the Financing Institution and without regard to the ten-day period specified in this section.

Section 5 (A)

(8) Under the first sentence the Guarantor may, after a purchase and transfer, administer the loan either directly or through the agency of the Reserve Bank. It is contemplated that such administration will usually be conducted by the Reserve Bank.

Section 6

(9) All amounts paid or credited on the obligation after the date of the demand by the Financing Institution or the Guarantor, as the case may be, for a purchase under this agreement and prior to the date of such purchase will be applied, as provided in this section, according to the respective interests of the Guarantor and the Financing Institution as such interests exist immediately after the purchase.

(10) Subject to any special provision which may be contained in Exhibit D, the Financing Institution may make other loans to the Borrower for the purpose of financing war production or reconversion to civilian business or for other purposes, provided the proceeds of the Contracts (as the term "the Contracts" is defined in Paragraph 1 of Appendix I) or inventory allocable to the Contracts are not pledged as security for such loan. The Financing Institution as security for the side loan may take other collateral and provide that the side loan shall not be required to share with the guaranteed loan any banker's lien or right of setoff with respect to funds of the Borrower, exclusive of proceeds of the Contracts, on general deposit with the Financing Institution or specifically pledged as security for such side loan.

Section 7

(11) A schedule of guarantee fees will be prescribed by the Board of Governors of the Federal Reserve System with the concurrence of the Director of Contract Settlement.

Section 8

(12) The word "certificate" in Paragraph (B) (2) includes any certificate furnished by the Borrower in connection with the loan formula.

General

(13) Whenever a number of days is specified in the Guarantee Agreement or in the Loan Agreement the word "days" shall be deemed to mean calendar days.

LOAN AGREEMENT

Opening Paragraph

(14) If the Borrower and the Financing Institution have agreed upon a non-firm commitment, the words "in its sole discretion" may be inserted before the word "grant". The second sentence of Paragraph 2 applies even in the case of a non-firm commitment and in such a case no figure should be inserted in Paragraph 4.

(15) In the case of a straight loan, the words "at any one time outstanding", should be stricken out.

(16) The note to be used should contain the provisions which appear in the form annexed as Exhibit A to the standard loan agreement, with the blanks appropriately filled in, and may contain such additional provisions, not inconsistent therewith or with the terms of the loan agreement, as the Financing Institution and the Borrower may agree. The note may, for example, contain provisions for sale of collateral in the event of default, allowance for attorneys' fees, etc.

Paragraph 1

(17) The following terms are defined in Section 3 of the Contract Settlement Act of 1944:

"(a) The term 'prime contract' means any contract, agreement, or purchase order heretofore or hereafter entered into by a contracting agency and connected with or related to the prosecution of the war; and the term 'prime contractor' means any holder of one or more prime conracts.

"(b) The term 'subcontract' means any contract, agreement, or purchase order heretofore or hereafter entered into to perform all or any part of the work, or to make or furnish any material to the extent that such material is required for the performance of any one or more prime contracts or of any one or more other subcontractors; and the term 'subcontractor' means any holder of one or more subcontractors.

"(c) The term 'war contract' means a prime contract or a subcontract; and the term 'war contractor' means any holder of one or more war contracts.

"(d) The terms 'termination', 'terminate', and 'terminated' refer to the termination or cancelation, in whole or in part, of work under a prime contract for the convenience or at the option of the Government (except for default of the prime contractor) or of work under a subcontract for any reason except the default of the subcontractor.

* * * * *

"(g) The term 'contracting agency' means any Government agency which has been or hereafter may be authorized to make contracts pursuant to section 201 of the First War Powers Act, 1941, and includes the Reconstruction Finance Corporation and any corporation organized pursuant to the Reconstruction Finance Corporation Act (47 Stat. 5), as amended, the Smaller War Plants Corporation, and the War Production Board.

"(h) The term 'termination claim' means any claim or demand, by a war contractor for fair compensation for the termination of any war contract and any other claim under a terminated war contract, which regulations prescribed under this Act authorize to be asserted and settled in connection with any termination settlement.

"(m) The term 'final and conclusive,' as applied to any settlement, finding, or decision, means that such settlement, finding, or decision shall not be reopened, annulled, modified, set aside, or disregarded by any officer, employee, or agent of the United States or in any suit, action, or proceeding except as provided in this Act."

With respect to the definition contained in paragraph (g) above, the Director of Contract Settlement will from time to time issue a list of "contracting agencies" indicating those which are currently guaranteeing loans under this Act through the agency of the Federal Reserve Banks.

(18) It will be noted that the definition of "terminated war contract" contained in Paragraph 1 of the loan agreement is broad enough to permit borrowings against receivables and inventory under that part of a partially cancelled contract still remaining to be performed; that under Paragraph 5 assignment of all moneys due and to become due under the entire contract may be required; and that the provisions of Paragraphs 7 (c) and 8 apply to all payments under the contract.

(19) Current Commitments on Uncancelled Contracts: If the Financing Institution and the Borrower desire to enter into a firm commitment for the financing of nonterminated contracts existing on the date of execution of the loan agreement when and if such contracts become terminated, a provision may be added to Exhibit D listing such nonterminated war contracts with an agreement by the Financing Institution that such contracts may, upon termination, be added to Exhibit C without further approval.

The addition of terminated war contracts to Exhibit C shall be made by serially numbered supplements filed in 5 copies with the Financing Institution. The supplements shall be in the same form as Exhibit C with the following added at the lower left hand corner thereof:

Approved: _____ 194—.

_____
(Financing Institution)

By _____
(Name) (Title)

If the Financing Institution approves of a supplement, it shall sign all copies, retain one for its files, return one to the Borrower, and send the other three copies to the Reserve Bank.

(20) Since the termination loan agreement is designed primarily to finance termination claims rather than production, the Financing Institution may find it advisable to decline to permit inclusion in Exhibit C of contracts which have been terminated only to a minor extent when the effect of their inclusion would probably be to make the proposed borrowing in substantial part a loan for production purposes.

The Financing Institution may refuse to permit addition to the list of terminated war contracts contained in Exhibit C of such contracts as are by their terms not assignable, or may require as a condition of the addition of such contracts as to the list that the Borrower obtain an appropriate amendment permitting such assignment. It should be noted that prime contracts providing for payments aggregating less than $1,000 are not assignable under the Assignment of Claims Act of 1940.

Paragraph 2

(21) The notes may be made payable on demand, or may be 90-day notes, or may have such other maturity, not more than three years after the date of the agreement, as the Financing Institution and the Borrower may agree.

(22) Irrespective of whether or not the Financing Institution is under an obligation under the terms of the agreement to extend further credit, the second sentence of Paragraph 2 is intended to give the Borrower the right to borrow again, from time to time, up to the amount of the notes which have been given in consideration of the loan until the final maturity date inserted in Paragraph 2 or until the notes are finally paid pursuant to Paragraph 8 or otherwise, whichever first occurs.

Paragraph 3

(23) The maximum interest rate, as prescribed by the Board of Governors of the Federal Reserve System with the concurrence of the Director, is 5 per cent per annum simple interest, and interest may not be charged at a greater rate either before or after maturity.

Paragraph 4

(24) The maximum commitment fee, as prescribed by the Board of Governors of the Federal Reserve System with the concurrence of the Director, is ____ of 1 per cent per annum, and, accordingly, the commitment fee, if any is charged, may not exceed this rate.

(25) No termination fee, service fee, or other fee of a similar character, except charges covering out-of-pocket expenses of a financing institution, may be charged.

(26) Out-of-pocket expenses do not include any overhead expenses.

Paragraph 5

(27) The obligation imposed upon the Borrower to make assignments includes the obligation to execute such documents and take such action in connection therewith as the Financing Institution may reasonably require including, in the case of subcontracts, the giving of such notice to the purchasers as may be necessary to perfect the assignments.

(28) The extent to which assignments should be required prior to or contemporaneously with any borrowing under the first sentence of this Paragraph will depend upon the credit standing of the Borrower and upon the practical problems of assignment which may exist in a particular case. The Financing Institution may, by an appropriate writing, agree to except specific contracts from the requirement of assignment, in which case notice of the contracts so excepted should be given to the Reserve Bank. The Financing Institution may also provide in Exhibit D for a general exception. For example, Exhibit D may provide that contracts on Exhibit C as to which the "Estimated Amount of Termination Claim" is less than $_____ need not be assigned unless subsequently requested by the Financing Institution or the Guarantor. If such a provision is included in Exhibit D, the dollar amount of contracts so excluded may, if the Borrower's credit is strong enough to warrant, be made sufficiently high so that Paragraph 5 will in effect merely constitute a covenant to assign upon request of the Financing Institution or the Guarantor.

(29) In the case of a weak credit, the Financing Institution should include, in Exhibit D, a covenant reading substantially as follows:

"At any time upon request of the Financing Institution or the Guarantor, the Borrower will pledge or mortgage as further security for the loan all or any inventory applicable to the Contracts."

Any pledge pursuant to such a covenant should contain a provision for release of inventory so pledged to the extent of payment to the Financing Institution of the cost or proceeds thereof, as the case may be, in accordance with the terms of Paragraph 8 of the loan agreement.

(30) Under the last sentence of this Paragraph, the Financing Institution and the Borrower in suitable cases may agree to a provision in Exhibit D permitting the existence of liens to secure advance payments.

(31) The number of days during which an encumbrance may be permitted to remain on inventory of the Borrower without creating a default, which is to be inserted in the last sentence of this Paragraph, will depend primarily upon the credit standing of the Borrower.

Paragraph 6

(32) In the event of a serious dispute between the Financing Institution and the Borrower as to whether the borrowing base is substantially overstated in value, for the purposes of this Paragraph or of Paragraph 8, the parties may, if they mutually desire, request the Guarantor to consider the matter.

Paragraph 7

(33) The Financing Institution may, for example, deem it desirable to require under the first sentence of this Paragraph the furnishing of profit and loss statements, an analysis of surplus, data as to claims under the Borrower's terminated war contracts, and statements as to the insurance required to be maintained by the Borrower under Paragraph 10.

(34) One copy of each of the statements to be furnished under subparagraphs (a), (b) and (c) may be retained by the Financing Institution, and two copies should be forwarded to the Reserve Bank, which will retain one copy and forward the other to the Guarantor or such person as the Guarantor may designate.

(35) Under the definition of payments, a number of different situations are contemplated:

(a) There may be a sale of inventory specifically approved or authorized by the proper authority. In such case, the payment will be the amount of the proceeds; the date of payment will be the date of receipt of the proceeds by the Borrower.

(b) There may be a retention of inventory approved or authorized by the proper authority with a specific credit allowed on any claim filed. In such case, the payment will be the amount of the credit allowed; the date of payment will be the date of the allowance of the credit.

(c) There may be a sale of inventory approved or authorized by the proper authority under a blanket authority to dispose of inventory at not less than cost or at not less than a stated percentage of cost. In such case, the amount of the payment will be the amount of the proceeds; the date of payment will be the date the proceeds of the sale are received by the Borrower.

(d) There may be a definitive election to retain inventory not approved or authorized by the proper authority with a specific credit against the Borrower's claim where claim has been filed or against his potential claim where none has been filed. Such a definitive election to retain occurs when the Borrower relinquishes the right to include the cost of such inventory in his claim and may be evidenced by written notice to the proper authority, by sale of the inventory without specific credit, by incorporation of inventory in civilian products, or by other means. In such case, the amount of the payment will be the cost of the inventory or, if the act of election is a sale, the proceeds of the sale if that is greater than cost; the date of payment will be the date when the definitive act of election was made.

In the case of a prime contract the "proper authority" to approve or authorize dispositions or retentions of property is the contracting agency. In the case of subcontracts the "proper authority" may be the purchaser or the contracting agency or both depending on the circumstances and the applicable regulations. The word "cost" refers to the Borrower's costs or expenditures used in computing the borrowing base.

Paragraph 8

(36) The Government does not undertake responsibility for assisting in the financing of civilian inventory under the provisions of the Contract Settlement Act of 1944. Therefore, the Financing Institution, if it prescribes a period in excess of three days, should prescribe a reasonably short period within which the payments required by Paragraph 8 are to be made. The Financing Institution may prescribe different periods for payments arising out of the several classes of events upon the happening of which payments are required to be made, and may prescribe a period of grace for small payments. If the credit of the Borrower is not strong, prompt payment should be required, particularly in the event of inventory retention.

(37) If either the Financing Institution or the Guarantor notifies the Borrower of an overstatement pursuant to clause (b) of Paragraph 8, it should forthwith notify the other party to the Guarantee Agreement.

Paragraph 9

(38) If the Borrower has subsidiaries and if it is desired to use *consolidated* net current assets as a basis, this should be specified in Exhibit D. In this event, consideration should be given to whether or not any restrictions imposed upon the parent should also be applied to the subsidiaries.

Paragraph 11

(39) The standard form of loan agreement is designed for use in connection with a straight loan or a revolving credit, a firm commitment or a loan under which the Financing Institution is not obligated to extend further credit, a single bank credit arrangement, or a multi-bank credit arrangement, and for a strong credit or a weak credit. It is recognized that the Financing Institution and the Borrower may wish to add in Exhibit D further provisions appropriate for the particular financing arrangement between them.

(40) Conditions other than those required under Appendix I will be prescribed by the Guarantor or the Federal Reserve Bank only in exceptional circumstances and when they are clearly necessary to protect the Government's interest; but it is expected that the Financing Institution, in the case of a weak credit, will ordinarily insist upon the inclusion of the provision quoted in Explanatory Note (29). Additional conditions for inclusion in Exhibit D may be agreed upon by the Borrower and the Financing Institution and, if not unreasonable or inconsistent with the standard termination loan agreement, such conditions will not be objected to by the Guarantor or the Reserve Bank.

(41) The Guarantor will have no objection to the insertion of a provision requiring the Borrower to apply first to the Financing Institution before obtaining any other loans. The Financing Institution may also insert an additional provision prohibiting other borrowings, without the consent of the Financing Institution, or placing a ceiling thereon.

(42) In order that additional terms may be clearly distinguished from the provisions of the standard form, all such additional terms should be set forth in Exhibit D or in a rider attached thereto.

(43) In any case where either the Financing Institution or the Guarantor exercises its option under the Loan Agreement to terminate the credit and accelerate the notes, it should forthwith notify the other party to the Guarantee Agreement.

Exhibit B—Paragraph 2

(44) In general, the percentages in the loan formula certificate agreed upon by the Financing Institution and the Borrower will not be questioned by the Federal Reserve Bank or the Guarantor.

(45) If a breakdown between manufacturing and administrative overhead is available, it should be furnished by the Borrower, and in this case the words "and administrative" may be omitted from item (c) and an additional item relating solely to administrative overhead may be added. Similarly, where circumstances warrant, there may also be added a separate item relating to other reimbursable expenditures, provided that a breakdown of such item is furnished and approved. In any of the above cases, the additional items will be

lettered (e), (f), etc. If a further breakdown of expenditures is desired, as between fixed-priced and cost-plus-a-fixed-fee contracts or as between prime contracts and subcontracts or as between approved and unapproved subcontract settlements, this may be accomplished by similar procedure.

(46) With reference to (aa), amounts "disallowed by the contracting agency" include any part of a termination claim disallowed pursuant to Section 13 of the Act regardless of whether the Borrower has taken an appeal, except to the extent that such appeal is sustained.

Exhibit B—Paragraph 3

(47) It is expected that in all cases the Borrower will exercise due diligence in filing termination claims as promptly as possible. Due to the widely varying factors involved, such as the number of Borrowers cancelled contracts and the relative simplicity or complexity of preparing his claims, it is not deemed feasible to prescribe any uniform time within which claims must be filed. However, where the Financing Institution and the Borrower can agree in advance upon a reasonable time for filing claims, they can of course provide for such a limitation in Exhibit D.

[Order 1956, Gen. Dir. H-10]

PART 401—PRODUCTION OF FISHERY COMMODITIES OR PRODUCTS

ALLOCATION OF HALIBUT WITHIN PORTS

Pursuant to Order No. 1956 of the Secretary of the Interior, issued June 13, 1944, (9 F.R. 6780), entitled "Allocation of Halibut Within Ports", which is referred to hereinafter simply as "the order", and to paragraph (j) thereof, and because it is deemed necessary to accomplish the purposes of the order, the following General Direction No. H-10 is issued:

(a) The supervised allocation programs set up heretofore by previous General Directions, as provided for in paragraph (g) of the order, for the delivery of Pacific halibut within the ports of Seattle, Washington, and within Ketchikan, Petersburg, Sitka, Juneau, Pelican City and Wrangell, Alaska, are continued subject to the rules set out herein and extended to the other species included within the order. Allocation schedules showing the percentage of deliveries assigned to each permittee-dealer will be issued for each port, and notice thereof and of any changes necessitated therein, will be given to each permittee in the port concerned. Different schedules will be issued for the different species as necessary in conformity with the provisions of the order, especially paragraph (g) thereof. The rules set out in this General Direction shall apply to these ports and to all other ports in which supervised allocation programs are hereafter set up.

(b) In this and all other General Directions issued under the order, the phrase "landings available for allocation" as referring to any particular species and any particular port, shall be taken to mean the total landings of the species at the port during the season for that species beginning in 1944, plus all landings of the species which, though actually delivered elsewhere, are considered a part of the quota of one of the dealers at the port in question, as provided in General Direction No. H-9 because purchased or arranged at that port; but fish of the species concerned taken incidentally while fishing for other species shall be excluded.

(c) After an allocation schedule is issued and notice thereof given by delivering a copy to each permittee-dealer concerned, no dealer shall, at any time, purchase or receive delivery or arrange for the delivery of any of the species concerned except such as will keep his total purchases and receipts of the landings available for allocation at the port approximately at the percentage quota assigned to him in such schedule. However, the issuance of such an allocation schedule shall not make any prior purchase a violation of this direction or of the order. Any percentage assigned to a dealer in any such schedule is subject to subsequent reduction reasonably necessary to carry out the purpose of the order.

(d) Nothing in this direction nor in any allocation schedule issued pursuant hereto shall relieve any dealer from the necessity of securing a permit under the order, and no dealer listed in any allocation schedule issued shall receive any deliveries of halibut, nor shall any person deliver halibut to any such dealer, except in accordance with a permit effective at the time of delivery.

(e) This general direction supersedes paragraph (a) of General Direction No. H-1, and General Directions No. H-2, H-3, H-4, H-5, H-6, H-7, and H-8 which are hereby revoked.

Issued this 10th day of August 1944.

SUGARCANE INDUSTRY IN LOUISIANA

NOTICE OF HEARING

In the matter of the determination of the scope of that portion of the cane sugar processing and milling branch of the cane sugar industry located in Louisiana pursuant to section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the regulations issued thereunder.

Whereas, the Administrator determined, on November 18, 1939 (4 F.R. 4615), that that portion of the cane sugar processing and milling branch of the cane sugar industry which is located in Louisiana is a branch of an industry and of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the regulations issued thereunder, and therefore is entitled to the exemption provided under section 7 (b) (3) of the act; and

Whereas, in the said determination, the term "that portion of the cane sugar processing and milling branch of the cane sugar industry which is located in Louisiana" was defined to include "that branch of the industry engaged in the unloading of sugar cane from wagons and railroad cars onto conveyors; the processing of sugar cane into sugar, syrup and molasses, but not the refining of such sugar, syrup and molasses; the removal, handling and conveying of raw sugar, syrup and molasses to storage and placing them in storage on or in the vicinity of the sugar mill site; the removal, conveying, burning, baling, and piling and storing in baled form on or in the vicinity of the sugar mill site of bagasse resulting from the processing of sugar cane into raw sugar, syrup or molasses; and the operations or services necessary or incident to the foregoing"; and

Whereas, the aforesaid determination was amended by the Administrator on July 20, 1944 (9 F.R. 8175) to include the "dehydrating of bagasse" within the scope of the said branch of the industry; and

Whereas, an application has been filed requesting that the determination of November 18, 1939 be further amended to include within the definition of the branch of the industry the incidental refining of sugar, syrup and molasses and the removal, handling, bagging and conveying of such sugar and certain other operations performed during the grinding season in sugar cane mills in Louisiana; and

Whereas, it appears desirable to re-examine the definition of that portion of the cane sugar processing and milling branch of the cane sugar industry which is located in Louisiana in order to determine what operations should be included and what operations should not be included therein;

Now, therefore, pursuant to §§ 526.5 and 526.6 of regulations, Part 526, notice is hereby given of a public hearing to be held in Room 1610 at the National Offices of the Wage and Hour Division, U. S. Department of Labor, 165 West 46th Street, New York 19, New York, on September 8, 1944, at 10 a. m. before Nathan Rubinstein, an authorized representative of the Administrator, who is hereby authorized to receive evidence and hear argument for the purpose of determining, defining and delimiting the scope, under section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the regulations issued thereunder, of that portion of the cane sugar processing and milling branch of the cane sugar industry located in Louisiana.

Any person desiring to be heard in this matter may appear at the hearing in his own behalf or in behalf of any other person, or may file a written statement to be included in the record. Notice of intention to appear should be filed with the Administrator at the above address on or before September 7, 1944, and should contain the following information:

1. The name and address of the person appearing.

2. If such person is appearing in a representative capacity, the names and addresses of the persons or organizations which he is representing.

Written statements may be filed with the Administrator prior to the date of the hearing or with the presiding officer at the hearing.

Signed at New York, New York, this 22d day of August 194.

L. METCALFE WALLING,
Administrator,
Wage and Hour Division.

ADJUSTMENT OF MAXIMUM PRICES

Order No. A-2 under § 1499.159 (b) of Maximum Price Regulation No. 188, Amendment No. 17. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel.

Modification of adjustment provisions under Maximum Price Regulation 188. An opinion accompanying this Amendment No. 17, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order A-2 is amended in the following respect:

Paragraph (a) (17) is added to Order A-2 to read as follows:

(17) *Pyrophyllite.* This paragraph (a) (17) permits the granting of relief to producers of pyrophyllite under the conditions and to the extent set forth below.

(i) *Basis for adjustment.* The Price Administrator may, by order, either on his own motion or pursuant to an application for adjustment filed in accordance with Revised Procedural Regulation No. 1, adjust the maximum price or prices of a producer of pyrophyllite for a particular grade or grades or for a producer's entire production of the commodity when a shortage in the essential supply of the commodity or particular grades thereof exist; the granting of a price increase will eliminate or contribute toward the elimination of the shortage; and the producer's maximum price is below his actual or reasonably estimated cost to make and sell his production of pyrophyllite or particular grades thereof.

(ii) *Amount of adjustment.* The amount of the adjustment will not exceed that which, in the judgment of the Price Administrator, is sufficient to remove price as an impediment to production of essential supply by an essential supplier. However, in no event will the adjustment, exceed the actual or reasonably estimated cost to make and sell his entire production of pyrophyllite or particular grades thereof, whichever is appropriate to the proceeding.

(iii) *Passing on of permitted increase by resellers.* In issuing adjustment orders under this subparagraph, the Price Administrator will, wherever required, provide the extent to which any increase permitted under this subparagraph, by way of adjustment, may be added to the maximum price or prices of sellers other than the producer. To the extent that such action is taken, the appropriate provisions of the General Maximum Price Regulation shall be deemed to be incorporated into Maximum Price Regulation No. 188.

This Amendment No. 17 shall become effective August 24, 1944.

[Region III Rev. Order G-1 Under RMPR 271]

POTATOES AND ONIONS IN CLEVELAND REGION

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by § 1351.1001, Article II, section 11 (c) (7) (iii) of Revised Price Regulation No. 217, it is hereby ordered:

(a) *What this order does.* This order establishes maximum prices for dry onions and white flesh table stock potatoes (hereinafter referred to as "potatoes") when sold by intermediate sellers. It provides a method of calculating dollars-and-cents maximum prices for all sales by intermediate sellers in Region III. All terms not defined herein shall have the same meaning as provided in Revised Maximum Price Regulation No. 271, as the same now exists or hereafter may be amended. The maximum prices herein established shall be the only maximum prices for the sales covered, except to the extent that any prices established by this order are inconsistent with the prices for the same grade of dry onions and potatoes established by any Community Flat Pricing Orders issued under General Order No. 51 by any District Office, in which case the prices established by such Community Flat Pricing Orders shall be the effective prices for such sales.

(b) *Maximum Prices for Intermediate Sellers.* (1) On the effective date of this order and on Wednesday of each week thereafter, the seller shall calculate his maximum prices for each grade of onions and potatoes by determining his base price as provided in Article II, section 11 of Revised Maximum Price Regulation No. 271. The seller shall next determine whether he is a first or second intermediate seller as defined in this order. He shall then add to his base price for each grade of dry onions and potatoes, the following appropriate markups:

(i) The appropriate markups as specified in Schedule A of this order for the particular distributive function which he performs on each individual sale with respect to dry onions.

(ii) The appropriate markups as specified in Schedule B of this order for the particular distributive function which he performs on each individual sale with respect to potatoes.

(2) Any first intermediate seller of dry onions or potatoes may file in duplicate with the appropriate District Office of the Office of Price Administration, a statement in affidavit form showing that from October 1, 1943, through December 31, 1943, at least 65% of its dollar volume of all fresh fruit and vegetable sales were made to retailers or to purveyors of meals. The appropriate District Office of the Office of Price Administration upon approving such affidavit may issue written authorization permitting such first intermediate sellers of dry onions or potatoes to make sales to retailers, hotels, restaurants, or institutional users at the prices set forth in Schedule A (2) and Schedule B (2) for second intermediate sellers. Nothing in such authorization shall be construed to permit any change in the maximum price for sales to other intermediate sellers.

(c) *Geographical Applicability.* The provisions of this order shall be applicable to all sales pursuant to which delivery is made at any point within the States of Indiana (except the County of Lake), Kentucky, Michigan, Ohio, and West Virginia.

(d) *Definitions.* (1) First intermediate seller means an intermediate seller at any receiving point who has purchased any quantity of dry onions or potatoes from a country shipper, either directly or through a broker or grower's agent, or from a carlot or truckiot distributor, and who resells such onions or potatoes in less than carlot or truckiot quantities.

(2) Second intermediate seller means an intermediate seller who has purchased dry onions or potatoes in less than carlot or truckiot quantities from another intermediate seller and who resells such onions or potatoes in less than carlot or truckiot quantities. (c) *Conversion weight.* (1) The conversion weight of swine slaughtered during any week shall be determined exclusively by computing the average live purchase weight of all swine slaughtered (less condemnations) and multiplying the total live purchase weight of such swine by the conversion factor set forth below for the weight range within which the average live purchase weight falls:

Weight range:	*Conversion factor*
200 lbs. and under	.55
201–240 lbs.	.57
241–300 lbs.	.59
301 lbs. and over	.61

(2) The conversion weight of all deliveries of pork, and the conversion weight of carcasses and of cuts and trimmings derived therefrom and of pork products produced therefrom, shall be determined by multiplying the weight thereof by the appropriate conversion factor set forth below:

TYPE AND DESCRIPTION OF PRODUCT

	Conversion factors (multiplier)	
	.33	
	Not boned	*Boned*
Dressed carcasses (with cutting fats on), fresh (chilled) or frozen	1.00	1.15

The term "boned" describes cuts from which 50 percent or more of the bone, by weight, has been removed by the process of boning, and the term "not boned" describes cuts from which none or less than 50 percent of the bone, by weight, has been removed, and primal cuts which contain no bone.

(3) The conversion weight of pork of any type used in the preparation of sausage, or in the preparation of canned meat, or any other meat product not specified above, shall be computed by determining, on the basis of the manufacturing formula, the net weight of the pork used in such processing, and multiplying such net weight by the applicable conversion factor set forth above for such type of pork. The net weight of pork which is cooked and used in the preparation of canned meat not specified above shall be the weight thereof before cooking.

(d) *Credits allowed on deliveries.* Subject to the provisions of (e) hereof, any set aside meat delivered to a governmental agency, authorized purchaser, contract school, marine hospital, maritime academy, or ship supplier may be credited against the requirements of (b) hereof for meat of the type and grade so delivered.

(e) *Certificates.* No set aside meat shall be delivered to any authorized purchaser, and no credit shall be allowed for any such delivery unless, within 10 days after delivery, the slaughterer obtains a certificate signed by the authorized purchaser, acknowledging receipt of the meat and containing the following: the name and address of both parties and the date of delivery; the contract number of the contract between the authorized purchaser and the governmental agency; and a statement by the authorized purchaser that the set aside meat so delivered, or an equivalent amount of set aside meat, will be or has been used in the fulfillment of such contract. The slaughterer shall endorse on such certificate the conversion weight of such meat, together with a description permitting conversion in accordance with (c) of this order. The slaughterer and the authorized purchaser shall each retain an original or duplicate of such certificate for delivery to the Director upon request. All statements contained in or accompanying such certificate shall be deemed made to an agency of the United States. No person shall be entitled to rely upon any such certificate if he knows or has reasonable cause to believe it to be false.

(f) *Specifications; storage; packaging.* (1) Every Class 1 slaughterer shall obtain specifications of governmental agencies. Such specifications

may be obtained by application addressed to the Order Administrator.

(2) All pork required to be set aside, reserved, and held under this order shall be stored in such manner as to maintain the quality thereof and shall be prepared and packaged in accordance with specifications of governmental agencies.

(g) *Authorized purchasers required to redeliver.* Each authorized purchaser who receives set aside meat under the provisions of this order shall deliver all such meat, or an equivalent amount of set aside meat, to a governmental agency, contract school, marine hospital, maritime academy, or ship supplier.

(h) *Allocations.* The Director may, by general order or written notice to individual slaughterers, order the allocation of meat set aside under this order to or among specific governmental agencies, authorized purchasers, contract schools, marine hospitals, maritime academies, or ship suppliers. In the absence of such allocation, slaughterers may, subject to (e) hereof, sell meat so set aside to any such person or agency.

(i) *Existing contracts.* The provisions of this order shall not be construed as reducing the amount of meat which any slaughterer is required to offer or to deliver under any existing contract with a governmental agency, as defined herein, or with the United States Maritime Commission.

(j) *Records and reports.* (1) Every Class 1 slaughterer shall report to the Director concerning his production of and transactions in pork. Such reports shall be made at such times and upon such forms as the Director may require.

(2) Every Class 1 slaughterer shall keep such records with respect to inter or intra plant transactions as may be required by the Order Administrator.

(k) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records, and other writings, premises or stocks of meat of any person, and to make such investigations as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(l) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Petitions shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to any petition which is consistent with the authority delegated to him by the Director. If the petitioner is dissatisfied with the action taken by the Order Administrator, he may, by a request addressed to the Order Administrator, obtain a review of such action by the Director. After said review, the Director may take such action as he deems appropriate, which action shall be final.

(m) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using meat. Any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Civil action may also be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(n) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise provided, be addressed to the Order Administrator, War Food Order No. 75–3, Livestock and Meats Branch, Office of Distribution, War Food Administration, 5 South Wabash Avenue, Chicago 3, Illinois.

(b) *Restrictions on purchase and use of soybeans by processors, manufacturers and seed dealers.* No processor, manufacturer or seed dealer shall purchase or accept delivery of soybeans of the 1944 crop in a total quantity which, taken in conjunction with the quantity of his existing supply of soybeans, would be in excess of his processing, manufacturing and seed sales requirements for the period ending October 10, 1945, and no soybeans of the 1944 crop shall be used by a processor, manufacturer or seed dealer except for meeting his processing, manufacturing and seed sales requirements, or for sale to persons eligible to purchase or accept delivery of such soybeans under this paragraph or under paragraph (c) or (d) hereof.

(c) *Limitation on country shipper's inventory of soybeans.* No country shipper shall purchase or accept delivery of soybeans of the 1944 crop if such action would result in his having on hand at any time after March 31, 1945, a quantity of soybeans of the 1944 crop exceeding the quantity for which he has contracts to sell to processors, manufacturers, seed dealers and Commodity Credit Corporation but which he has not yet delivered, plus the greater of (1) the quantity of soybeans of the 1944 crop purchased by him during the immediately preceding 30 days or (2) 2,000 bushels of such soybeans.

(d) *Restrictions on purchase of soybeans by other persons.* No person other than a processor, a manufacturer, a seed dealer, or a country shipper shall purchase or accept delivery of soybeans of

(i) *Audits and inspections.* The President of the Commodity Credit Corporation shall be entitled to make such audit or inspection of the books, records and other writings, premises or stocks of soybeans of any person, and to make such investigations, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

The President of the Commodity Credit Corporation may thereupon take such action as he deems appropriate, which action shall be final.

(8) No tanner, contractor, converter, finisher, jobber or cutter shall deliver any leather for footwear purposes unless he has received the quota number of the purchaser. This paragraph shall not prevent deliveries to persons regularly in business as leather contractors, leather converters, leather finishers, leather jobbers, leather cutters, finders or shoe repairers.

INTERPRETATION 1

IMPACT OF RATINGS ON EQUITABLE DISTRIBUTION

Paragraph (b) (7) of this order, the so-called equitable distribution clause, does not excuse filling of rated orders. This clause prohibits discrimination between customers who meet established prices, terms and credit requirements, but it does not override Priorities Regulation No. 1, which requires, subject to the conditions set forth, that all rated orders be accepted and that preference be given to orders carrying higher ratings over those with lower ratings.

The particular types of leather specified by preference rated orders must be delivered unless the leather cannot be produced from the hides or skins available to the tanner or the tanner is excused or prevented from filling the order by a regulation, order or direction of the War Production Board. If a rated order is placed for military quality leather, this order may not be filled with civilian quality leather. (Issued Apr. 11, 1944.)

INTERPRETATION 2

OFEA AND UNRRA ORDERS NOT WITHIN DEFINITION OF "MILITARY ORDER"

"Military order" as defined in paragraph (a) (5) does not include orders for delivery against contracts placed by the Office of Foreign Relief Administration or the United Nations Rehabilitation and Relief Administration, or orders for hides, skins or leather for incorporation in products to be delivered against such contracts. (Issued April 15, 1944.)

Definitions

§ 4600.01 *Meaning of certain terms.* As used in this order:

(a) "Rubber" when used alone refers to any or all of the following: Crude rubber, latex, reclaimed rubber and scrap rubber.

(b) "Crude rubber" means all forms and types of natural crude rubber, but does not mean or include balata, chilte, gutta-percha, gutta siak, gutta jelutong, pontianac, latex, reclaimed rubber or scrap rubber.

(c) "Latex" means the dry latex solids contained in natural liquid latex.

(d) "Reclaimed rubber" means any vulcanizable material derived from the processing or treatment of scrap rubber except reclaimed residue or "mud". Reclaimed residue or "mud" means dried and recovered sludge consisting of a mixture of partially hydrolyzed cellulose, finely divided rubber and other waste products of the digester process of reclaiming rubber.

(e) "Scrap rubber" means any material which results from or is incident to the processing of rubber or synthetic rubber in the manufacture or repair of any product including any unvulcanized scrap rubber containing fabric and any defectively processed materials or products which are not usable for a purpose for which they are designed. The term also means any finished product or part thereof made in whole or in part from rubber or synthetic rubber which through wear, deterioration or obsolescence has served its purpose in its present state. The term does not include (1) a pneumatic tire or tire casing which can be made serviceable under present limited operating conditions for a use for which it was designed, by means of a temporary or permanent repair or by retreading or recapping in accordance with recognized commercial practice; (2) any other product which is still usable for a primary purpose for which it was designed; (3) any residual piece of uncured tire cord friction (cord end) which is of sufficient size to be usable as new material in the manufacture of tire patches or in the repair of tires.

(f) "Synthetic rubber" includes Neoprene (all types including GR–M), Thiokol all types except GR–P; all Isobutylene polymer and copolymer types, including Butyl (GR–I) and Polyisobutylene (also known as Polybutene, Vistanex, Vistac and Synthetic 100); all Butadiene polymer and copolymer types, including but not limited to Buna S (GR–S all types, Hycar OS and Styraloy) and all Buna N types, such as Hycar, Perbunan, Chemigum, Butaprene, GR–A and Neoprene ILS; and all Isoprene polymer and copolymer types.

(g) "Balata" means any of the gums of recognized commercial grades, having a gutta hydrocarbon base and a high resin content, and includes such gums whether in crude or refined (deresinated or partly deresinated) form; but does not mean or include scrap balata or reclaimed balata, or Coquirana, Chicken-Wire, Peruvian F. A. Q. white, and Massaranduba Balata.

(h) "Chlorinated rubber" means the reaction product of chlorine and rubber, synthetic rubber or balata.

(i) "Consume" means to fabricate, process, stamp, cut or in any manner make any substantial change in the form, shape or chemical composition of rubber, synthetic rubber or balata and include both the consumption of scrap rubber for the production of reclaimed rubber, and the separating, tearing, splitting or pulling apart of scrap rubber for any purpose.

(j) "Government order" means any contract or purchase order for material or equipment:

(1) To be delivered to or for the account of any agency of the United States, including any independent regulatory commission or board, any executive department, independent establishment, commission, board, bureau, division, agency, administration, service, or office of the Executive branch of the Federal Government, and any corporation operated by the Federal Government. The term does not include any contract or purchase order for (i) maintenance, operating or repair material or equipment to be delivered to or for the account of any Federal Government-owned or controlled plant or facility which is not operated by the Federal Government or, (ii) material or equipment to be delivered to or for the ac-

count of any post exchange, ship's store, commissary, officer's mess, officers', noncommissioned officers' or enlisted men's club, or any similar agency or organization, whether or not such contract or purchase order bears an endorsement specified in Priorities Regulation No. 17.

(2) To be delivered to, or for the account of, any foreign country under the provisions of the Act of March 11, 1941, entitled, "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(3) Required by the person placing the same to fill his contracts or purchase orders on hand, provided the material or equipment is to be physically incorporated in material or equipment to be delivered under contracts or purchase orders included under paragraphs (1) and (2) of this § 4600.01 (j).

(k) "Civilian order" means any contract or purchase order for material or equipment which is not a "Government order" as defined above.

(l) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

General Restrictions on Consumption

§ 4600.02 *Authorized consumption.* No person shall consume any of the following materials without first obtaining authorization to do so from the Rubber Director, War Production Board, on Form WPB–3662:

Crude rubber.
Natural latex.
Any synthetic rubber except GR–S (all types) or Thiokol types.
Chlorinated rubber.

No person shall consume any materials listed above except in the amounts and for the purposes authorized on Form WPB–3662. The consumer may, however, substitute synthetic rubber for crude rubber and may exceed by 5% the amount of material authorized for a particular purpose, but he must not exceed the total amount of any type of material which he is authorized to consume for all purposes. In addition, material may be consumed for experimental use without authorization to the extent permitted by Appendix I.

In order to obtain authorization under this section, a consumer must file Form WPB–3662 for each calendar month.

§ 4600.03 *Permitted uses.* No person shall use crude rubber, natural latex, reclaimed, scrap or chlorinated rubber or any synthetic rubber except for the products and purposes specified in Appendix I, subject to the applicable manufacturing regulations of this order.

§ 4600.04 *Balata.* No person shall consume balata except upon specific authorization of the Rubber Director, War Production Board. Requests for authorization to consume balata may be made by letter to the Office of Rubber Director, War Production Board, Washington 25, D. C. See definition of "Balata" at § 4600.01 (g) for types of balata not restricted by this order.

Purchase Procedure

§ 4600.05 *Purchase requests for rubber or synthetic rubber.* Purchase requests for crude rubber, natural latex, neoprene (GR–M), or butyl (GR–I or Class types) must be made on Form WPB–3662 in accordance with the instructions accompanying the form. Purchase requests for GR–S (all types) should be made to Rubber Reserve Company in accordance with regulations of Rubber Reserve Company.

Authorized consumers may purchase synthetic rubber which is privately produced or chlorinated rubber, directly from the producer subject to the inventory restrictions of § 4600.07.

Material subject to prior authorization on Form WPB–3662 may be consumed only to the extent authorized on the form in accordance with applicable manufacturing regulations.

For purchases of material for experimental use, see Appendix I.

Deliveries and Importation

§ 4600.06 *Delivery restrictions.* No person shall deliver to another person any material controlled by this order other than reclaimed and scrap rubber except as permitted by regulations of Rubber Reserve Company, or as specifically authorized by the Rubber Director, War Production Board. Nothing contained in this section shall be deemed to prohibit:

(a) Delivery of rubber, synthetic rubber, chlorinated rubber or balata from one location to another location controlled by the same person where no change of ownership takes place, or by any corporation to another corporation which is its subsidiary or of which it is a subsidiary.

(b) Delivery of GR–S (all types) for permitted uses under this order. Transfers of GR–S must, however, be reported as shipments or receipts on Form WPB–3410 for the calendar month in which the transactions occur.

(c) Any person from accepting delivery from another of rubber, synthetic rubber, chlorinated rubber, or balata for the purpose of milling, washing, deresinating, drying, compounding, or conditioning the same, or for processing or manufacturing products therefrom, and thereafter returning the same or the products thereof to such other person.

§ 4600.07 *Inventories of material.* No person, other than Rubber Reserve Company, shall acquire or maintain an inventory of any of the following materials in excess of an amount which can reasonably be expected to last him for the period designated below:

Type of material	*Permissible inventory—days for each type*
Reclaimed rubber	90
Crude rubber, latex, balata, GR–S, neoprene or thiokol	60
Any type of synthetic rubber not listed above; or chlorinated rubber	30

A person engaged in the business of reclaiming rubber, however, may maintain such inventories of scrap and reclaimed rubber as he deems advisable, notwithstanding the provisions of this section or of section 944.14 of Priorities Regulation 1 as amended.

§ 4600.08 *Importation.* No person shall import any rubber, synthetic rubber or balata, or any finished or semi-finished product of which 10% or more by weight is composed of rubber, synthetic rubber or balata or any combination thereof except as permitted under this section.

For the purposes of this section, "import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States (including the Philippine Islands). It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States and shipments in bond into the continental United States for transshipment to Canada, Mexico, or any other foreign country.

The restrictions of this section shall not apply to any of the following:

(a) Any importation by Rubber Reserve Company, Rubber Development Corporation, or any Corporation organized under section (5) (d) of the Reconstruction Finance Corporation Act, as amended, or any agent acting for one or more of them.

(b) The importation by any person during any calendar month of products or materials (except tires, tire casings and tire tubes) which contain an aggregate of not more than twenty-five pounds of rubber, synthetic rubber and balata, provided such products or materials are not imported for the purpose of manufacturing, processing, sale or resale;

(g) The importation of any scrap rubber;

(h) The importation of any finished products made of rubber, synthetic rubber or balata by diplomatic representatives of any foreign government for their personal use or the use of members of their staffs;

(i) The importation of any finished product made of rubber, synthetic rubber or balata by commercial representatives of any foreign government for use in their official business;

(j) The importation from the Dominion of Canada by any person of rubber, synthetic rubber or balata or any products thereof manufactured in the continental United States, Canada or the British Isles.

Production and Operations

§ 4600.09 *Special regulations for tire and tube production.* No person shall manufacture tire and tube products except in accordance with the regulations prescribed in List 6 of Appendix II.

§ 4600.10 *Heel and sole products.* Each manufacturer of heel and sole products shall fill orders in the sequence established by the following pattern and may produce and ship orders classified in a lower group of the pattern only to the extent that such production and shipments do not interfere with the fulfillment of orders in each higher group:

Group No.	*Type of order*
1	Orders for manufacture or repair of shoes for U. S. Armed Forces.
2	Civilian orders for repair materials and for manufacture of rationed new shoes.
3	Orders for manufacture of shoes to fill Government orders other than U. S. Armed Forces.
4	All other orders.

Orders must be filled in accordance with the above pattern without regard to preference ratings.

§ 4600.11 *Garden hose.* Garden hose may be produced or delivered without regard to preference ratings. No person shall apply or extend any rating to garden hose, and no person selling garden hose shall require a rating as a condition of sale. Any rating purporting to be applied or extended to garden hose shall be void and no person shall give any effect to it.

§ 4600.12 *Regrooving tires.* No person shall regroove the tread or tread surface of any tire or tire casing (except airplane and bus mileage contract tire casings) whether by cutting, scraping, grinding, burning, heating, remolding or any other means. This restriction does not apply to the grooving of tires in the course of recapping or retreading or restoring the original design to tread sectional repairs.

§ 4600.13 *Recapping or retreading tires.* No person shall recap or retread a tire unless the tire is worn smooth in the middle of the tread. As used herein, a tire is "worn smooth" when the tread design is no longer visible.

§ 4600.14 *Destruction of scrap; consumption of rubber products.* No person shall destroy, damage, cut or tear apart any ground tire peals, uncured tire cord friction scrap, vulcanized scrap tires, tire parts (except tire beads), inner tubes or any cured or uncured scrap having a specific gravity of 1.15 or less, excluding tread buffings and fuel cell scrap. This restriction does not apply to any operation connected with the consumption of scrap rubber in accordance with the provisions of this order.

No person shall consume any new finished or semi finished product containing in the aggregate more than 10% by weight of rubber or synthetic rubber, except for the purpose for which it was designed.

Miscellaneous

§ 4600.15 *Reports.* The following reports shall be filed:

(a) Each person who owned any rubber, chlorinated or synthetic rubber during any calendar month, except scrap rubber, shall file with the Office of Rubber Director, War Production Board, a report on his stocks, receipts, production, consumption and shipments, on Form WPB–3410 in accordance with the instructions accompanying the form. This paragraph shall not apply to persons who perform the operations listed in § 4600.06 (c) of this order except that producers of reclaimed rubber shall report their entire production regardless of the ownership of the material consumed.

(b) Each manufacturer of tires and tubes or camelback, and any mass distributor who sells tires and tubes manufactured for him under his own brands or trade marks and whose sales volume of tires and tubes in 1941 exceeded 50,000 tires or 100,000 tubes, shall file a report on his production, shipments and inventory for each calendar month on Form WPB–3438 with the Office of Rubber Director, War Production Board, in accordance with the instructions accompanying the form, unless otherwise directed.

§ 4600.19 *Special authorizations to consume GR–S, reclaimed and scrap rubber in the manufacture of non-permitted products.* Any person who wishes to manufacture products which are not permitted by this order may apply for authorization to consume GR–S, reclaimed or scrap rubber under this section.

(a) *How to make application.* A person who wishes to obtain authorization should file his application on Form WPB–2242 with the War Production Board Field Office in the district in which the plant is located, accompanied by Form WPB–3820 (Statement of Manpower Information). In filing Form WPB–2242 it will be necessary to fill out sections I (Parts A, D, and E only), III and V (section V to be used to identify authorizations or pending applications under this §4600.19). Section II of Form WPB—3820 should be filled out in accordance with the instructions accompanying the form. If the application is approved, the person filing it will receive from the War Production Board an authorization showing the amounts of GR–S, reclaimed or scrap rubber which he may consume and any special conditions applicable to manufacture by him.

(b) *General policy in granting authorization.* Authorization under this section will in no case be granted if production will in any way interfere with war production or with the production of essential civilian articles. Labor and facilities to manufacture must be available to the applicant and not required for more essential purposes.

(c) *Relation to R–1 appeal procedure.* The normal appeal procedure will continue to apply in all cases which do not involve requests under this section for authorization to consume GR–S, reclaimed or scrap rubber in the manufacture of products not permitted by this order.

(d) This section shall take effect on September 1, 1944.

PERMITTED PRODUCTS FOR GOVERNMENT OR CIVILIAN ORDERS

NOTE: For general permitted uses of material in the manufacture of products, see above. In applying on Form WPB–3662 for those types of material which are subject to prior authorization, use this appendix in accordance with the instructions accompanying the form. The applicant's crude rubber, natural latex, neoprene, buna N or butyl requirements for each code number listed below must show the specific quantity of material requested for each subdivision of the code.

Form WPB–3662 may not be used in applying for permission to consume any material for a purpose which is not permitted by Appendix I.

Monthly consumption of crude rubber, natural latex, neoprene, buna N and butyl will be permitted on the basis of uses shown in this appendix, but only to the extent that material and manufacturing facilities are available after requirements for Army, Navy, Maritime Commission and other essential orders have been fulfilled.

COLUMNS AND SYMBOLS

Appendix II column refers to applicable regulations in Appendix II by list number.

The next two columns show to what extent crude rubber and butyl authorized on Form WPB–3662 may be used in the manufacture of particular products. Natural latex may not be used unless there is a reference to "latex" specifying its use.

The crude rubber and butyl columns are blank when applicable regulations in Appendix II or special restrictions in the last column limit the use of these materials.

"O" Indicates that the use of the material is prohibited, subject to any special restrictions or provisions applicable to the particular product. Any synthetic rubber may, however, be substituted for crude rubber when the use of crude is permitted, even though "O" appears opposite the product for the particular synthetic rubber.

"X" Indicates that the material may be consumed in the minimum quantities required by a manufacturer who has received authorization to consume on Form WPB–3662, subject to any special restrictions or provisions applicable to the particular product.

Percentage figures indicate maximum percent of total volume of compound, unless otherwise specified.

APPENDIX II—MANUFACTURING REGULATIONS

(a) *Applicability.* (1) This appendix sets forth certain compounding proportions and manufacturing regulations for many of the products listed in Schedule A of Appendix I. No person may manufacture the products governed by the lists attached to this appendix unless such product is manufactured in accordance with the applicable regulations set forth in this appendix.

(2) All regulations apply to all purchase orders, including both Government and Civilian orders, except where otherwise designated in the appropriate list.

(3) Regulations in the appendix do not apply to the manufacture of experimental products or experimental compounds designed for:

(i) The substitution of synthetic rubber, reclaimed rubber or scrap rubber for crude rubber and latex.

(ii) The conservation of crude rubber, latex, synthetic rubber, reclaimed rubber or scrap rubber.

(b) *General provisions.* (1) The total rubber hydrocarbon (sometimes designated RHC in this appendix) is the sum total of crude rubber and the average rubber hydrocarbon value of reclaimed rubber, expressed on a volume basis. The average rubber hydrocarbon value of reclaimed rubber shall be calculated from the rubber value of reclaimed rubber as certified by the manufacturer of the reclaimed rubber and shall be determined by the "difference (or indirect)" method.

(2) Reference to Army, Navy, Federal, Railroad, etc., specifications by number mean the latest issue or amendment of the particular specifications.

LIST 1—REGULATIONS FOR THE MANUFACTURE OF COMPOUNDS FOR MECHANICAL RUBBER GOODS

(a) *Applicability.* This List 1 establishes certain general provisions and regulations governing the compounds to be used in the manufacture of mechanical rubber products. These regulations shall apply to all mechanical goods compounds, whether manufactured from crude rubber, reclaimed rubber, synthetic rubber, latex, scrap or any combination of these materials.

(b) *General provisions.* (1) Compounds containing less crude rubber or latex than that amount designated either in Schedule A, Appendix I, or in lists now or hereafter attached to this Appendix II may be used in manufacturing products governed by said schedule or lists, provided the physical or service requirements, where designated, are met.

(2) All compounds shall be black, except where otherwise designated in Schedule A or in other applicable lists.

(3) Where maximum percent by volume for crude rubber and latex is designated, it shall include crude rubber used in cements to aid processing.

LIST 6—REGULATIONS FOR THE TIRE AND TUBE PRODUCTION PATTERN

(a) *Production pattern.* (1) In order to secure maximum output from existing tire and tube production facilities in accordance with the essentiality of demand, the following production pattern shall be observed and followed by all manufacturers, notwithstanding any other applicable order, regulation or authorization of the War Production Board.

PRODUCTION PATTERN

Group and Type of Product

1. Airplane tires and tubes:
   - (a) Large size tires, built on truck equipment.
   - (b) Small size tires, hand built or built on industrial pneumatic equipment.
   - (c) Other small size tires, built on passenger equipment.
   - (d) Tubes.
2. Truck-bus tires and tubes:
   - (a) Combat tires.
   - (b) Extra large size tires, 16.00 and larger cross-section.
   - (c) Large size tires, 9.00 through 14.00 cross-section except 9.00 x 16, 8 ply; also the following tires: 7.50 x 15, 10–12 ply; 8.25 x 15—10, 12 and 14 ply.
   - (d) Medium size tires (dual bead), all 10 ply up to and including 8.25 cross-section, excluding 7.50 x 15 and 8.25 x 15.
   - (e) Small size truck type tires (single bead) 8 ply and under, and 9.00 x 16, 8 ply; but excluding tires described in sub-group (f) below.
   - (f) Tires with 15 inch and 16 inch rim diameters, up to and including 7.50 cross-section (4, 6 and 8 ply only).
   - (g) Solid tires.
   - (h) Tubes.
3. Tractor-implement tires and tubes:
   - (a) Large size tires, over 7.50 cross-section.
   - (b) Front and small size tires, up to and including 7.50 cross-section.
   - (c) Tubes.
4. Industrial tires and tubes:
   - (a) Bogie rollers.
   - (b) Pressed-on solids.
   - (c) Cured-on solids.
   - (d) Pneumatic tires.
   - (e) Tubes.
5. Camelback and repair materials:
   - (a) Truck type and heavy duty.
   - (b) Passenger type.
6. Passenger and motorcycle tires and tubes:
   - (a) Tires.
   - (b) Tubes.
7. Bicycle tires and tubes:
   - (a) Tires.
   - (b) Tubes.

(2) The foregoing production pattern establishes the order of preference in which each manufacturer's interchangeable facilities must be used in the manufacture of tire and tube products and applies to facilities in each group or sub-group or in as many groups as are covered by the manufacturer's facilities.

(3) Where there is any degree of interchangeability in the use of the manufacturer's facilities, these facilities shall be extended to a lower group or sub-group in accordance with the production pattern when the manufacturer has established an inventory position not exceeding 15 days' supply in each higher group or sub-group for which the facilities are used. Inventories thus established shall be maintained in accordance with the production pattern.

For the purposes of this list, a 15-day inventory position means one-fourth of the manufacturer's sales during the preceding 60 day period.

For example: Assume that a 15-day position has been established in groups 1 and 2. This releases interchangeable facilities for the remaining groups in order of preference. When inventories are exhausted in groups 1 and 2, then any interchangeable facilities which are used in a lower group in the pattern must be diverted to groups 1 and 2 as soon as possible in order to re-establish an inventory not exceeding a 15-days' supply in groups 1 and 2 and in accordance with the pattern.

Another example: Requirements for Item f of group 2—truck tires of 15 inch and 16 inch bead diameter through 7.50 cross-section (these are also passenger type sizes) must be met to the extent of an inventory not exceeding a 15 days' supply before production facilities shall be used for regular passenger tires in group 6.

(4) The use of interchangeable tire and tube production facilities, except in accordance with the foregoing production pattern, is prohibited unless specific authorization in writing is secured from the Office of Rubber Director, War Production Board.

(b) *Miscellaneous provisions.* (1) Because of the urgency for maximum tire and tube production and in view of the critical manpower shortage, no manufacturer shall perform the following operations:

(i) Wrapping of tires, regardless of end use.

(ii) Removal of minor light spots and surface imperfections not actually harmful from a service standpoint.

(2) Deviations from normal manufacturing practices which are set forth in this paragraph (b) shall not be interpreted as permitting any relaxation of essential inspection of the finished product.

LIST 17—REGULATION FOR THE MANUFACTURE OF TIRE AND FLAP CURING BAGS

NOTE: List 17 amended Aug. 26, 1944.

(a) *Manufacturing regulations.* The manufacture of tire and flap curing bags of all sizes and types is subject only to the following regulations:

The use of crude rubber in the manufacture of tire and flap curing bags shall conform to the regulations shown in Table A or Table B.

TABLE A

The appropriate color shall be determined from paragraph (c) (2) of List 22, Appendix II.

LIST 18—REGULATIONS FOR THE MANUFACTURE OF AIRPLANE TIRE TUBES

NOTE: List 18 amended Aug. 25, 1944.

(a) *General provisions.* The crude rubber content of any tube governed by this List 18 shall not include processing losses or crude rubber used in valves.

(b) *Manufacturing regulations.* (1) Tubes of any size and type may be manufactured to fill both Government and civilian orders (subject, for Government orders, to the approval of the procuring agency) provided that crude rubber and latex are consumed only in valves (where permitted in List 33), valve adhesion pads, splicing gum strips and cements, and identification inks and cements.

LIST 20—REGULATIONS FOR THE MANUFACTURE OF VIBRATION MOUNT AND SHOCK ABSORBER

(a) *Manufacturing regulations.* (1) No crude rubber or natural latex may be consumed in the manufacture of compression type mountings or insulations regardless of shore durometer reading.

(2) No crude rubber or natural latex may be consumed in the manufacture of plate, sandwich, tubular or other types of shear mountings or insulations where the temperature of applications are minus 60° F. and above. Engine and instrument mounts for aircraft may be considered as falling in the applications functioning below minus 60° F. Therefore, crude rubber or natural latex may be consumed in the manufacture of plate, sandwich, tubular or other types of shear mountings or insulations for aircraft engine and instrument mounts.

(3) No crude rubber or natural latex may be consumed in the manufacture of motor-boating insulation, vibration dampers, hull bonded insulators, vibration dampers may be manufactured from crude rubber or latex until further notice.

(4) No crude or natural latex may be consumed in the manufacture of cushioning for cameras, or cushioning or parts for radio and radar instruments such as the cord figure eight insulator.

(5) No crude rubber or latex may be used for bonding cements and tie-coat compounds

(6) Unlimited plus or minus variations from average weight of total crude rubber and latex per pair are permitted provided the over-all consumption of crude rubber and latex does not exceed total permitted consumption on the basis of listed ceilings for all items manufactured.

LIST 22—REGULATIONS FOR THE MANUFACTURE OF COMPOUNDS FOR TIRES AND TIRE CASINGS

(a) *Applicability.* These regulations govern the manufacture of compounds for tires and tire casings. Other lists attached to Appendix II will govern the use of these compounds in the manufacture of finished products. These compounds need be used only when required by other regulations contained in lists attached to Appendix II. The variations permitted by this List 22 are allowed in the manufacture of finished products covered by other applicable lists unless expressly prohibited by such other lists.

(b) *Natural rubber compounds.* The composition of natural rubber compounds shall be governed by the regulations set forth in the following table:

Description of compound	Grade	Percent by volume			
		Crude rubber		Total RHC	
Type		Max.	Min.	Max.	Min.
Tread compounds	A	73. 0	71. 0	75. 0	71. 0
	B	59. 5	57. 4	74. 6	65. 0
Friction compounds	A	88. 5	83. 5	94. 2	83. 5
	B	78. 0	73. 0	94. 2	75. 0

(c) *Synthetic rubber compounds.* (1) No regulations are now designated for the manufacture of synthetic rubber compounds for tires and tire casings.

(2) The identification of the various types of synthetic rubber is effected by designating each type by a letter and a color.

Letter	Color	Type of synthetic
S	Red	GR–S (Buna S).
M	Yellow	GR–M (Neoprene).
I	Light blue	GR–I (Butyl).

(d) *Synthetic tire constructions.* (1) The distribution of synthetic rubber in tires and tire casings is controlled by the following synthetic construction identification numbers, which indicate the proportion of synthetic rubber to crude rubber, and the placement of the synthetic rubber.

Synthetic construction identification numbers:	*Type of synthetic*
S–3, S–4, S–5, etc	GR–S

(2) S–3 denotes 100% GR–S tread on a 100% GR–S carcass, except that:

Crude rubber may be used throughout the tire at the manufacturer's discretion, but shall not exceed, by weight, the following percentage of the sum of the crude rubber, GR–S synthetic rubber and reclaimed rubber hydrocarbon contents:

	Percent
Passenger and motorcycle	1. 25
Truck	2. 00
Airplane	2. 00
Combat	5. 00
All other	1. 50

Individual sizes may exceed the indicated maximum percentage, provided that the average crude rubber content of all sizes of the same type of tire does not exceed the indicated maximum percentage.

(3) S–4 denotes approximately 90% GR–S and 10% crude rubber, distributed throughout the tire at the manufacturer's discretion, except that:

Crude rubber may be used only to the extent permitted by the "maximum content crude rubber" designated.

(4) S–5 denotes 100% GR–S tread on a natural rubber carcass, except that:

Crude rubber may be used only in cements, in tread and side-wall splice gum strips and in the tire body, but only to the extent permitted by the "maximum content crude rubber" designated.

(5) S–6 denotes approximately 70% GR–S and 30% crude rubber, distributed throughout the tire at the manufacturer's discretion, except that:

Crude rubber may be used to the extent permitted by the "maximum content crude rubber" designated.

(6) S–7 denotes approximately 35% GR–S and 65% crude rubber, distributed throughout the tire at the manufacturer's discretion, except that:

Crude rubber may be used only to the extent permitted by the "maximum content crude rubber" designated.

(7) S–8 denotes approximately 93% GR–S and 7% crude rubber, distributed throughout the tire at the manufacturer's discretion, except that:

Crude rubber may be used only to the extent permitted by the "maximum content crude rubber" designated.

(a) *General provisions.* (1) The crude rubber content of any tire or tire casing governed by this List 24 shall not include processing losses or crude rubber used in curing bags.

(2) No crude rubber or latex shall be consumed in the cord treatment.

(3) On those sizes of natural rubber tires for which no "maximum content crude rubber" is designated, the compound grades shown under "compound designation" shall apply (the first letter designating the friction and the second letter designating the tread compound grade) and the composition of the compounds shall conform to the regulations set forth in List 22, Appendix II.

(4) On those sizes of synthetic rubber tires for which no "maximum content crude rubber" is designated, the tire construction shall be of the synthetic type designated and the compounds thereof shall conform to the appropriate regulations set forth in List 22, Appendix II.

(5) The use of rayon in the manufacture of tires and tire casings governed by this List 24 shall conform to the regulations set forth in List 22, Appendix II.

(6) When the cord used in any tire is of a gauge less than .027 inch as measured by the current ASTM standard in effect, the "maximum content crude rubber" permitted, if based on cotton construction, shall be reduced by 6 percent.

(7) Only one grade of tire may be manufactured in any size, ply and type, and that grade must be consistent with maintaining a quality adequate for the service for which the tire is designed.

(8) Where "Mud-Snow" type tread is designated in this List 24, tires with either directional or non-directional (ND) tread designs may be manufactured.

(9) Single marked high pressure type tires or single marked balloon type tires may be substituted for dual marked type tires.

(10) S–7 synthetic construction may be substituted for S–5 synthetic construction wherever S–5 is designated in this List 24, subject, for Government orders, to the approval of the procuring agency. The "maximum content crude rubber" designated for S–5 shall also apply to S–7.

(b) *Manufacturing regulations.* (1) Pneumatic tires of any size, ply and tread type may be manufactured provided that they conform to the regulations for S–3 synthetic construction tires in List 22, Appendix II.

(2) Solid tires (except bogie, idler, and support rollers), including cured-on solid tires, 4" x 1½" up, may be manufactured: *Provided*, That:

Crude rubber is consumed only as follows:

Hard rubber base type. Crude rubber shall be consumed only in cements and/or hard base and shall not exceed, by weight, ten percent of the sum of the crude rubber, synthetic rubber and reclaimed rubber hydrocarbon contents.

Tie-gum base (soft base) type. Crude rubber shall be consumed only in cement and/or tie gum and shall not exceed, by weight, eight percent of the sum of the crude rubber, synthetic rubber and reclaimed rubber hydrocarbon contents. Individual sizes may exceed the eight percent maximum, provided that the average crude rubber content of all sizes does not exceed the eight percent maximum.

(3) The manufacture of tires and tire casings consuming more crude rubber than permitted by paragraph (b) (1) and (b) (2) of this List 24 shall be limited to the sizes, plies and tread types listed in this paragraph (b) (3), subject to the maximum crude rubber contents or compound grades designated therefor.

(c) *Branding of tires.* (1) All natural rubber tires or tire casings manufactured to fill Civilian orders shall bear, on the serial side and near the serial number, a brand with the words "War Tire" and the letters designated under Compound Designation. Letters used to brand tires of a cross-section of 6.50 inches or more shall be at least one-fourth inch high, while those used to brand smaller tires shall be at least one-eighth inch high. This "War Tire" brand may (but need not) be applied to natural rubber tires or tire casings manufactured to fill Government orders, at the discretion of the manufacturer.

(2) All synthetic rubber tires or tire casings manufactured to fill either Civilian or Government orders shall have a colored dot, either circular or rectangular (with or without rounded corners or ends) and with an average effective dimension of at least one inch, vulcanized on both sides of the tire, the appropriate color to be determined from subdivision (c) (2) of said List 22. In addition, all synthetic rubber pneumatic tires or tire casings shall bear, on both sides of the tire and in characters at least five-eighths inch high, a brand showing the appropriate synthetic construction identification. The colored dot and the brand shall be permanent and may be superimposed if desired. The colored dot and synthetic construction identification may be smaller than the designated minimum on sizes of tires for which the designated minimum is unreasonably large.

(d) *Tolerances.* (1) On those sizes of natural rubber tires, in this List 24, for which no "maximum content crude rubber" is designated, but for which friction and tread compound grades are designated, a manufacturer can calculate the maximum amount of crude rubber and total RHC which may be used in the manufacture of a tire or tire casing of any such size. Within the maximum amounts thus calculated, a manufacturer may, at his discretion, shift the amounts between friction and tread.

(2) On those sizes, in this List 24, for which no "maximum content crude rubber" is designated, a manufacturer shall have, in each respective size, an operating tolerance on the content of crude rubber limited only by the maximum content designated.

(3) On those sizes, in this List 24, for which no "maximum content crude rubber" is designated but for which friction and tread compound grades are designated, the tolerance set forth in said List 22 shall apply.

(e) *Definitions.* (1) Where used in this List 24, "Standard Highway" as applied to tread type means regular skid-depth, "100" level, on-the-road type.

(2) Where used in this List 24, "Mud-Snow", as applied to tread type means extra-traction, on-and-off-the-road type.

LIST 25—REGULATIONS FOR THE MANUFACTURE OF TIRE TUBES (EXCEPT AIRPLANE AND BICYCLE TIRE TUBES)

NOTE: List 25 amended Aug. 26, 1944.

(a) *General provisions.* (1) The crude rubber content of any tube governed by this list 25 shall not include processing losses or crude rubber used in valves.

(2) Only one grade of tube may be manufactured in any size and type, and that grade must be consistent with maintaining a quality adequate for the service for which the tube is designed.

(3) The restrictions of this List 25 shall not apply to tubes for city and intercity bus mileage contract tires of cross-sections 10.00 and larger.

(b) *Manufacturing regulations.* (1) Tubes of any size and type may be manufactured to fill both Government and civilian orders (subject, for Government orders, to the approval of the procuring agency): *Provided*, That:

Crude rubber and latex may be consumed only in valves (where permitted in List 33), valve adhesion pads, splicing gum strips and cements, and identification inks and cements.

(2) The manufacture of tubes consuming more crude rubber than permitted by paragraph (b) (1) of this List 25 shall be limited to the sizes and types listed in Table A, subject to the maximum tube volumes and crude rubber contents designated therefor.

(3) The manufacture of tubes from GR–I shall be limited to the sizes and types listed in Tables A, B and C. No restriction is placed on maximum tube volumes or maximum content GR–I.

LIST 29—REGULATIONS FOR THE MANUFACTURE OF AIRPLANE TIRE AND TIRE CASINGS

(a) *General provisions.* (1) The crude rubber content of any tire or tire casing governed by these regulations, except tire casing liners, crude rubber used in curing bags or latex used in the cord treatment. Latex, however, shall be consumed only in the treatment of nylon cord.

Part A contains regulations applicable to the distribution or use of end products. Part B contains special or temporary manufacturing regulations which for the most part involve the conversion of products from crude rubber to synthetics. Part B manufacturing regulations govern in case of inconsistency with other provisions of Rubber Order R–1.

Appendix III will be reissued from time to time for the purpose of deleting or revising special or temporary regulations.

A. *End Product Regulations*

§ 4600.30 *Acquisition of tires and tubes for original equipment.* In order to obtain tires and tubes for original equipment, a manufacturer must certify his purchase order in substantially the following form signed by an authorized official unless the tires are subject to the Tire Allotment Plan (Appendix IV of this order), in which case the tires may be obtained only under Appendix IV:

The undersigned hereby certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the tires listed on the attached purchase order are required by him for mounting on original equipment and that the deliveries specified will not result at any time in an inventory exceeding 30 days' supply based upon his total authorized monthly production.

_____
Authorized official.

Use of the above certification constitutes a representation that the deliveries scheduled will not result in the acquisition of more tires and tubes (including inventory) than are required for the particular manufacturer's production of vehicles or equipment during the 30-day period following each scheduled delivery. In the event of a decrease in the number of products actually required, the manufacturer shall notify his supplier of the reduction, and the scheduled deliveries shall be revised accordingly.

§ 4600.31 *Acquisition of industrial type tires and tubes and solid tires for replacement purposes.* (a) No person shall deliver or accept delivery of any pneumatic tire described in paragraph (b) below for replacement on any passenger automobile, motorcycle, bus, farm implement, farm tractor or commercial motor vehicle except in accordance with OPA Ration Order 1A. The following certification procedure is applicable only to new pneumatic tires and tubes of the sizes and types described below for replacement on other types of vehicles and equipment and to any industrial or highway solid tire for replacement purposes regardless of the type of vehicle or equipment.

For example, a person who wishes to replace a straight side pneumatic tire in size 4.00–12 on a passenger car or small delivery truck, may do so only under the ration order. On the other hand, a person who requires the same tire for replacement on material handling equipment such as an industrial power truck uses the certification procedure.

Replacement tires or tubes of the following types are subject to the provisions of the ration order, even though the tires or tubes are required for industrial equip-

Use of the certification provided in that regulation constitutes a representation by the institution to its supplier that it requires light weight gloves manufactured from crude rubber or latex for use by its professional personnel in connection with the practice of medicine.

Sales may also be made to an institution, without a rating, upon certification by the institution to its supplier in substantially the following form:

The undersigned hereby certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the light weight rubber gloves specified in the attached purchase order are required by (insert name of institution) for use by its professional personnel in connection with the practice of medicine.

SECTION 1. *Explanation of the supplement.* (a) This supplement establishes maximum prices for sales of dehydrated noodle soup mixes by all persons except wholesalers and retailers (wagon wholesalers, however, are included).

(b) This supplement applies in the forty-eight states of the United States and the District of Columbia.

(c) This supplement supersedes the General Maximum Price Regulation[2] and Revised Supplementary Regulation 14 as to the commodities and sellers covered. All orders issued under the General Maximum Price Regulation shall remain in effect as orders under this supplement.

(d) This supplement becomes effective on August 29, 1944.

SEC. 2. *Applicability of Food Products Regulation No. 1.* Important: Not all of the provisions affecting the maximum prices of dehydrated noodle soup mixes are stated in this supplement. Those which are not specifically set forth here are stated in Food Products Regulation No. 1, and they are just as much a part of this supplement as if they were printed here. The "Explanation of the regulation" is also a part of this supplement.

The particular sections of Food Products Regulation No. 1 which are applicable to this supplement are listed at appropriate places in the following provisions (in each case, the section number set forth in parenthesis is the appropriate section number of Food Products Regulation No. 1). When any applicable section of the regulation is amended, the amendment also is applicable to this supplement.

The term also includes a person, other than a wholesaler, wagon wholesaler, or retailer who has "custom-packed" or "toll-packed," or manufactured and packed according to his specifications under his own brand, any part of what he sells of the kind and brand of dehydrated noodle soup mix being priced.

(b) The definitions of the following terms, set forth in the designated sections of Food Products Regulation No. 1 are applicable to this supplement:

"Records" (sec. 1.14 of FPR 1).

ARTICLE II—PRICING PROVISIONS

SEC. 4. *Maximum prices for sales of dehydrated noodle soup mixes by processors.* The processor's maximum price per dozen or other unit to any class of purchaser for an item of dehydrated noodle soup mix shall be his maximum price under the General Maximum Price Regulation or section 1.15 of Revised Supplementary Regulation 14, plus an increase per dozen or other unit, figured by multiplying $0.0037 by the number of ounces of egg noodles contained in the selling unit being priced. However, this section does not apply to processors whose maximum prices were established under § 1499.3 (b) of the General Maximum Price Regulation after February 20, 1943.

Example. A manufacturer's maximum delivered price for dehydrated chicken noodle soup mix under § 1499.2 of the General Maximum Price Regulation is $0.80 for a selling unit of one dozen 2¾ ounce packages. The amount of egg noodles in this selling unit is 20 ounces. His new maximum delivered price will be $0.80 plus a figure computed by multiplying $0.0037 x 20 ounces (egg noodle content), or $0.074 ($0.87) per dozen 2¾ ounce packages.

SEC. 5. *Maximum prices for sales of dehydrated noodle soup mixes by processors where subsequent formula changes are made*—(a) *Applicability.* The provisions of this section shall apply only in those cases where subsequent formula changes are made and where the volume of the end-product of the new formula product is fairly equivalent to the volume of the end-product made from the original formula product.

(b) *Method of determining maximum prices.* On and after August 29, 1944 every processor who shall change his original formula for the manufacture of a dehydrated noodle soup mix either by the substitution, elimination or reduction of one or more of its ingredients shall determine the maximum price of his new product for that size, as follows: He shall

(1) Figure the current ingredient costs per his customary selling unit of all ingredients according to his original formula.

(2) Figure the current ingredient costs per his customary selling unit of all ingredients of his new formula for the product which he is pricing.

(3) Determine the percentage relationship of the new formula ingredient costs to the original formula ingredient costs ((2) divided by (1)), and

(4) Apply the result determined in (3) to the following percentage table to determine his maximum price per his customary unit for his new formula product:

*Copies may be obtained from the Office of Price Administration.

[1] 9 F.R. 6711.
[2] 9 F.R. 1285, 5169, 6106.

Current cost of ingredients in original formula (percent)	Current cost of ingredients in new formula as related to original formula	Requirement to reduce original maximum price
100	Not less than 95%	None.
100	Less than 95% but not less than 90%	5% of current original formula ingredient cost.
100	Less than 90% but not less than 85%	10% of current original formula ingredient cost.
100	Less than 85% but not less than 80%	15% of current original formula ingredient cost.
100	Less than 80% but not less than 75%	20% of current original formula ingredient cost.
100	Less than 75% but not less than 70%, etc.	25% of current original formula ingredient cost.

(c) *Examples of calculations.* (1) A processor of a 2 ounce package of dehydrated beef noodle soup mix has a maximum price of $1.40 per case established under the General Maximum Price Regulation or Supplement to Food Products Regulation No. 1 for his original formula product. This price is his original maximum price. The current cost of ingredients in the formula used to manufacture the product for which his price was originally established under the General Maximum Price Regulation or Supplement to Food Products Regulation No. 1 called herein the original formula, is 60¢ per case. The current cost of ingredients in the new formula is 56¢ per case. The relation of current costs as between original formula and new formula being 93.3%, the original maximum price must be reduced by 5% of the current original formula cost, or 3¢. The processor's new maximum price is $1.37 per case.

(2) The same processor later changes his formula again so that at that time the current cost of ingredients in the original formula is 61¢ per case and the current cost of the ingredients of the new formula which he is pricing is 54¢ per case. The relation of current costs as between original formula and new formula being 88.5%, the original maximum price must be reduced by 10% of the current original formula cost, or 6.1¢. The processor's new maximum price is $1.34 per case.

(3) The same processor later changes his formula again so that at that time the current cost of ingredients of the original formula is 62¢ per case and the current cost of the ingredients of the new formula which is being priced is 59¢ per case. The relation of current costs as between original formula and new formula being 95.1%, the processor's original maximum price need not be reduced. The processor's maximum price for this new formula product is now $1.40 per case.

(d) *Processors having more than one factory.* In the case of those processors producing dehydrated noodle soup mixes at more than one factory, the ingredient costs per unit may be averaged for all factories in determining the new formula cost. This provision applies only when the maximum selling price for the article is the same for shipments from all factories.

(e) *Relation to original maximum price.* No maximum price for any new formula product calculated under the provisions of this section shall ever exceed the maximum price established under the General Maximum Price Regulation or Supplement 8 to Food Products Regulation No. 1 for the original formula product.

(f) *Discounts and allowances.* Discounts, allowances and terms, whether based on quantity, class of purchaser, or any other cause, shall be no less favorable to any purchaser of a new formula product than those in effect with respect to the original formula product.

(g) *Distributors.* In case the processor's maximum price for any item is lowered under this section, all distributors of the item shall make a corresponding reduction in their maximum prices in accordance with the notification which the processor is required to give under paragraph (h).

(h) *Notification.* Whenever a formula change is made and a new maximum selling price is determined under the provisions of this section, the processor making such change shall before or at the time of first delivery to each purchaser supply him with the appropriate written notice set forth below. And for a period of 90 days thereafter the processor shall include with the smallest shipping unit a written notice to retailers. If this retailer notice is enclosed in a shipping unit, a legend shall be affixed outside of such unit to read, "Retailer's Notice Enclosed." The written notices, except for the proper insertions to be made by the processor, shall read as follows:

(Insert date)

NOTICES TO WHOLESALERS AND RETAILERS

The Office of Price Administration has authorized us to inform you that if you are a wholesaler or retailer pricing this item under Maximum Price Regulations Nos. 421, 422, or 423, you must refigure your ceiling price for the new formula product in accordance with the applicable provisions of those regulations (See section 6 in each case). You must refigure your new ceiling price on the first delivery of this item to you on or after August 29, 1944.

(Insert date)

NOTICE TO DISTRIBUTORS OTHER THAN WHOLESALERS AND RETAILERS

A change in the formula of _____ has resulted in a lowering of our cost to produce that product. OPA requires that such reduction in costs, amounting to _____ per _____ of packages shall be deducted from our previously established price. If you are a distributor other than a wholesaler or retailer, you must reduce your maximum price to the extent that the amount of our reduction is equal to any full cent per your customary selling unit.

(i) *Reports.* Every processor who shall change his original formula or shall make a subsequent formula change of a dehydrated noodle soup mix which shall require the establishment of a new maximum price, shall file with the Office of Price Administration, Washington, D. C., within 10 days after the date of the first delivery of the new formula product a verified statement showing (1) his actual current purchase price for each ingredient used to produce the product by the original formula, (2) the actual current purchase price for each ingredient used to produce the products by the new formula, (3) the name of his supplier of each ingredient, (4) his current cost of such ingredients per his customary selling unit of the manufactured product for both the original and the new formula, (5) his original maximum selling price, and (6) his new maximum selling price. If any processor claims that substantial hardship would result to him from filing the statement required by the provisions of this paragraph he may submit the information requested in this paragraph for inspection by the Office of Price Administration, Washington, D. C., and then withdraw such information and substitute therefor a statement that the information required has been submitted and is available from the processor in the event the Price Administrator determines that the withholding thereof is inconsistent with the purposes of the Emergency Price Control Act of 1942 as amended.

(j) *Definitions.* When used in this section, the term:

"End-product" means the finished product as prepared according to the directions on (or in) the container, and as described by the processor.

"Current" means at the time of calculating, but in no event more than 30 days before the date of the processor's first delivery of the new product.

"Ingredient cost" means the actual invoice cost of a customary quantity of any ingredient plus delivery charge, if incurred, from the customary supplying point via the customary mode of transportation. In the absence of actual invoice cost, the potential cost may be substituted. Where an ingredient in the original formula is omitted entirely in the new formula, the processor shall use as the current cost of that commodity the most recent invoice cost of a customary quantity plus transportation charges if incurred.

"New formula" means the combination and proportion of ingredients which constitute the new product and which used according to the directions on (or in) the container, will produce the fairly equivalent volume of end-product as the original formula product.

"Fairly equivalent" in volume means within 5% of the volume of the old product when prepared according to the same directions as the processor supplied with the old product.

"Original formula" means the combination and proportion of ingredients used to produce the product for which the maximum price was first established under the provisions of the General Maximum Price Regulation or Supplement 8 to Food Products Regulation No. 1.

"Original maximum price" means the maximum price first established under the provisions of the General Maximum Price Regulation, §§ 1499.2 and 1499.3 as amended, or Supplement 8 to Food Products Regulation No. 1, for the item of dehydrated noodle soup mix.

SEC. 6. *Maximum prices for sales of dehydrated noodle soup mixes by wagon wholesalers.* Wagon wholesalers shall figure their maximum prices per dozen or other unit for each item of dehydrated noodle soup mix by adding to their net delivered cost a markup of 25% of such cost. These maximum prices shall be refigured on receipt of an item whenever there is any change in the net delivered cost.

A "wagon wholesaler" is one who purchases the item being priced and distributes it to retailers or to commercial, industrial or institutional users from an inventory stocked in trucks or other conveyances which are under the supervision of driver salesmen who make delivery at the time and place of sale. Such a wholesaler is a wagon wholesaler only for sales made in this manner.

SEC. 7. *Maximum prices for sales by distributors who are not wagon wholesalers, wholesalers or retailers.* The maximum price, f. o. b. shipping point, of a distributor who is not a wagon wholesaler, wholesaler or retailer, shall be the maximum price of his supplier, f. o. b. shipping point, plus incoming freight paid by him.

PART 1366—USED CONSUMER DURABLE GOODS

[MPR 429,[1] incl. Amdts. 1-4]

CERTAIN USED CONSUMER DURABLE GOODS

This compilation of Maximum Price Regulations 429 includes Amendment 4, effective August 29, 1944. The text added or amended by Amendment 4 is underscored.

In the judgment of the Price Administrator, the maximum prices established by this Maximum Price Regulation No. 429 are and will be generally fair and equitable and will effectuate the purpose of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250. A statement of considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.[2]

Insofar as this regulation uses specifications and standards which were not, prior to such use, in general use in the trade or industry affected, or insofar as their use was not lawfully required by another government agency, the Administrator has determined, with respect to such standardizations, that no practicable alternative exists for securing effective price control with respect to the commodities subject to this regulation.

[Above sentence added by Supplementary Order 59, 8 F.R. 12552, effective 9-11-43]

§ 1366.1 *Maximum prices for certain types of used consumer durable goods.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 429 (Ceiling Prices for Certain Types of Used Consumer Durable Goods), which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1366.1 issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E.O. 9250, 7 F.R. 7871; and E.O. 9328, 8 F.R. 4681.

[Above list amended by Am. 4, effective 8-29-44]

SEC. 3. *Antiques and objects of art.* This regulation does not cover the sale of antiques and objects of art. An article is an antique if it is more than 75 years old, tends to increase rather than decrease in value because of its age and is commonly known and dealt in as an antique by the trade.

SEC. 4. *What transactions and persons are covered by this regulation.* (a) This regulation covers all sales by any person to any other person with the following exceptions only:

(1) Sales by a householder of goods which he did not originally acquire for the purpose of selling or renting. (Sales in the course of trade or business by agents of householders, or by dealers or auctioneers whether for their own account or for the account of a householder or anyone else, and sales of used goods out of a residence as a regular business are covered.)

[Subparagraph (1) amended by Am. 1, 8 F.R. 13742, effective 10-5-43 and Am. 4, effective 8-29-44]

(2) [Revoked]

[Subparagraph (2) revoked by Am. 1, 8 F.R. 13742, effective 10-5-43]

(3) Sales by the War Department, the Department of the Navy of the United States, or the Procurement Division of the Treasury Department.

(4) Sales at wholesale. A sale at wholesale is a sale to a person who buys for the purpose of reselling the goods, rather than for use. Sales at wholesale remain covered by the General Maximum Price Regulation.

(b) "Person" includes an individual, corporation, partnership or any other organized group of persons; their legal successors, or representatives; the United States or any Government, or any of their political subdivisions.

[Paragraph (b) amended by Am. 1, 8 F.R. 13742, effective 10-5-43]

SEC. 5. *How to determine your ceiling prices.* (a) First, you must find the price of a new article (which is the same as or similar to the used article you are pricing), according to the rules in section 6.

(b) Second, you must find the class in which the used article you are pricing belongs. (Class I or Class II—See section 7).

(c) You then find your ceiling price which is either ¾ or ⅓ of the price of the new article, depending on the class in which the used article you are pricing belongs.

SEC. 6. *How to find the price of the new article.* You find the price of the new article by using these rules in the order in which they appear:

(a) *Rule 1.* Find the retail selling price of the same article, new, for sale in your own stock.

(b) *Rule 2.* If you do not have the same article, new, in stock, find the retail selling price of a similar article, new, in your own stock. A used article is "similar" to a new article if the used article has the same uses and when new would give fairly equivalent service. In addition, the used article, when new, must have sold for approximately the same price as the similar new article now sells for.

(c) *Rule 3.* If you do not have a similar article, new, in stock, find the retail selling price of the same article, new, in the same shopping area. (The shopping area is the area in which persons in your community shop for new goods of the kind you are pricing.)

(d) *Rule 4.* If the same article, new, is not for sale in the same shopping area, find the retail selling price of a similar article, new, for sale in the same shopping area. A used article is "similar" to a new article if the used article has the same use and when new would give fairly equivalent service. In addition, the used article, when new, must have sold for approximately the same price as the similar new article now sells for.

(e) *Rule 5.* If the same or similar article is not being sold in your community, find the retail selling price when this article was last sold in your community.

(f) *Rule 6.* If you cannot find the retail selling price under any of these Rules above, apply to the appropriate Office of Price Administration District Office, for information on how to determine your price.

Remember, if you can find the price of the new article in Rule 1, you cannot use Rules 2, 3, 4, 5, or 6. If you can use Rule 2, you cannot use Rules 3, 4, 5, or 6. If you can use Rule 3, you cannot use Rules 4, 5, or 6. If you can use Rule 4, you cannot use Rules 5 or 6.

SEC. 7. *How to determine the class of a used article*—(a) *Class I.* An article is a Class I article if:

(1) No part is missing which is necessary to make the article fully useful.

(2) The article is in good working condition, can be used by the consumer for the purpose intended without further repair, and the article is clean and its appearance is good.

For example: In the case of floor covering, upholstered furniture and bedding, the fabric must be clean and substantially free from burns, cuts, tears, stains, frayed edges, faded colors, and worn spots.

(b) *Class II.* An article is a Class II article if it is not in Class I.

SEC. 8. *How to find the ceiling price for each class.* The ceiling price for the used article must be no more than:

Class I. ¾ (75%) of new.

Class II. ⅓ (33⅓%) of new.

Example for Class I: If the selling price of a new article is $40, you determine the ceiling price of the used article by multiplying $40 by 3 and dividing the result by 4; 3 times $40 is $120; $120 divided by 4 is $30; $30 is the ceiling price for the Class I used article.

Example for Class II: The selling price of the new article is $30. To determine the ceiling price of the used article, you divide the $30 by 3; $30 divided by 3 is $10. This is the ceiling price for the Class II used article.

No sales, attempts to sell, offers to sell or deliveries shall be made at prices higher than the ceiling price. Of course, sales may be made at lower than ceiling prices.

[Sec. 8 amended by Am. 1, 8 F.R. 13742, effective 10-5-43]

SEC. 8a. *Sales by manufacturers of reconditioned and guaranteed articles.* Nothwithstanding the provisions of section 8 of this regulation, any manufacturer of an article covered by this regulation who sells the article directly to consumers, reconditioned and with a guarantee equivalent to that offered with the article when sold new, may upon securing written authorization from the Office of Price Administration, Washington, D. C., sell the article to consumers at the same price he charged them for it during March 1942.

[Sec. 8a added by Am. 4, effective 8-29-44]

SEC. 9. *Fixing of dollars-and-cents ceiling prices for certain articles by Regional or other offices of the Office of Price Administration.* Any Regional Office of the Office of Price Administration or such other offices as may be authorized by the appropriate Regional Office, may by order fix dollars-and-cents ceiling prices for the sales by any or all sellers of any articles covered by this regulation in any area or locality within its jurisdiction. Any order fixing maximum prices issued under the authority of this provision will supersede the provisions of this regulation with respect to sales subject to such order.

[Sec. 9 amended by Am. 4, effective 8-29-44]

SEC. 10. *Adjustment of prices under certain circumstances.* Any regional office of the Office of Price Administration or such other offices as may be authorized by the proper regional office may grant permission to any person subject to this regulation to charge a higher price for the sale of any rebuilt or reconditioned article than is permitted by this regulation if it is found that:

(a) The article is essential, and is one of which there is a serious shortage.

(b) There has been expended (in the course of rebuilding, reconditioning, or renovating the used article) a substantial amount for labor and materials.

[5] 8 F.R. 5929, 7114.

(c) (i) If the reconditioner is the retailer, considering the substantial amount expended for labor and materials, the establishment of a price by the Class I formula would result in a price so low that he could not reasonably be expected to continue to recondition or rebuild the article, or

(ii) If the reconditioner is not the retailer, considering the properly established maximum price charged the retailer by the reconditioner, the establishment of a price by the Class I formula would result in a price so low that the retailer can not reasonably be expected to sell the article.

For further information consult with your nearest district office of the Office of Price Administration.

Until such permission is granted the ceiling price is the price fixed by this regulation.

[Paragraph (c) amended by Am. 2, 9 F.R. 3084, effective 3-27-44]

SEC. 11. *Credit, delivery, packing and other charges.* (a) Any additional charge for credit, packing, delivery, or anything else which is not quoted and billed separately is considered part of the selling price. You may charge for those services only to the extent allowed by this section.

(b) If you were engaged in the business of selling goods during March 1942, and during that month made a separate charge for the extension of credit, or for delivery or packing, you may make a charge for any of those services on the sale of goods covered by this regulation no greater than the charge you made during March 1942, and you must quote and bill those extra charges separately.

[NOTE: Revised Supplementary Order No. 34 (8 F.R. 12404) permits, under certain conditions, the addition of extra packing expenses to be added to maximum prices on sales to procurement agencies of the United States.]

(c) If you were not engaged in business during March 1942, or if you did not extend credit or delivery or packing service during that month, you may make a charge for any of those services rendered the buyer, no greater than the charge made by your closest competitor selling used goods, who makes a separate charge for that service. You must quote and bill those extra charges separately.

(d) You cannot require the customer to take any of these services.

[Sec. 11 amended by Am. 1, 8 F.R. 13742, effective 10-5-43]

SEC. 12. *Evasion, licensing and enforcement*—(a) *Evasion.* You must not evade any of the provisions of this regulation by any scheme or device, or by any practice which has the effect of getting a higher-than-ceiling price. Specifically, you cannot offer to sell used goods covered by this regulation only on condition that the customer agree to pay for reconditioning, repairing, or rebuilding to be performed by you before or after he buys the merchandise or only on condition that the customer buy goods which he does not wish to buy. If the customer buys an article from you, and asks you to rebuild it or recondition it, the total amount which you receive on account of the sale of the goods and on account of the reconditioning or rebuilding cannot exceed the ceiling price of the goods if you offered the goods for sale as Class I goods.

You may not use the published list price as the price of the new article under section 6, if that published list price was generally not observed by sellers of new goods. Section 6 requires you to find the actual selling price of the new article.

(b) *Licensing.* The provisions of Licensing Order No. 1,[10] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[Paragraph (b) amended by Supplementary Order 72, 8 F.R. 13244, effective 10-1-43]

(c) *Enforcement.* On and after September 1, 1943, you are subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended, if you violate any provision of this regulation.

[NOTE: Supplementary Order No. 7 (7 F.R. 5176) provides that war procurement agencies and governments whose defense is vital to the defense of the United States shall be relieved of liability, civil or criminal, imposed by price regulations issued by the Office of Price Administration.]

SEC. 13. *Posting ceiling price notice.* If you are a retailer, you must post a sign no smaller than 11" x 17" in size, in a place that is permanently and clearly visible to all customers for used goods. Your nearest Office of Price Administration office can help you get this sign. This sign must read substantially as follows except that you may omit from it any articles not sold in your store.

[Docket Nos. G-567 and G-568]

HOPE NATURAL GAS CO.

NOTICE OF APPLICATIONS

AUGUST 25, 1944.

Notice is hereby given that on August 12, 1944, Hope Natural Gas Company, a West Virginia corporation having its principal place of business at 445 West Main Street, Clarksburg, West Virginia, filed with the Federal Power Commission two (2) applications for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain natural gas transmission facilities described in such applications as follows:

(1) *Docket No. G-567.* Applicant constructed during the latter part of 1943 a compressor station known as Lee Compressor Station located adjacent to Applicant's transmission line number H-255 near Odaville, Jackson County, West Virginia, which consists mainly of:

One vertical gas engine of 1,000 horsepower. Four low stage compressors which are attached direct to the 1,000 horsepower gas engine. Four Bentube section water coolers. Gas coolers. Building consisting of main pump house and auxiliary machinery structure and auxiliary machinery consisting of water pumps, air compressor, tanks, pipe and fittings and other miscellaneous equipment.

In the application it is stated that the construction of these facilities has enabled Applicant to withdraw natural gas from the Oriskany gas sand wells located in the northern Oriskany producing field in Jackson County, West Virginia, which would not otherwise have been obtainable due to the high pressure in Applicant's line against which the Oriskany wells were required to deliver.

(2) *Docket No. G-568.* Applicant has installed the following facilities at its existing Fink Compressor Station in Lewis County, West Virginia:

Three high pressure gas compressors, scrubbers and coolers to replace low pressure equipment. One 20" x 36" 500-horsepower gas engine, gas compressor and appurtenant equipment.

Applicant has installed one high pressure gas compressor to replace low pressure equipment at its existing Marts Compressor Station in Lewis County, West Virginia.

Applicant has constructed 9.4 miles of 12-inch high pressure pipe line between its Fink Compressor Station and its Marts Compressor Station and removed the pipe line formerly connecting the said two compressor stations, which pipe line was constructed of 6-inch, 8-inch and 10-inch pipe.

In the application it is stated that the foregoing construction was begun during the summer of 1942, and completed in the fall of 1943.

It is stated further in the application that the construction and operation of the above-described facilities enable Applicant to utilize to the fullest extent its Fink Storage Area both for peak day and annual gas deliveries, and to serve more adequately the retail and wholesale demands upon Applicant's system.

Any person desiring to be heard or to make any protest with reference to said applications should, on or before the 11th day of September, 1944, file with the Federal Power Commission a petition or protest in accordance with the Commission's Provisional Rules of Practice and Regulations under the Natural Gas Act.

Each of the carriers forthwith shall file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs or schedules, or supplements to filed tariffs or schedules, setting forth any changes in rates, charges, operations, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or schedules, or supplements, to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

3. Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

6. The plan for joint action hereby approved and all contractual arrangements made to effectuate the plan shall not continue in operation beyond the effective period of this order.

7. Communications concerning this order should refer to "Supplementary Order ODT 6A-41" and, unless otherwise directed, should be addressed to the Highway Transport Department, Office of Defense Transportation, Washington, D. C.

This order shall become effective August 29, 1944, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 25th day of August 1944.

Chapter III—Bureau of Entomology and Plant Quarantine

[B. E. P. Q. 536]

PART 301—DOMESTIC QUARANTINE NOTICES

MODIFICATION OF GIPSY MOTH AND BROWN-TAIL MOTH QUARANTINE

Introductory note. These administrative instructions authorize the interstate movement of Christmas trees and evergreen boughs from the generally infested area regulated under the gypsy moth quarantine after fumigation and certification. Experiments have demonstrated that fumigation of gypsy moth egg clusters under specified conditions will kill the eggs. Experience gained during the past 2 years in the use of fumigation as a basis of certification for movement from the lightly infested area has indicated that such treatment is practicable.

§ 301.45b In accordance with the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by the second proviso of § 301.45 (Notice of Quarantine No. 45, on account of the gypsy moth and brown-tail moth), § 301.45-3 (b) [paragraph (2) of Regulation 3] is hereby modified effective August 26, 1944, to provide that Christmas trees and evergreen boughs originating in the regulated areas may be certified for interstate movement to points outside such areas when fumigated with methyl bromide by methods approved by the Chief of the Bureau under the direction of an inspector.

Disclaimer. Experience of the past 2 years has indicated that fumigation with methyl bromide may be accomplished without appreciable injury to the trees or boughs. However, it is expressly understood that no liability shall attach either to the United States Department of Agriculture or to any of its employees in the event of injury to these products or to operators.

Caution. Methyl bromide is a gas at ordinary temperatures. It is colorless and practically odorless in concentrations used for fumigation of trees and boughs. It is a poison and the operators should use gas masks approved by the United States Bureau of Mines for use with methyl bromide, when exposed to the gas in concentrations used in fumigation. The products in the fumigation chamber should be well aerated by blowing air through them, and the car adequately ventilated before it is entered.

* * * * *

(Revenue Act of 1943, Title II.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1942.

PAR. 4. Section 29.26–4 is amended as follows:

(A) By striking from the second paragraph that portion of the second sentence immediately preceding (a) and inserting in lieu thereof the following:

In the case of the following corporations, however, the credit with respect to taxable years beginning prior to January 1, 1944, is an amount of which the excess profits tax imposed by Subchapter E of Chapter 2 is 90 percent, and, with respect to taxable years beginning after December 31, 1943, is an amount of which such excess profits tax is 95 percent:

(B) By changing the last paragraph to read as follows:

If the excess profits tax of a corporation imposed by Subchapter E of Chapter 2 for a taxable year beginning after December 31, 1941, is finally determined by the use of the excess profits credit based upon constructive average base period net income determined under section 722, or if the corporation is entitled to and uses such excess profits credit in the computation of its excess profits tax for such year without the necessity of filing an application for relief on Form 991 (revised January, 1943) under section 722 (see § 35.722–5 (d)), the credit under section 26 (e) allowable in computing the normal tax and surtax shall be the amount of the corporation's adjusted excess profits net income, as defined in section 710 (b), computed with the use of the excess profits credit based upon constructive average base period net income.

However, if such corporation computes its excess profits tax as provided in (a), (b), (c), or (d) of this section, the credit under section 26 (e) with respect to taxable years beginning prior to January 1, 1944, shall be the amount of which the excess profits tax imposed by Subchapter E of Chapter 2, computed as provided by the second paragraph of this section, is 90 percent, and with respect to taxable years beginning after December 31, 1943, shall be the amount of which such excess profits tax so computed is 95 percent.

PAR. 5. Section 29.47–1 is amended by striking out the next to the last sentence in the first paragraph and inserting in lieu thereof the following:

In the case of a return by a corporation for a fractional part of a year, the credit provided by section 26 (e) for the income of the corporation subject to excess profits tax, for taxable years beginning prior to January 1, 1944, is considered the amount of which the excess profits tax of the corporation imposed for the taxable year computed without regard to the tax deferment under section 710 (a) (5) is 90 percent, and for taxable years beginning after December 31, 1943, the amount of which such excess profits tax so computed is 95 percent. As to the definition of tax imposed, see section 26 (e). In the case of a corporation whose excess profits tax for a taxable year of less than 12 months is computed under section 721, 726, 731, or 736 (b), the credit provided by section 26 (e) shall be computed as provided in that section. See § 29.26–4.

PAR. 6. Section 29.47–2 is amended as follows:

(A) By striking out the next to the last sentence in the second paragraph of paragraph (a) and inserting in lieu thereof the following:

If the corporation computes its excess profits tax under section 711 (a) (3) (B), the credit provided in section 26 (e) is computed for taxable years beginning prior to January 1, 1944, as the amount of which the tax of the corporation imposed for the short period and computed under section 711 (a) (3) (B) without regard to the tax deferment under section 710 (a) (5) is 90 percent, and for taxable years beginning after December 31, 1943, the amount of which such excess profits tax so computed is 95 percent. As to the definition of tax imposed, see section 26 (e). In the case of a corporation whose excess profits tax for a taxable year of less than 12 months is computed under section 721, 726, 731, or 736 (b), the credit provided by section 26 (e) shall be computed as provided in that section. See § 29.26–4.

(B) By striking out the fifth and sixth sentences of the second paragraph of paragraph (b) and inserting in lieu thereof the following:

In the case of a corporation, the credit provided by section 26 (e) for the adjusted excess profits net income of the corporation is computed for taxable years beginning prior to January 1, 1944, as the amount of which the excess profits tax imposed for such 12-month period, computed without regard to the tax deferment under section 710 (a) (5), is 90 percent, and for taxable years beginning after December 31, 1943, the amount of which such excess profits tax so computed is 95 percent. In the case of a corporation whose tax is computed under sections 721, 726, 731, or 736 (b), the credit provided by section 26 (e) shall be computed as provided in that section. See § 29.26–4. The excess profits tax imposed for such 12-month period shall be computed as provided in section 26 (e), and is the excess profits tax for the short period plus, for any taxable year which includes only part of such 12-month period, such part of the excess profits tax for such taxable year as is allocable to the part of the 12-month period included in such taxable year.

(C) By striking out the last sentence of the fourth paragraph of paragraph (b) and inserting in lieu thereof the following:

In computing the tax of a corporation for the short period without placing its net income on an annual basis, the adjusted excess profits net income of the corporation is, for the purpose of determining the credit under section (26) (e) for taxable years beginning prior to January 1, 1944, the amount of which the excess profits tax of the corporation imposed for the short period computed with-

out regard to the tax deferment under section 710 (a) (5) is 90 percent, and for taxable years beginning after December 31, 1943, the amount of which such excess profits tax so computed is 95 percent. As to the definition of tax imposed, see section 26 (e). In the case of a corporation whose tax is computed under section 721, 726, 731, or 736 (b), the credit provided by section 26 (e) shall be computed as provided in that section. See § 29.26–4.

PAR. 7. There is inserted immediately preceding section 109 the following:

SEC. 108. CERTAIN FISCAL YEAR TAXPAYERS. (Revenue Act of 1943, Title I.)

(a) *In general.* Section 108 (relating to certain fiscal years) is amended to read as follows:

SEC. 108. FISCAL YEAR TAXPAYERS.

* * * * * * *

(b) *Taxable years beginning in 1943 and ending in 1944.* In the case of a taxable year beginning in 1943 and ending in 1944, the tax imposed by sections 11, 12, 13, 14, 15, and 450 shall be—

(1) *Corporations.* In the case of a corporation, an amount equal to the sum of—

(A) that portion of a tentative tax, computed as if the law applicable to taxable years beginning on January 1, 1943, were applicable to such taxable year, which the number of days in such taxable year prior to January 1, 1944, bears to the total number of days in such taxable year, plus

(B) that portion of a tentative tax, computed as if the law applicable to taxable years beginning on January 1, 1944, were applicable to such taxable year, which the number of days in such taxable year after December 31, 1943, bears to the total number of days in such taxable year.

(2) *Taxpayers other than corporations.* In the case of a taxpayer other than a corporation, an amount equal to the sum of—

(A) that portion of a tentative tax, computed as if the law applicable to taxable years beginning on January 1, 1943, were applicable to such taxable year, which the number of days in such taxable year prior to January 1, 1944, bears to the total number of days in such taxable year, plus

(B) that portion of a tentative tax, computed as if the law applicable to taxable years beginning on January 1, 1944, were applicable to such taxable year, which the number of days in such taxable year after December 31, 1943, bears to the total number of days in such taxable year.

(c) *Special classes of taxpayers.* This section shall not apply to an insurance company subject to Supplement G, an investment company subject to Supplement Q, or a Western Hemisphere Trade Corporation, as defined in section 109.

(b) *Taxable years to which applicable.* Section 108 (a) of the Internal Revenue Code, as amended by subsection (a) of this section, shall be applicable to taxable years beginning in 1941 and ending after June 30, 1942. The other amendments made by subsection (a) of this section shall be applicable only to taxable years beginning in 1943 and ending in 1944.

§ 29.108–1 *Computation of tax for taxable years beginning in 1943 and ending in 1944.* For a taxable year beginning in 1943 and ending in 1944, the normal tax, surtax, and victory tax imposed by sections 11, 12, and 450 upon taxpayers other than corporations, and the normal tax and surtax imposed by sections 13, 14, and 15 upon corporations shall be computed as follows:

(a) *Corporations.* In the case of a corporation, the normal tax and the surtax shall be the sum of the following:

(1) That portion of a tentative normal tax and surtax, computed under the law applicable to taxable years beginning on January 1, 1943, which the number of days prior to January 1, 1944, in the taxable year of the taxpayer bears to the total number of days in such taxable year, and

(2) That portion of a tentative normal tax and surtax, computed under the law applicable to taxable years beginning on January 1, 1944, which the number of days after December 31, 1943, in the taxable year of the taxpayer bears to the total number of days in such taxable year.

The provisions of section 108 apply to estates, trusts, and nonresident alien individuals whose tax is computed under sections 11 and 12. The method of computation prescribed in section 108 is not applicable, however, to an insurance company subject to Supplement G, an investment company subject to Supplement Q, or a Western Hemisphere Trade Corporation as defined in section 109.

The provisions of section 108 apply to a taxable year beginning in 1943 and ending in 1944, whether or not such taxable year is one of less than 12 months. In the case of a taxpayer, whether a corporation or a taxpayer other than a corporation, which is subject to the provisions of section 108 (b) and which due to a change in accounting period has a taxable year of less than 12 months, the net income shall be placed upon an annual basis under the provisions of section 47 (c) (1) for the purpose of both tentative tax computations under section 108 (b) (1) (A) and (B) or section 108 (b) (2) (A) and (B), or shall be computed under the exception in section 47 (c) (2), for the purpose of both such tentative tax computations. Regardless of the method adopted, the amounts of the tentative normal tax and surtax so computed upon the basis of 12 months' income shall be properly reduced under section 47 (c) in order to determine the tentative taxes under section 108 (b) (1) (A) and (B) or section 108 (b) (2) (A) and (B). However, in the case of a taxpayer, whether a corporation or a taxpayer other than a corporation, which is subject to the provisions of section 108 (b) and which due to any reason other than a change in accounting period has a taxable year of less than 12 months, the net income shall not be placed on an annual basis under section 47 (c) (1) and shall not be computed under the exception in section 47 (c) (2).

In any case in which the taxpayer, whether a corporation or a taxpayer other than a corporation, which is subject to the provisions of section 108 (b) has an excess of net long-term capital gains over net short-term capital losses, the alternative tax under section 117 (c) shall be an amount equal to the sum of the proper portions of the tentative taxes determined under section 108 (b) (1) (A) and (B) or section 108 (b) (2) (A) and (B), as the case may be, by computing each such tentative tax pursuant to the alternative tax computation provided in section 117 (c), regardless of whether either tentative tax so computed on the alternative basis is larger or smaller than the tentative tax computed without regard to section 117 (c).

In the case of a corporation whose taxable year begins in 1943 and ends in 1944, the credit under section 26 (e) for income subject to the tax imposed by Subchapter E of Chapter 2 (the excess profits tax), for the purposes of the first tentative tax computation provided in section 108 (b) (1) (A), shall be the adjusted excess profits net income used in computing the first tentative excess profits tax provided in section 710 (a) (6) (A), and for the purposes of the second tentative tax computation provided in section 108 (b) (1) (B), shall be the adjusted excess profits net income used in computing the second tentative excess profits tax provided in section 710 (a) (6) (B) with the following exceptions:

In the case of a taxable year of a corporation of less than twelve months, the credit under section 26 (e) for income subject to excess profits tax, for the purpose of both tentative taxes under section 108 (b) (1) (A) and (B), shall be an amount computed as provided in §§ 29.47–1 or 29.47–2 (a) or (b), depending upon whether or not such taxable year is a year of less than 12 months because of a change in accounting period and upon whether the net income has been placed on an annual basis under section 47 (c) (1) or has been computed as the net income for a 12-month period under the exception contained in section 47 (c) (2).

In the case of a corporation computing its excess profits tax under section 721 (relating to abnormalities in income in the taxable period), section 726 (relating to corporations completing contracts under the Merchant Marine Act of 1936), section 731 (relating to corporations engaged in mining strategic minerals), or section 736 (b) (relating to corporations with income from long-term contracts), such credit for income subject tot excess profits tax shall be in the case of the tentative tax computed under section 108 (b) (1) (A), the amount of which the first tentative excess profits tax computed under the provisions of section 710 (a) (6) (A) without regard to the 80 percent limitation provided in section 710 (a) (1)

(B) is 90 percent, and in the case of the tentative tax computed under section 108 (b) (1) (B), the amount of which the second tentative excess profits tax, similarly computed under the provisions of section 710 (a) (6) (B), is 95 percent.

With respect to the credit for income subject to the excess profits tax imposed by Chapter 2 E in case the corporation is entitled to use the excess profits credit based upon a constructive average base period net income, see § 29.26–4.

In the case of a taxpayer, whether a corporation or a taxpayer other than a corporation, subject to the provisions of section 108 (b), any credit against the tax otherwise imposed by sections 11, 12, 13, 14, 15, and 450, such as the credit for taxes paid to a foreign country or possession of the United States under section 131, shall be deducted from, and any limitations contained in such credit shall be based upon, the tax computed under section 108 (b). However, in those instances in which a taxpayer other than a corporation computes the second tentative tax under section 108 (b) (2) (B) by taking into account the optional standard deduction under section 23 (aa) as added by section 9 of the Individual Income Tax Act of 1944, the following credits shall be computed only with respect to that portion of the first tentative tax determined under section 108 (b) (2) (A): All credits under section 131 with respect to taxes of foreign countries and possessions, and all credits with respect to taxes withheld at the source under section 143 (a) relating to interest on tax-free covenant bonds.

Example. Corporation A is a domestic manufacturing corporation which makes its income tax returns on the basis of a fiscal year ending March 31. For the fiscal year ended March 31, 1944, it had a gross income of $1,000,000, which did not include any dividends or interest. Its allowable deductions are $400,000, its excess profits credit is $200,000, and there are no adjustments to be made under section 711 in computing excess profits net income. Its adjusted excess profits net income for the purposes of the first tentative excess profits tax computed under section 710 (a) (6) (A) is $395,000, and for the purposes of the second tentative excess profits tax computed under section 710 (a) (6) (B) is $390,000. The normal tax and surtax of Corporation A for its fiscal year ended March 31, 1944, are $49,498.36 and $32,998.91, respectively, computed as follows:

PAR. 9. Section 29.141–1 (c) is amended by striking from the first paragraph thereof the word "and" immediately after the semicolon in (5); and by inserting "; and" in lieu of the period at the end of (6); and by inserting immediately preceding the next to the last paragraph the following:

(7) With respect to taxable years beginning after December 31, 1943, a personal service corporation described in section 725 (a), or a corporation described in section 727 (e), (g), or (h) which without regard to the exception stated in the initial clause of section 727 would be exempt from the excess profits tax imposed by Subchapter E of Chapter 2. The corporations described in section 727 (e), (g), and (h) are personal holding companies as defined in section 501, certain domestic corporations satisfying the conditions prescribed in section 727 (g) with respect to gross income, and certain corporations subject to the provisions of Title IV of the Civil Aeronautics Act of 1938 satisfying the conditions prescribed in section 727 (h). If any corporation which would otherwise not be an includible corporation under section 141 (e) (7) has made and filed a consent for any taxable year beginning after December 31, 1943, to be treated as an includible corporation, the exception provided in section 141 (e) (7) and this subsection shall not be applicable to such corporation for the taxable year for which such consent is filed or for any subsequent taxable year. Such corporation filing a consent shall be deemed to be an includible corporation for all such years regardless of whether the affiliated group of which such corporation is a member during such years is the same as the affiliated group of which it was a member when the consent was filed. Such consent shall be made by the corporation on Forms 1122 and 1122E which shall be prepared and filed in the manner prescribed by § 23.12 (b) and § 33.12 (b) and shall be subject to all the provisions contained in such sections. Such consent shall state that under the provisions of section 141 (e) (7) of the Internal Revenue Code the corporation consents to be considered an includible corporation for the taxable year for which the consent is filed and for all subsequent taxable years regardless of whether the affiliated group of which such corporation is a member during such years is the same as the affiliated group of which such corporation was a member when the consent was filed.

PAR. 10. There is inserted immediately preceding section 605 as set forth in § 21.0 (b) the following:

TITLE 29—LABOR

Chapter VI—National War Labor Board

PART 803—GENERAL ORDERS

INCREASES IN WAGES AND SALARIES IN HAWAII

By virtue of and pursuant to the authority conferred on it by General Order No. 36 of the National War Labor Board,[1] the Territorial War Labor Board for Hawaii has adopted the following resolutions:

General Resolution No. 1. (a) The Territorial War Labor Board for Hawaii hereby approves all increases in wage and salary rates which were placed in effect on or before June 6, 1944, including increases first reflected in a payroll subsequent to June 6, 1944, if provided for by written agreement or formally determined and communicated to the employees, and applicable to work done on or before that date.

(b) All such increases shall be subject to the right of the Board to review and to order the discontinuance of further payment of all or part thereof.

(c) All increases taking effect after June 6, 1944 are subject to the approval of the Board. (Adopted July 10, 1944)

General Resolution No. 2. Pursuant to the provisions of § 803.36 (b) (3) of General Order No. 36, adjustments in the wage and salary rates of employees of the various county governments of the Territory of Hawaii, and of the City and County of Honolulu, may be made effective without the approval of the Territorial War Labor Board for Hawaii. It is expected, however, that the authorities of such governmental bodies will observe and abide by the same stabilization policies as are applicable generally in the Territory. (Adopted July 17, 1944)

General Resolution No. 3. (a) Adjustments may be made in the wage and salary rates of individual employees without the approval of the Territorial War Labor Board for Hawaii if they are made pursuant to an established wage or salary rate schedule which was in existence prior to June 6, 1944, and are based upon (1) individual merit; (2) length of service; or (3) the operation of an apprentice or trainee plan.

(b) Such individual increases may not result in any appreciable increase in the level of production costs and shall not furnish a basis either to increase prices or to resist otherwise justifiable reductions in prices. Nor shall such increases be made the basis for an application to the Board for the approval of wage or salary rate increases to eliminate intra-establishment inequities.

(c) In order to have an established wage or salary rate schedule within the meaning of paragraph (a) hereof, an employer must have (1) clearly defined job classification wage or salary rate ranges and (2) a plan for making individual adjustments within such wage or salary rate ranges. All such plans for making individual adjustments within rate ranges must be clearly set forth in a collective bargaining agreement or other bona fide employment contract or in written statements, minutes, or memoranda of the employer, which were in existence and effect on June 6, 1944.

(d) All such individual adjustments may be made only within the clearly defined job classification wage or salary rate ranges.

(e) The provisions of this resolution are intended to supplement § 803.36 (b) (1) of General Order 36 of the National War Labor Board. Nothing herein contained shall be construed to conflict with or supersede the provisions of that section. Employers may not, however, make adjustments under both this resolution and § 803.36 (b) (1) of General Order No. 36. Employers who possess an established wage or salary rate schedule, as defined in paragraph (c) hereof, may adopt the plan for making individual adjustments contained in § 803.36 (b) (1) of General No. 36 in lieu of the plan provided for by their schedule: *Provided, however,* That if there exists a duly recognized or certified labor organization which is entitled to bargain on wage matters for any or all of the employees affected, the consent of such labor organization to the adoption of the new plan is obtained. (Adopted July 17, 1944.)

General Resolution No. 4. (a) Organizations established as non-profit community chest funds, foundations, or cemetery companies, and organizations operated without profit and exclusively for religious, charitable, scientific, literary, or educational purposes, including non-profit hospitals, which have been exempted from the payment of income and social security taxes, may file an application with the Territorial War Labor Board for Hawaii for an exemption from the necessity of obtaining the approval of the Board of wage and salary adjustments of their employees. Such application for exemption shall state the ground upon which the exemption is requested, the nature of the activities of the organization, and the types or classifications of its employees, and shall be accompanied by a copy of its most recent payroll.

(b) Any such exemption, if granted, shall continue in effect only until further order of the Board, and shall be subject to revocation by the Board at any time.

(c) Any organization to which an exemption is granted pursuant to the provisions of this resolution will nevertheless be expected to observe and abide by the same stabilization policies as are applicable generally in the Territory, and wage and salary adjustments made by such organizations shall be subject to the right of the Board to review and to order the discontinuance of further payment of all or part thereof. (Approved as amended, July 24, 1944.)

General Resolution No. 5. Bonuses which are regularly paid to employees on a percentage, incentive, or other similar basis shall be included in computing the amounts of the increases in the wage and salary rates of the individual employees permissible without Board approval under § 803.36 (b) (1) of General Order No. 36 of the National War Labor Board. (Adopted August 7, 1944)

General Resolution No. 6. A bonus paid by an employer to an employee severing his employment for the immediate purpose of entering the armed forces of the United States does not require the approval of the Territorial War Labor Board for Hawaii. (Adopted August 7, 1944)

General Resolution No. 7. The hiring of an individual employee at a wage or salary rate in excess of the rate previously established in the plant for employees of similar skill and productive ability within the classification in which the individual is employed constitutes a wage or salary increase which requires the approval of the Territorial War Labor Board for Hawaii. (Adopted August 7, 1944)

General Resolution 8. No increase in individual wage and salary rates granted by an employer without Board approval pursuant to § 803.36 (b) (1) of General Order No. 36 of the National War Labor Board shall result in the payment to any employee of a rate in excess of the highest rate paid by the employer between June 7, 1943, and June 6, 1944, for jobs of similar skill, duties and responsibility. (Adopted August 7, 1944)

Executive Director.

PART 662—SPECIAL PANEL LOCAL BOARDS IN PENAL OR CORRECTIONAL INSTITUTIONS

MISCELLANEOUS AMENDMENTS

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

---

[1] 9 F.R. 7511, 7645, 8978, 9078.

1. By rescinding the provisions of Amendment No. 253, effective August 24, 1944, and substituting therefor the provisions of this amendment.

2. Amend § 662.1 to read as follows:

§ 662.1 *Special panel local boards.* The Director of Selective Service may establish a panel of any local board which has jurisdiction over the area in which any penal or correctional institution is located. Such panel shall be known as a special panel local board and with respect to the persons in such penal or correctional institution shall have the same rights, duties, and powers as any other local board.

3. Amend § 662.2 to read as follows:

§ 662.2 *Regulations governing registrants in penal or correctional institutions.* Local boards and special panel local boards, as to registrants referred to in this part of these regulations, shall be governed by the provisions of this part of these regulations and such other provisions of these regulations as are not in conflict therewith.

4. Amend the regulations by adding a new section to be known as § 662.2–1 to read as follows:

§ 662.2–1 *Registrants placed in Class IV–F.* Whenever a local board forwards the selective service records of a registrant to a special panel local board under the provisions of this part of these regulations, such local board shall first reopen the classification of such registrant and place him in Class IV–F if he is not already so classified.

5. Amend § 662.3 to read as follows:

§ 662.3 *Transfer of record of registrants.* (a) When a registrant, age 18 through 37, enters an institution having a special panel local board, the clerk of such special panel local board shall immediately complete a Request for Transfer of Record (Form 64) and transmit it to the local board having jurisdiction of the address given on line 2 of his Registration Card (Form 1).

(b) When the local board having jurisdiction of the address given on line 2 of the Registration Card (Form 1) of a registrant, age 18 through 37, receives a Request for Transfer of Record (Form 64) from the special panel local board in an institution which he has entered or when such local board otherwise learns that the registrant has entered an institution having a special panel local board, it shall (1) make a duplicate of the Cover Sheet (Form 53) and a copy of the Registration Card (Form 1) of such registrant; (2) forward such duplicate Cover Sheet (Form 53) and a copy of Registration Card (Form 1) together with all other papers pertaining to such registrant to the special panel local board at the institution which the registrant has entered; and (3) retain in its files the original Cover Sheet (Form 53), the original Registration Card (Form 1), a copy of the letter covering the transmittal of the registrant's records to the special panel local board, and the Request for Transfer of Record (Form 64) if this was received.

6. Amend § 662.4 to read as follows:

§ 662.4 *Registration.* (a) When, at the time fixed for his registration, a person required to present himself for and submit to registration is confined in an institution having a special panel local board, he shall be immediately registered. When a person required to present himself for and submit to registration has not done so prior to the time he enters an institution having a special panel local board, he shall be immediately registered. When any such person refuses to register, any person authorized to act as registrar shall sign the person's name and indicate that he has done so by signing his own name, followed by the word "Registrar," beneath the name of such person, and the act of such registrar in so doing shall have the same force and effect as if such person had signed his name to the Registration Card (Form 1), and such person shall thereby be registered.

(b) When a person has heretofore or is hereafter registered at an institution having a special panel local board, the special panel local board shall complete a copy of his Registration Card (Form 1) and retain it in its records. The special panel local board shall then transmit the original Registration Card (Form 1) to the local board having jurisdiction over the address given on line 2 of such Registration Card (Form 1) if such local board is known. Otherwise the special panel local board shall forward such Registration Card (Form 1) to its State Director of Selective Service for transmittal through channels to the proper local board. The special panel local board shall accompany the transmission of each such Registration Card (Form 1) with a letter requesting the local board having jurisdiction over the address given on line 2 of the Registration Card (Form 1) to assign to the registrant a serial and order number and to immediately advise the special panel local board of the serial and order number thus assigned.

(c) Upon being advised of the serial and order number assigned to the registrant by the local board having jurisdiction of the address given on line 2 of such registrant's Registration Card (Form 1), the special panel local board shall enter the serial and order number on its copy of such registrant's Registration Card (Form 1).

7. Amend § 662.5 to read as follows:

§ 662.5 *Registrars.* Any member or clerical assistant of, or any other person appointed as a registrar by, a special panel local board may perform the duty of a registrar.

8. Amend § 662.6 to read as follows:

§ 662.6 *Classification.* (a) As soon as the special panel local board receives the records of a registrant under the provisions of § 662.3, it shall, unless the registrant is already so classified, reopen his classification and classify him in Class IV-F and immediately notify the local board having jurisdiction of the address given on line 2 of such registrant's Registration Card (Form 1) of such classification.

(b) As soon as the special panel local board registers a registrant under the provisions of § 662.4, it shall require such registrant (1) to complete his Selective Service Questionnaire (Form 40); (2) if he claims to be a conscientious objector, to complete Special Form for Conscientious Objector (Form 47); and (3) to furnish such other information as the local board may require. It shall then classify such registrant in Class IV–F and advise the local board to which his original Registration Card (Form 1) was transmitted under the provisions of § 662.4 that the registrant has been so classified.

(c) At any time within 90 days of the date when a registrant who is an inmate of a penal or correctional institution having a special panel local board will be eligible for parole, pardon, or conditional or other release from the institution, the special panel local board may reopen his classification and, if it determines to forward such registrant for consideration of the armed forces, shall classify such registrant in Class I–A or Class I–A–O; or, if it determines to forward such registrant for consideration for work of national importance, shall classify such registrant in Class IV–E.

(d) If a registrant forwarded for consideration for service under the provisions of paragraph (c) is inducted into the armed forces, the classification of such registrant shall be reopened and the registrant classified in Class I–C. If such registrant is delivered for work of national importance, the fact of such delivery shall be noted following his IV–E classification. In all other cases, the registrant shall be classified in Class IV–F at the time he leaves the institution and at the time his records under the provisions of § 662.8 are transmitted to the local board having jurisdiction of the address given on line 2 of his Registration Card (Form 1).

9. Amend § 662.7 to read as follows:

§ 662.7 *Induction or assignment.* When a registrant is an inmate of a penal or correctional institution which has a special panel local board and has been classified in a class available for service, the local board of which such special panel local board is a panel shall make arrangements for his delivery for induction or for his assignment to work of national importance.

10. Amend § 662.8 to read as follows:

§ 662.8 *Disposition of record of registrant who leaves an institution.* (a) When a registrant leaves an institution having a special panel local board, all papers with reference to such registrant except his duplicate Cover Sheet (Form 53) and a copy of his Registration Card (Form 1) shall be forwarded to the local board having jurisdiction of the address given on line 2 of his Registration Card. (Form 1).

(b) For each registrant who leaves the institution, the special panel local board shall transfer to a separate file for completed cases the duplicate Cover Sheet (Form 53), the copy of the Registration Card (Form 1), and a copy of the letter

covering the transmittal of the records of such registrant to the local board having jurisdiction of the address given on line 2 of such registrant's Registration Card (Form 1).

The foregoing amendments to the Selective Service Regulations shall be effective within the Continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the Continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

Chapter VIII—Foreign Economic Administration

Subchapter B—Export Control

[Amdt. 212]

PART 808—PROCEDURE RELATING TO SHIPMENT OF LICENSED EXPORTS TO THE OTHER AMERICAN REPUBLICS

SHIPMENTS MADE BY SEA FREIGHT

Part 808, Procedure relating to shipment of licensed exports to the other American Republics, is hereby amended to read as follows:

§ 808.1 *Applicability.* (a) The regulations prescribed in §§ 808.3 to 808.7 apply to exportations of all commodities set forth in § 801.2 of this subchapter under any type of export license to be made by sea freight to any of the following destinations:

Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, Paraguay, Peru, Uruguay, and Venezuela.

(b) The regulations prescribed in §§ 808.3 to 808.7 apply to exportations of newsprint to be made by sea freight to any of the destinations listed in paragraph (a) of this section and also to the following additional destinations:

Costa Rica, Cuba, Dominican Republic, El Salvador, Guatemala, Haiti, Honduras, Mexico, Nicaragua, and Panama.

§ 808.2 *Non-applicability.* None of the regulations of this Part shall apply to liquid commodities licensed for export to be shipped in bulk by tanker, or to commodities to be exported under general license "GUS".

§ 808.3 *Shipments not requiring Statements of Cargo Availability.* (a) Shipments of any commodity licensed for export to any destination listed in paragraph (a) of § 808.1 other than Argentina, weighing less than 10,000 pounds (even though it is a partial shipment of a larger licensed quantity) may be booked by the exporter or his agent directly with the steamship company without the submission of a Statement of Cargo Availability or compliance with the procedure set forth in §§ 808.4 to 808.7 except that the provisions of this paragraph shall not apply to shipments of newsprint.

(b) Shipments of newsprint licensed for export to any of the destinations listed in § 808.1, and shipments of any commodity licensed for export to Argentina, weighing less than 2240 pounds (even though it is a partial shipment of a larger licensed quantity) may be booked by the exporter or his agent directly with the steamship company without the submission of a Statement of Cargo Availability or compliance with the procedure set forth in §§ 808.4 to 808.7.

(c) Where the entire quantity of a commodity or commodities is ready to be shipped at the same time the exporter or his agent may not split such commodity or commodities into shipments weighing less than 10,000 pounds or 2240 pounds, as the case may be, in order to arrange direct booking with the steamship company. Nothing herein contained shall prohibit the exporter or his agent from making partial or periodic shipments under § 804.2 (d) of this subchapter.

§ 808.4 *Shipments requiring Statements of Cargo Availability.* (a) Subject to the provisions for newsprint and for shipments to Argentina specified in paragraph (b) of this section, no shipment of any commodity or commoditits weighing 10,000 pounds or more for which a license has been issued permitting the exportation thereof may be booked for shipment by or with a steamship company or exported to any destination listed in paragraph (a) of § 808.1 unless:

(1) The exporter or his agent has submitted a Statement of Cargo Availability covering such shipment on the form and in the manner prescribed by these regulations.

(2) The shipment has been certified for booking with a steamship company by the Division of Cargo Control, War Shipping Administration.

(3) The shipment has been transported to or within the port area from which the shipment is to be made pursuant to an effective unit permit issued by or under the authority of the Office of Defense Transportation, unless such unit permit is not required for the movement of the particular shipment; and

(4) The shipment has been booked with a steamship company within ninety (90) days after the date such shipment has been certified for booking by the Division of Cargo Control, War Shipping Administration and such booking has been approved by the Division of Cargo Control, War Shipping Administration. In the case of commodities which, because of their bulk or the necessity for special handling, require special consideration with respect to the period of movement, the provision that such shipment shall be booked with a steamship company within such ninety (90) day period shall not apply. If the shipment has been booked with a steamship company within ninety (90) days after the Statement of Cargo Availability has been certified for booking, the actual date of loading aboard a vessel may take place after such ninety (90) day period.

(b) No shipment weighing 2240 pounds or more of any commodity or commodities for which a license has been issued permitting the exportation thereof may be booked for shipment by or with a steamship company or exported by sea freight to Argentina unless the provisions of subparagraphs (1) through (4), inclusive, of paragraph (a) of this section have been complied with by the exporter or his agent. No shipment of newsprint weighing 2240 pounds or more may be booked for shipment by or with a steamship company or exported by sea freight to any of the destinations specified in paragraphs (a) and (b) of § 808.1 unless the provisions of subparagraphs (1) through (4) inclusive, of paragraph (a) of this section have been complied with by the exporter or his agent.

§ 808.5 *Form of Statement of Cargo Availability.* A Statement of Cargo Availability shall be made on Form FEA-138 or Form FEA-166 in accordance with the instructions for use of such form as prescribed by the Requirements and Supply Branch. All provisions, instructions, terms and conditions contained in the forms are hereby incorporated as a part of the regulations in this subchapter, except insofar as inconsistent with the provisions of the regulations in this part, in which event the regulations in this part shall govern.

§ 808.6 *Filing procedure*—(a) *Who may file.* Any person to whom an export license has been granted or his agent may file Statements of Cargo Availability. Any person authorized to export under a general license or the agent of any such person may file Statements of Cargo Availability.

(b) *Where to file.* (1) Statements of Cargo Availability made on Form FEA-138 shall be filed with the Transportation Division, Foreign Economic Administration, c/o Division of Cargo Control, War Shipping Administration, 39 Broadway, New York 6, New York, except that any such form which covers shipments of newsprint shall be filed with the Foreign Economic Administration, Washington 25, D. C.

(2) Statements of Cargo Availability made on Form FEA-166 shall be filed with the Foreign Economic Administration, Washington 25, D. C.

(3) For shipments which originate in Canada and which are to be transshipped from a United States port, or for shipments which originated in Canada and which are in the United States awaiting transshipment, Statements of Cargo Availability shall be filed with the Canadian Shipping Priorities Committee, West Block, Ottawa, Canada, on the form prescribed by said Committee.

(c) *Preparation of Statements of Cargo Availability.* (1) A separate Statement of Cargo Availability may be submitted for each part of a licensed exportation as such part becomes ready for shipment, except that no application need be filed for a partial shipment which is less than 10,000 pounds in gross weight, or 2240 pounds in the case of shipments to Argentina and shipments of newsprint.

(2) Where the applicant desires to ship a number of commodities destined to one or more ultimate consignees or purchasers from one or more licensees (or one or more exporters in the case of

commodities moving under general license), and the shipment is made by a single consignor to a single consignee, one consolidated Statement of Cargo Availability may be filed.

(3) If the proposed shipment includes commodities moving under individual license or licenses, and also includes commodities moving under general license or licenses, separate Statements of Cargo Availability may be filed for the commodities moving under individual license and the commodities moving under general license.

(4) Where the Statement of Cargo Availability is for commodities to be shipped under general license, the general license number shall be placed in the blank space requiring a license number.

(5) In answer to the question pertaining to gross weight and cubic measurement (if shipped on a measurement basis) an approximation may be made if exact figures are not ascertainable.

(6) The description of the commodities shall be stated in the same terms required for description of commodities in application for individual licenses.

(7) No Statement of Cargo Availability for commodities under general license shall be submitted unless and until the applicant has a firm order for the commodities covered by the statement from the purchaser stated therein.

(d) *Certain commodities; multiple consignees.* Statements of Cargo Availability may specify more than one consignee subject to the following conditions:

(1) All consignees named must be located at a single foreign port.

(2) The names and addresses of all proposed consignees shall be listed and a copy thereof attached as a part thereof to each copy of the Statement of Cargo Availability submitted. This list shall be typewritten in a vertical column and shall not bear evidence of erasure or alteration.

(3) One or more of the proposed consignees may be rejected, the quantity reduced, or both, by the Foreign Economic Administration by noting the same thereon.

(e) *Certain associations; multiple consignors.* Any association organized pursuant to the Export Trade Act (U. S. C. Title 15, section 61) may, upon specific authorization from the Foreign Economic Administration, file in the name of the association a combined application for freight space on Form FEA–138, subject to the following conditions:

(ii) Ship only to such consignees as are approved by the Foreign Economic Administration.

(iii) Not file individual Statements of Cargo Availability. This agreement is effective as of _____ and may be revoked upon thirty (30) days written notice to the Foreign Economic Administration.

_____
(Signature)

(2) Upon filing a combined Statement of Cargo Availability the Association shall state the gross tonnage desired for all members who are to participate in the application and upon certification for booking by War Shipping Administration, the tonnage certified shall be divided by the Association among the members represented by such certified application.

(3) The Association shall notify the Foreign Economic Administration and the War Shipping Administration of the particular commodity and amount thereof each member proposes to ship against the certified Statement of Cargo Availability.

(4) The members shall then book their proposed shipments directly with the steamship company under the serial number assigned to the certified Statement of Cargo Availability.

(5) When the shipments have cleared port, the members shall notify the Association of the amount of the commodity shipped, and the name of each consignee to whom shipment was made.

§ 808.7 *In transit shipments.* Whenever a Statement of Cargo Availability is required in connection with any shipment proceeding under a general in transit license, the spaces in the application form for the name and address of the consignor shall contain the name and address of the original consignor in the foreign country and the name and address of the United States shipper or forwarder.

Subdivision (i) of subparagraph (2) of paragraph (a) of § 802.13 *Ship and plane stores, supplies and equipment* is hereby amended to read as follows:

(i) Bunker fuel for use or consumption on board during the outgoing and any immediate return voyage, which, in the case of exportation on a vessel operating under a certificate issued by one of the agencies described in subdivision (iii) of subparagraph (1) of this paragraph, shall not exceed the amount recommended by an authorized representative of the War Shipping Administration by endorsement on said certificate. This limitation shall not apply to any vessel which has received approval from the Combined Military Transport Committee to order and export an amount greater than specified in the certificate for the purpose of building up reserve stocks of such bunker fuel at friendly foreign ports.

PART 1041—PRODUCTION, TRANSPORTATION, REFINING AND MARKETING OF PETROLEUM

[Preference Rating Order P–98–b, Direction 1, as Amended Aug. 26, 1944]

PETROLEUM INDUSTRY HOUSING

The following direction is issued pursuant to Preference Rating Order P–98–b:

(a) *What this direction does.* This direction deals with these types of housing:

(1) Houses owned by a petroleum operator and used by his employees; and

(2) Houses owned by a petroleum operator or the employee of an operator which are located within or adjacent to any field in which operations for the discovery, development or depletion of petroleum are being conducted (lease equipment housing).

All such housing is included by any reference in this direction to "housing covered by this direction."

This direction tells how to get any necessary permission to use material in such housing. It also tells how to get preference ratings and allotment symbols for materials to be used in such housing. For convenience, the various rules in this direction are discussed on the basis of the branch of the petroleum industry in connection with which the housing is used.

When used in this direction, "repair" means upkeep in sound working condition,

and "construction," "construct," or "build" means any work other than upkeep in sound working condition.

REPAIR OF HOUSING

(b) *Repair of housing in all branches of the industry.*

(1) *Special permission not needed.* Material may be used by the owner or occupant to repair any housing covered by this direction without the need to get any special permission from a Government agency.

(2) *Rating and symbol for an operator.* An operator may get material to repair any housing covered by this direction under the regular procedure of Order P-98-b covering maintenance and repair material.

(3) Rating and symbol for an employee of a *production operator.* An employee of a production operator may use preference rating AA-3 and allotment symbol MRO-P-3 to repair any housing covered by this direction. The rating and symbol are not valid unless placed on the delivery order for the material to be purchased, and unless the original and two copies of the delivery order are submitted for approval to the PAW District Office for the District in which the housing is located, marked "Ref: P-98-b." The delivery order may not be placed with a supplier until the original and one copy are approved and returned to the employee. Each delivery order placed by an employee (or a statement accompanying it) must show the standard certification of paragraph (g) of Order P-98-b and, in addition, the following certificate, signed by both employer and employee:

Preference rating AA-3 and allotment symbol MRO-P-3. The items on this (or on the attached) delivery order are required by the undersigned employee for use in connection with lease equipment.

(Position)

CONSTRUCTION OF HOUSING

(c) *Construction of housing in production by an operator*—(1) *Lease equipment.* Lease equipment housing may be built by an operator without the need to get any special permission. He may get material for that job through the procedure of Order P-98-b covering material for use in production. As a special exception to that procedure, to secure a bath tub, the operator must submit the original and two copies of the delivery order for approval to the PAW District Office for the District in which the housing will be located, marked "Ref: P-98-b." Such a delivery order may not be placed with a supplier until the original and one copy are returned to the operator.

(2) *Housing other than lease equipment.* The construction of housing which is not lease equipment is governed by Order P-55-c, and the operator must follow the provisions of paragraph (f) of this direction to undertake such housing construction.

(d) *Construction of housing by an employee of a production operator.* Employees of operators engaged in production operations are the only employees who can use this direction to get housing material. Employees of operators in other branches of the industry may not use this direction. Even an employee of a production operator may not use this direction unless his housing is lease equipment housing, and then before he uses the preference rating or symbol assigned he must have his job approved by filing a letter (in duplicate), containing the following information, with the PAW District Office for the District in which the housing will be located, marked "Ref: P-98-b":

Name and address of applicant.

Name and address of his employer.

Location of the proposed house (field, county, and State, and street address or other specific location).

Description of the work to be done, of the structure, type, size, etc.

Name of owner of the land on which housing will be located.

Reason housing necessary.

Other work required, such as grading, clearing, tearing down existing buildings, etc.

What utility connections by utility companies will be required. (If any, attach certificate from company that they can be made.)

When work will be begun and finished.

In any approved job, the employee may use a preference rating of AA-3 and allotment symbol P-1, but the rating and symbol will not be valid unless the employee follows the same procedure as that set out in paragraph (b) (3) of this direction. In the certificate set out in that paragraph, however, the employee should use allotment symbol P-1 in place of allotment symbol MRO-P-3 presently appearing in the certificate.

(e) *Construction of housing in connection with pipe lines.* Material may not be used for the construction of housing in connection with a pipe line unless special permission is obtained. An operator may apply for such permission and a preference rating and an allotment symbol for the necessary material by filing PAW Form 30 in accordance with the instructions for that form.

(f) *Construction of other housing.* Material for housing, other than lease equipment housing or housing in connection with a pipe line, must not be used unless special permission is obtained. That use of material is governed by Order P-55-c, and the operator should apply for such permission and for a preference rating and allotment symbol for the necessary material by following the procedure established by Order P-55-c. However, Form WPB-2896, which is used by that order, should be filed with the PAW District Office for the District in which the housing will be located, which office will forward it to the National Housing Agency with the proper recommendation. In addition to that form, the operator should also file with the PAW District Office a letter indicating the specific need for the housing, the type of work performed by prospective tenants, and the annual incomes of prospective tenants.

(g) *Rules governing the size of houses and the use of materials.* Any housing construction undertaken with the priorities assistance of this direction must conform with the WPB War Housing Critical List and War Housing Construction Standards which are part of Order P-55-c. The Standards tell how large a house may be built depending upon the number of its rooms and set forth other limitations. The critical list tells what materials and equipment may be incorporated in the housing. Copies of the List and the Standards can be secured from the nearest WPB Field Office.

GENERAL

(h) *Records.* The production operator who signs a certificate used to make priorities assistance available to his employee under this direction must keep a copy of the employee's delivery order and of the certificate for two years.

Issued this 26th day of August 1944.

PART 1167—LIQUEFIED PETROLEUM GAS EQUIPMENT

[Limitation Order L-56, as Amended Aug. 26, 1944]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of liquefied petroleum gas and liquefied petroleum gas equipment for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1167.1 *General Limitation Order L-56*—(a) *Applicability of other orders.* This order and all transactions are subject to all applicable orders and regulations of the War Production Board.

(b) *Definitions.* (1) "Liquefied petroleum gas equipment" means equipment (other than marine, rail, pipeline or truck facilities used in transportation of liquefied petroleum gas and other than equipment used in natural gasoline recovery or refining as these terms are defined in Order P–98–b), or parts thereof, used to contain, distribute or dispense propane, propylene, butanes, butenes, or any combination or dilution thereof commonly known as liquefied petroleum gas.

(2) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind.

(3) "Structure" means any building, physical construction or portion thereof, used in marketing or distributing liquefied petroleum gas, but not including equipment or operating supplies used therein.

(4) "Maintenance and repair" means (without regard to accounting practice):

(i) The upkeep of any structure or liquefied petroleum gas equipment in a sound working condition or the restoration or fixing of any structure or liquefied petroleum gas equipment which has broken down or is worn out, damaged or destroyed.

(ii) Any other use of material not exceeding in material cost $500 for any one complete operation which has not been subdivided for the purpose of coming within this definition.

"Maintenance and repair" shall not include either of the following: (a) any use of material in connection with a service station or retail outlet other than for upkeep or restoration purposes; or (b) the use of material for new installations of or additions to or expansions of liquefied petroleum gas equipment.

(c) *Conservation of liquefied petroleum gas equipment.* Unless permitted by paragraph (d), no person shall use material for or in a structure, or shall install liquefied petroleum gas equipment or deliver or otherwise supply any such equipment for installation purposes.

(d) *Exceptions.* Material and liquefied petroleum gas equipment or parts may be used or installed:

(1) Where material is to be used for the maintenance and repair of any structure or liquefied petroleum gas equipment;

(2) Where containers of equal capacity are exchanged (or a container replaced by one of lesser capacity) on the premises of any person in the normal course of distribution of liquefied petroleum gas;

(3) Where the liquefied petroleum gas equipment to be installed was installed and in actual use prior to April 1, 1942, and was withdrawn from such use on or subsequent to that date. However, such equipment may not be installed under this subparagraph if it is to be installed either for the purpose of burning or consuming liquefied petroleum gas in an internal combustion engine or for operating an additional gas consuming appliance or apparatus in connection with liquefied petroleum gas equipment currently installed or in use;

(4) Where the War Production Board or the Petroleum Administration for War has determined that the use of liquefied petroleum gas equipment is necessary and appropriate in the public interest and to promote the war effort. Application for such a determination shall be made on Form WPB–809 (Revised) and filed with the Petroleum Administration for War, 855 Subway Terminal Building, Los Angeles 13, California or Petroleum Administration for War, Interior Building, Washington 25, D. C., whichever is appropriate, Ref. L–86. Only those persons who wish to install liquefied petroleum gas equipment for use in PAW District Five may file an application in Los Angeles, California;

(5) Where the War Production Board or the Petroleum Administration for War has determined that the construction, reconstruction, expansion or remodeling of any structure is necessary and appropriate in the public interest and contributes to the successful prosecution of the war. Application for such a determination shall be made on PAW Form 30 and filed in accordance with the instructions on that form.

(e) *Required certification.* Any person acquiring liquefied petroleum gas equipment (but not material for use in a structure) shall endorse on all copies of each purchase order or contract for such equipment which are placed with any person, a statement in substantially the following form:

> The liquefied petroleum gas equipment which is ordered in this purchase order (or contract) is to be used in conformity with the provisions of General Limitation Order L–86, with the terms of which order the undersigned is familiar.

This certification, or any other applicable certification made available by Priorities Regulation No. 7, must be used in accordance with the provisions of that regulation. The regulation provides specifically that the certification must be signed manually or, under certain conditions, by use of a facsimile signature.

Where liquefied petroleum gas equipment is to be acquired for maintenance and repair purposes the one-time certification prescribed by Priorities Regulation No. 7 may be used.

No certification of any kind need be made where containers are replaced or exchanged as permitted by paragraph (d) (2) above.

(f) *Violations.* Any person who willfully violates any provision of this order or who willfully furnishes false information to the Petroleum Administration for War or the War Production Board in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance by the War Production Board.

Issued this 26th day of August 1944.

PART 1167—LIQUEFIED PETROLEUM GAS EQUIPMENT

[Limitation Order L–86, Direction 1, as Amended Aug. 26, 1944]

PLACEMENT OF ORDERS FOR LIQUEFIED PETROLEUM GAS TANKS WITH TANK MANUFACTURERS

The following direction is issued pursuant to Limitation Order L–86:

(a) *What this direction covers.* This direction establishes rules governing the placement of orders for liquefied petroleum gas tanks with tank manufacturers. This direction shall not apply to the placement of orders for portable compressed gas cylinders of the type commonly used for domestic or household installations.

(b) *Original approval or authorization must be given to manufacturers.* Before certain installations or deliveries of liquefied petroleum gas tanks can be made it is required by Order L–86 that approval be requested by an application on Form WPB–809 revised (formerly PD–397). If approval of any such application is granted on Form WPB–809 revised, Form GA–855, or other written authorization by letter or telegram, the original authorization received from the War Production Board or the Petroleum Administration for War must be submitted to the manufacturer together with a purchase order certified in accordance with paragraph (e) of Order L–86. No tank manufacturer shall deliver and no person shall accept delivery of a tank unless the original authorization and a certified purchase order are both submitted to the tank manufacturer. No preference rating granted on Form WPB–547 or Form WPB–541 may be deemed an authorization to purchase tanks under this Direction.

After a purchase order is accepted by the tank manufacturer, he shall endorse on the original authorization his name and the number of tanks to be delivered on the basis of the authorization which has been sent to him. He must then return the endorsed authorization to the purchaser who has ordered the tank(s).

(c) *Order must be placed with tank manufacturer within 60 days.* An approved Form WPB–809 revised, Form GA–855 or other authorization must be used to purchase liquefied petroleum gas tanks covered by it within 60 days of the date of approval. Unless the authorization is mailed by the applicant (purchaser) within that 60-day period, the approval shall be void and of no effect, and

it will be necessary to reapply for the tanks covered by such application or other authorization.

(d) *Reports by manufacturers of liquefied petroleum gas tanks.* Each liquefied petroleum gas tank manufacturer shall on or before the 10th day of June, 1944 and on or before the 10th day of every month thereafter, file a report by letter in duplicate covering the preceding calendar month. This report shall consist of the following items of information covering all tanks subject to this direction and for which purchase orders were accepted during the month:

Persons to whom deliveries will be made under such purchase orders;

Number and description of tanks to be delivered to each person, and for each item the case numbers of corresponding authorizations submitted to manufacturer by purchaser.

This report should be addressed to the Petroleum Administration for War, Interior Building, Washington 25, D. C., Ref: L-56.

NOTE: The reporting requirements of this direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-559]

DORRIS JEWELRY CO.

Reuben Komisar, doing business as Dorris Jewelry Company, at 629 Church Street, Nashville, Tennessee, began new construction consisting of altering and remodeling a building located at 629 Church Street, Nashville, Tennessee, without authorization from the War Production Board. The cost of this construction was $804.00 which amount exceeded the limit of $200.00 permitted by General Conservation Order L-41, and was in violation of that order. Reuben Komisar was aware of the War Production Board restrictions on construction and the beginning and carrying on of this construction without authorization constituted a wilful violation of General Conservation Order L-41.

This violation of General Conservation Order L-41 has diverted critical materials to uses not authorized by the War Production Board and has hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, that:

§ 1010.559 *Suspension Order No. S-559.* (a) Neither Reuben Komisar, doing business as Dorris Jewelry Company, his or its successors or assigns, nor any other person, shall do any construction on the premises at 629 Church Street, Nashville, Tennessee, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Reuben Komisar, doing business as Dorris Jewelry Company, his or its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on the date of issuance.

(a) A manufacturer of asphalt shingles, asphalt roll roofing, asphalt siding, asbestos shingles, asbestos siding, cork board or metal weather stripping may use the MRO symbol to buy steel nails which he will deliver along with such products for use in applying them. He may not use the MRO symbol to buy more steel nails than needed to apply the asphalt shingles, asphalt roll roofing, asphalt siding, asbestos shingles, asbestos siding, cork board or metal weather stripping with which he delivers them, and he must not increase the quantity of steel nails delivered with any unit of such product over the quantity he delivered with such unit during the year 1943.

(b) A manufacturer buying steel nails under this direction does not have to charge them against his MRO quota.

(c) A manufacturer who can purchase his steel nail requirements under this direction must not get them under Order M-21-b-2 relating to steel warehouses and dealers, or under any other regulation or order. The provisions of Order M-21-b-2 or of CMP Regulation No. 4 shall not apply to such a manufacturer so far as the purchase and sale of steel nails bought under this direction are concerned.

PART 3290—TEXTILES, CLOTHING AND LEATHER

[Limitation Order L-99, as Amended Aug. 28, 1944]

COTTON TEXTILE PRODUCTION

The fulfillment of requirements for the defense of the United States has created a shortage in the production of cotton textiles and materials for making cotton textiles for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.48 *Limitation Order L–99—(a) Operations of looms producing cotton textiles.* (1) No person shall, regardless of the presentation of rated orders, operate looms contrary to the provisions in the schedules of this order. These restrictions shall not prohibit, after written notification to the War Production Board, the manufacture of any construction in any group in the schedules of lower pick than the lowest pick specified in the "May produce only" column as to such group, unless the War Production Board by a specific direction prohibits that manufacture.

In case any person believes it to be in the interest of production for military or essential civilian needs to adjust his production otherwise than as provided in said schedules, he may file an application by letter and the War Production Board will consider such application in the light of programmed requirements.

(2) No person shall operate spinning machinery or looms acquired by him after June 30, 1944 except as specifically authorized in writing by the War Production Board. For such authorization, an application may be made by letter to the War Production Board stating all facts which the applicant deems important and pertinent to his particular case. In all instances he shall state the type of fabric or yarn he wishes to produce, and in instances where he has acquired used spinning machinery or looms he shall state the name of the person who formerly owned or controlled the equipment and the fabric or yarn produced by such former owner.

(b) *Further restrictions.* (1) No producer or converter of cotton textiles shall produce, convert or deliver cotton textiles and no person shall accept delivery of cotton textiles from a producer or converter, contrary to any specific direction which may be issued from time to time by the War Production Board.

(2) [Deleted Aug. 28, 1944.]

(3) [Deleted Aug. 28, 1944.]

(4) [Deleted Aug. 28, 1944.]

(5) Each person in the business of producing woven cotton textiles shall, in the calendar quarter beginning July 1, 1944 and in each calendar quarter thereafter, produce a minimum linear yardage of each construction marked with an asterisk on any schedule of this order equaling the greater of either of the following:

(i) 90% of the linear yardage of such construction produced by him in the second calendar quarter of 1944, or

(ii) The linear yardage which can be produced by operating each loom producing such construction at not less than the number of hours any other loom in his mill is operated.

(6) No person shall operate at a rate under which his aggregate production of

(i) 31" and 63" Army tent twill (U. S. Army Specification JQD–48) and

(ii) 33" and 65" substitute duck (tentative U. S. Army Specification JQD–580), and

(iii) Any other fabrics or widths of fabric which may be developed by negotiation between the producer and the U. S. Army and Navy for use as duck or duck substitute

will be less during any calendar quarter than the aggregate linear yardage of the drills, twills and sateens delivered by him on unrated orders in the period from January 1, 1944 through March 31, 1944.

This requirement shall not prevent the production of any cotton textiles for orders rated AA–2X or higher which were accepted before July 22, 1944.

(7) Each loom which on April 1, 1944, produced or was assigned to the production of bed ticking and which is now required to produce Army tent twill shall be operated at least as many hours per week as the loom which is operated the most hours per week at the same plant.

(8) Each producer of corduroys (reported in Item Numbers 152 through 154, Form WPB–658–B (3/17/44)) shall, beginning September 1, 1944, set aside in each succeeding three months period a poundage of yarns equal to 40% of the poundage of yarn he produced and purchased for weaving into corduroy or jungle cloth in the first calendar quarter of 1944, and shall produce from this set aside yarn one or more of the following fabrics:

(i) Duck.
Army.
Flat, single filling.
Flat, double filling.
Numbered.
Shelter tent.
Flat, high sley, 9.5 oz. (tentative Army Spec. JQD–580), 33" or 65" width, or any width which may be developed by negotiation between the producer and the U. S. Army or Navy.

(ii) Tent twill (U. S. Army Spec. JQD–48), 31" or 63" width, or any width which may be developed by negotiation between the producer and the U. S. Army or Navy.

(iii) Any fabric which may be developed by negotiation between the producer and the U. S. Army or Navy for use as duck or as a duck substitute.

(iv) Jungle cloth for the U. S. Navy.

(c) *Reports and records.* All persons operating looms for the production of cotton textiles of any kind shall file with the War Production Board at the times specified in the reporting forms, reports on Forms WPB–658–A, B, C, and D, giving the information therein required. All persons affected by this order shall keep and preserve for a period of not less than two years, accurate and complete records concerning inventories, production and sales. The reporting requirements of this order have been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

(d) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from and stating fully the grounds of the appeal.

Any appeal from the provisions of paragraphs (b) (6), (b) (7), (b) (8) or Schedule B must contain the following information:

(1) A full statement of the type, model, age and amount of all equipment in the mill, including all pertinent data regarding sizes of rings on spindles owned or operated, and the amount of auxiliary equipment (such as pick gears, reeds, etc.) owned.

(2) A full statement of the amount and type of new equipment needed if the provisions of this order are to be met.

(3) A full statement on the amount of labor available in each activity of the mill, and the shifting of this labor which would be necessary and the amount of new labor necessary in order to carry out the provisions of this order.

(4) A full statement of the production of yarns during the preceding three

months showing the production of yarns by counts and types of twist.

An appeal for suspension of the requirements of paragraphs (a) or (b) may be made on the ground that compliance will result in production at a loss, provided that an application for price relief on that ground is first filed with the Secretary of the Office of Price Administration, Washington, D. C., and a copy is filed with the WPB appeal. If the WPB appeal is granted, the requirement of these paragraphs for increases above current production will be suspended until the decision by the Office of Price Administration upon the application for price relief. This paragraph does not indicate or limit the extent or kind of price relief, if any, which may be granted by the Office of Price Administration.

(e) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.
